

New Orleans Republican. OFFICIAL JOURNAL OF THE UNITED STATES OFFICIAL JOURNAL OF NEW ORLEANS

THE DAILY REPUBLICAN May be had of the following dealers: George Ellis, opposite the Postoffice. C. C. Haley, No. 19 Commercial place. C. G. D. Hollis, No. 61 Exchange place. A. Simon, St. Louis street, between Royal street and Exchange alley (under St. Louis Hotel).

Local Intelligence.

CONFEDERATE PAPER MONEY.—This reporter yesterday visited a money broker's office with a friend, the latter calling to obtain a sum of greenbacks due him. The amount to his credit was for a roll of Confederate paper currency he had left to be sold. Some one had purchased the bills, paying a small amount of good money for each roll representing a thousand dollars.

LOVERS OF AGATE SETS OF JEWELRY need not go across the big pond to find extraordinary specimens, for rough bits of the stone from Arizona, sent to Colonel M. M. Samuel, No. 19 St. Charles street, display all the required beauty. The Colonel has sent for inspection two samples, both finer than any of those which come from Europe, and he informs us that many trinkets sold in this country as real moss agate are found in Arizona, and there is no cheat, for the samples are pure as any from foreign parts.

DUST IN EYES, MOUTHS, NOSES, and every other portion of poor humanity, has been the prevailing complaint for several days, and now the change to mud is acceptable. The windstorm of yesterday culminated in a smart rain last evening, settling the question entirely to the satisfaction of most people.

NEW PORTIONS.—Delicate palates can now be tickled with the flavor of new potatoes, which are on sale at all the markets.

THE QUESTION OF RECORDERSHIP.—The Supreme Court last Monday rendered a decision in the case of Campbell vs. Michel. Recorder Campbell was the old incumbent of the Sixth District recorder's court, and held his office after the fourth of last April, the City Council failing to elect Governor Warmoth stepped in and appointed Mr. Michel on the twentieth of last September, in place of Mr. Campbell. Four days afterward the Council woke up and concluded to avail themselves of the right to elect, choosing Mr. Campbell for the Sixth District. The case went into the courts, where it hung until Monday, when a final decision was rendered, giving Mr. Michel the position.

IN THE CASE OF HOUGHTON vs. GERSON, the Superior Court virtually says that that court can not decide the contest, which places the question just where it stood when Mr. Gerson received his recent commission from Governor Kellogg and demanded the office from Mr. Houghton. Should Mr. Gerson now feel inclined to pursue his suit, he can take advantage of the law passed at the last session of our Legislature and seek a remedy under its provisions. We do not know that he will avail himself of that law, or that he will still contend for the office.

GOVERNOR KELLOGG has it in his power to settle the matter and sever the knotty question by signing the new law concerning the recorder's courts. That law signed and promulgated, all the recorders can be removed and new ones appointed, when there will remain no opportunity for reasonable contention.

A partial contradiction to our report of the manner of two solid doves being spilled out of a lung on Common street, near the engine house of No. 14, is on our table. C. A. D. asserts that it was not the steamer that frightened the horse, as the engine was working at a fire when the mishap occurred. It matters little what caused the misfortune, and had the steamer been the origin of it no one could be blamed. However, as our attention has been called to the error we make the correction, hoping we will never go further from the right path.

A HAIL.—Jane Haines found little comfort in the first precinct stationhouse last evening charged with stealing three Metro-politan warrants, each for \$50, a mortgage note for \$20, a gas bond for \$15 and \$200 in currency.

SIX BUNGALOWS, each one completely surrounded by new whisky barrels, were found with David Lloyd, at the corner of St. Ferdinand and Chartres streets, not very far from the distillery of S. W. Hammond. His efforts to sell the barrels betrayed his claim to the bungalows, consequently he was sent to prison to play checkers with his nose and lament over the quick detection of those who can at a glance detect stolen property.

ROBERT WALKER is under arrest in the Third District, charged with having revivified a girl only seven years old, on Celestine, between Mandeville and Marigny streets. He is thirty-five years old.

FRANK CRAWFORD will immediately have business with the new petty jury to take a talk concerning a little robbery which took place in Lafayette square Monday night.

IMMEDIATELY after the late of No. 38 Rampart street, went on a burst, blinding us furiously, burning the owner's hands badly as he threw the flaming stuff into the street, to prevent the house burning down.

A FUGITIVE FROM JUSTICE.—Detectives Smith and Donovan arrested a young man named Joseph Rich, recently employed as ticket seller for the Pacific railroad at St.

LOUIS. It is asserted that he embezzled several tickets, which he attempted to dispose of in this city. Special Agent N. E. Scott arrived here with a requisition for him from the Governor of Missouri, and last evening took his prisoner away.

THE PEOPLES COLUMN.

Practical Constitutional Questions. Article eighty-four of the State constitution declares that "each district court judge shall receive a salary to be fixed by law, which shall not be increased or diminished during his term of office, and shall never be less than \$5000."

Article 1339 of Ray's Revised Statutes provides that "the salaries of the district judges of this State shall be \$5000 each per annum, the same to be paid quarterly by the State Treasurer upon their own warrant upon the Auditor of Public Accounts."

At the end of each quarter the judges draw their warrants, and upon them the Auditor of Public Accounts issues warrants on the State Treasurer for \$1250. The Treasurer never pays the judges one dollar, and they are compelled to sell them to brokers at a little over one-third, or perhaps one-half their face value.

Are they not entitled to be paid quarterly, and as the Treasurer does not pay, and the judges are obliged to sell their warrants at one-third or one-half their face, and I may add, their constitutional value, is it not a diminution of the salary in the most essential signification of the term? If the judges can get nothing from the State, nothing from the Treasurer (and such is the case), and must sell their warrants at one-half their face value, you will perceive that the constitution and the law are delusions.

They are not entitled to be paid quarterly, and as the Treasurer does not pay, and the judges are obliged to sell their warrants at one-third or one-half their face, and I may add, their constitutional value, is it not a diminution of the salary in the most essential signification of the term? If the judges can get nothing from the State, nothing from the Treasurer (and such is the case), and must sell their warrants at one-half their face value, you will perceive that the constitution and the law are delusions.

They are not entitled to be paid quarterly, and as the Treasurer does not pay, and the judges are obliged to sell their warrants at one-third or one-half their face, and I may add, their constitutional value, is it not a diminution of the salary in the most essential signification of the term? If the judges can get nothing from the State, nothing from the Treasurer (and such is the case), and must sell their warrants at one-half their face value, you will perceive that the constitution and the law are delusions.

They are not entitled to be paid quarterly, and as the Treasurer does not pay, and the judges are obliged to sell their warrants at one-third or one-half their face, and I may add, their constitutional value, is it not a diminution of the salary in the most essential signification of the term? If the judges can get nothing from the State, nothing from the Treasurer (and such is the case), and must sell their warrants at one-half their face value, you will perceive that the constitution and the law are delusions.

SPECIAL NOTICES.

At this very hour thousands are suffering from the effects of a cold, cough, and general debility, which the variable weather of the season is apt to produce, especially if the nervous system be particularly sensitive and the physique delicate rather than robust. All such sufferers, however much they may desire sympathy, are nevertheless the cause of their own want of success. A course of Hostetter's Stomach Bitters, commenced a month ago, would have exempted them from their present troubles.
