THE NOMINATIONS AT DELTA.

The telegraphic dispatches this morning contain the gratifying intelligence of the nomination of Hon. Frank Morey for re-election to Congress, and that of T. S. Johnson, Esq., to the State Senate.

Mr. Morey's course in Congress, his ceaseless advocacy of measures for the benefit of the State, his efforts to pass the bill for the building of the Fort St. Philip canal, the obtaining of government aid in building the levees, and appropriations for the mouth of the river have all been attentively noted by his constituents and the people of Louisiana.

Added to this was the almost spontaneous resignation in favor of Mr. Duboulet in the State convention, which healed all differences and endeared him to all of both wings of the party.

In returning him to Congress for the fourth time, the fifth district has secured a Representative who will reflect honor on the wisdom of its voters and be a credit to the State at large.

Mr. Johnson is well known. For many years he has been collector of internal revenue of the third district, and as his nomination shows, has warm friends. He was a soldier throughout the war and bears honorable tokens of his courage on his person.

He will make an excellent representative in the Senate and will cause no regrets to those who support him.

The convention appropriately finished its labors by re-nominating, for the House of Representatives its president, William Murrell, Esq., of Madison, who so distinguished himself in the last Legislature by his attention to duty and fidelity to the interests of his constituents.

Second District Court. Assault and battery—Henry Demyer, Plaintiff vs. Henry Wright and Lucy Johnson. PLEADED GUILTY.

Assault—W. Fullwood, Plaintiff vs. Martin McKinzie, Defendant. RECOMMENDED TO THE SECOND DISTRICT COURT.

Successions of William Pringle and Christy Beck opened. Henry Dall prays to be emancipated.

The Levees. The Era No. 19 returned last evening, with the State Engineers and superintendent on board. During their tour of inspection, which lasted twenty days, every break, doubtful point, or probable dangerous spot in our levees has been visited.

At Ashland the corps made all necessary triangulations to determine the savings of the bank at that point; at Elton a small run around was staked out; at Bass' levee, a distance of 14,000 feet, or say three miles, was staked out. To fill this break at Bass' levee, 175,000 cubic feet of earth will be required.

At the Point Lookout levee, the temporary work will be trusted for another season. The Airline levee has been ordered to be built. In the parish of Madison very little work will be required. In Texas, Point Pleasant levee has been staked out, also Hard Times, the Disharon and Water-poor Levees. Below Red river, the lake side has been measured and estimated.

The Morganza levee has been staked for a distance of one mile, and will contain 205,000 cubic yards of earth. The breaks at Morrison's and the Red Store and Point Coupee (or Columbus) have been staked. The levee in West Baton Rouge, Glennon and Hereford, Lobdell's and Hickey, and various small breaks have been measured and estimated and most of them staked. Thence down every point where the slightest danger might be apprehended has received the attention of the engineers.

Yesterday finished the arduous labors of the expedition by the staking of the Bonnet Carre break.

The party returned to the city in good health, and cheerful as to the result of their labors. The expedition was composed of General Longstreet, on the part of the State, Mr. G. W. R. Bayley, on behalf of the company, as commissioners; General M. Jeff Thompson, Chief State Engineer; Colonel A. F. Wrotowski, Major John G. Longstreet, of the State engineers, and Captain M. W. Daiden and Major H. B. Richardson, engineers of the company. The labors of the expedition have been so thorough and successful that only the Morganza and Bonnet Carre levees are left for the outlet theorists to speculate or experiment upon, the levee at Hickey's having been put under construction. As it is the theorists must work rapidly, as both Morganza and Bonnet Carre levees have been staked, as noted above.

Personal. Some of our enterprising neighbors have announced the premeditated departure of Governor Kellogg for the North. We are assured by his excellency that these journals are wiser than he, for he has no such journey in contemplation.

F. A. Woolley, Esq., clerk of the United States Circuit Court, has just returned from a trip to Western Louisiana and Eastern Texas, where he enjoyed a few weeks recreation as his leisure. He comes back to his work looking stout and brown and rugged.

We are assured by his friends that Hon. R. H. Chadbourn will receive a re-nomination to the Senate from the convention which meets at St. John courthouse next Saturday. He served his constituents with such ability that a continuance of their confidence follows as a matter of course.

Judge A. A. Atocha and Captain J. A. Tobin are wasting their time at Mississippi City, utterly unconscious of the cool weather we are having in New Orleans.

J. H. Oglesby, Esq., and Senator West left for the North last evening.

Relief. The following contributions were received at the Mayor's office August 11, 1874:

Pittsburg—Second Presbyterian Church, Rev. W. D. Howard, D. D. pastor, through John F. Loy, \$80; Naples, Italy—Count Michael de Soto, an English resident, through B. Odell Duncan, of Washington, \$85.50; New York—Hon. W. F. Havemeyer, mayor, \$25.75; Pittsburg—From a sympathizer, through Leader Publishing Company, \$25.85. Total, \$478.60.

Total contributions to date, \$212,076.94.

Distributed. On Saturday, August 22, 1874, On Saturday, August 22, 1874, \$70,000 by the Louisiana single number Lottery.

Then to take place. There are three capital prizes of \$10,000 each.

Tickets only \$10—fractions in proportion.

BY TELEGRAPH.

WASHINGTON.

The Barelli Comet. WASHINGTON, August 11.—The following report upon the comet was received at the Navy Department to-day from the Naval Observatory:

UNITED STATES NAVAL OBSERVATORY, AUGUST 11, 1874. Sir—I have the honor to inform you that the department that approximate elements of the orbit of the comet of Barelli have been computed by Professor Newcomb, from his observations of the comet, and the position telegraphed from Paris. It appears from these elements that this comet will pass its perihelion about the twenty-fifth of August.

It will be visible with a telescope in the evening all about the end of the month, and in the morning during the whole of September. It is not likely to become brilliant enough to be seen by the naked eye. No statement was made as to the time of the observation. The orbit determined by Professor Newcomb indicates that it is a new comet, since no known comet has been found to move in an orbit anywhere near it.

Very respectfully, your obedient servant, C. H. DAVIS, Rear Admiral, Superintendent.

To Rear Admiral William Reynolds, Acting Secretary of the Navy.

Appointment. Mr. S. McAfee has been appointed district attorney for Northern Alabama.

More Spanish Discrimination Against American Shipping. It is officially reported that the Treasury Department has issued a new regulation, dividing them into three classes, namely: Coasting vessels, vessels from European ports and vessels from all other foreign ports.

The last named class must pay four times as much as the first and twice as much as the second mentioned. A heavy discharge duty is already paid on vessels from the United States.

This regulation has been imposed without allowing, according to ordinary usage of nations, a reasonable time between legislative enactments and their execution, and the publication of the decree.

A Cold Trail. The child found at Bennington is not the Ross child.

NEW YORK. Moulton's Statement. NEW YORK, August 11.—Moulton was at his residence all day. He refused to say if his statement was true or false, and would answer no questions on the subject.

District Attorney Winslow, Theodore Tilton and Moulton's stenographer were in attendance on Moulton from an early hour, and the latter was escorted with him for an indefinite period.

The house was besieged by newspaper reporters, but nothing definite could be ascertained. On the evening of the 10th, in conversation, said it was more than probable that the statement will not be ready for publication for a day or two, as the committee had to compare documents contained in the papers to report to the session. More than this he was unable to say.

What the Brooklyn Eagle Says. The Brooklyn Eagle, which has always defended Mr. Beecher, issued an extra last night, and in it says: "Mr. Moulton, in the Plymouth investigating committee this evening, he read to them a very short statement, which is to be kept private until to-morrow morning."

The Eagle, however, ascertains that it is favorable to Mr. Beecher; that Mr. Moulton disclaims having any testimony in his possession, and that he is not prepared to submit the committee originals of letters cited by Mr. Tilton in his statement, but apart from doing that he had no statement to make.

On re-examining Mr. Murrell, of Madison, was elected permanent chairman. From that time to final adjournment perfect harmony reigned. On motion of Mr. Morris the nomination was made unanimous.

After adjournment the temporary chairman called the convention to order, and the convention proceeded to the regular session, and T. S. Johnson, of Madison, was nominated by a vote of 12 to 1.

On the evening of the senatorial convention the parish convention assembled and re-nominated William Murrell to the House of Representatives by a unanimous vote.

Accepting the earlier part of the day and during the halting for temporary chairman, the conventions were very orderly and quiet.

McCrory Declines. CHICAGO, August 11.—George W. McCrory, who was nominated by Congress as the Republican of the fourth district of Iowa, has declined.

Florida Republican State Convention. TALLAHASSEE, Fla., August 11.—The Republican convention for the nomination of representatives to Congress met at the State house to-day and adjourned to allow the committee on education to report. In the meantime the bolters took possession of the capitol and barred the doors, refusing admission to the regular delegates. Governor Stearns was unable to get into the capitol, and several parties were very loudly supplied with ink but no harm done.

The convention was adjourned for thirty minutes. On re-assembling Mr. Murrell, of Madison, was elected permanent chairman. From that time to final adjournment perfect harmony reigned. On motion of Mr. Morris the nomination was made unanimous.

these documents were entrusted to him in confidence. He says he has known Tilton since 1857, and that he became acquainted with Beecher in 1863, and mainly through the case. Notwithstanding the fact that he has the consent of both Beecher and Tilton to tell all he knows about the case, and to furnish all documents he has in relation to it, and the additional fact that he has been twice summoned before the committee, he says he can not, in conscience and as a man of honor, give any confidences placed in him.

He came into this case as a peace-maker to settle it, and all he has done has been in that direction. Without his knowledge and against his wishes, certain documents have been published, and he says that he has in a statement made before the committee so many of the original documents as he has copies of, and which have been made public, he feels under obligations to place in the hands of the committee, if necessary.

Moulton had copies of all these documents made, and he handed these to the committee, holding himself ready to produce the originals, which had for the purpose beyond this Moulton was not willing to make any statement, nor did he feel himself justified, in honor or conscience, in producing any documents, other than those quoted by Tilton in his statement.

Moulton handed his statement to the committee and copies of the documents quoted.

It appears from hurried comparisons made by the committee, that Tilton, in quoting documents arranged them to suit himself. In some cases, only part of the documents were quoted, and in some cases passages are omitted; in one case the letter is divided by Tilton, and made to seem as if there were two letters, apparently for the purpose of camouflaging testimony. The committee has also charged Tilton with being significant, and as bearing hardly against Tilton.

Moulton was briefly cross-examined. He testified that he appeared for Frank Morey, and that if any attempt was made to assail his position, as a friend of both parties he might have to make a further statement. He refused to be cross-examined, himself furnishing the committee with copies of the documents quoted by Tilton.

Schooner Wrecked. The Sound steamer Boston ran down the schooner Daniel Frey, with all aboard. Two of the Frey's crew were picked up exhausted.

POLITICAL. Fifth District Convention at Delta—Re-nomination of Henry F. Winslow, Esq., for Congress—Colonel Thomas S. Johnson Nominated for the Senate—William Murrell Re-nominated for the House.

DELTA, La., August 11.—The convention for the fifth congressional district, held at this place to-day, nominated Henry F. Winslow, Esq., of Ouachita parish, on the first ballot by a vote of 19 to 16 for Judge H. R. Steele, of Tensas.

The earlier part of the session was rather riotous and disorderly. On counting the ballot for temporary chairman the excitement was much increased by a disagreement in the counting of votes, both factions claiming to have elected their nominee. An inkstand was thrown by an excited disputant, and several parties were very loudly supplied with ink but no harm done.

The convention was adjourned for thirty minutes. On re-assembling Mr. Murrell, of Madison, was elected permanent chairman. From that time to final adjournment perfect harmony reigned. On motion of Mr. Morris the nomination was made unanimous.

After adjournment the temporary chairman called the convention to order, and the convention proceeded to the regular session, and T. S. Johnson, of Madison, was nominated by a vote of 12 to 1.

On the evening of the senatorial convention the parish convention assembled and re-nominated William Murrell to the House of Representatives by a unanimous vote.
