SENATOR CARPENTER.

A Complete Refutation of the Long Branch Herald.

We are not aware that Senator Carpenter intends to take any step in regard to the slander suit on foot against him by an enemy last summer.

These letters not only refute the charges made against Senator Carpenter, but show that they have been inspired by personal malice.

My DEAR SENATOR—I was at Long Branch the day after yours were last summer, or at all events, the day the first telegram appeared in the New York Tribune.

I saw the Tribune correspondent (Mr. Ramsdell) a few moments afterward, and referring to the telegram in the Tribune, I asked him what he meant, and whether there was any truth in it.

The true facts have been known to us for some time past. It is a matter of course for very natural reasons desires not to bring his wife's name before the public.

Mr. Carpenter went, during the summer, to Long Branch, having an appointment with a resident on business.

It was a pity that the President, himself a Senator, should have been so grossly treated.

The charge of "beastly intoxication" was a necessary charge; for no one would believe that Mr. Carpenter was such a natural-born idiot as to do what was charged, if he were not a man of high position.
