MORE ECHOES.

The Press North and West on Southern Lawlessness. Our exchanges from all parts of the country continue to come in laden with free condemnations of the inhuman barbarities practiced upon the Republicans of the Southern States.

The federal authorities have stepped into the Southern field to protect the negroes. Yesterday the War Department received orders to send troops to the scenes of disturbance.

The reports from the South may well disturb, but should not surprise us, because ordinary sagacity might have foreseen the present state of things now existing there.

On the principles of "home rule," as interpreted by the White League, the first thing to be done is to expel the negroes from the State.

The authority to make a Republican form of government is flexible enough to go a good way, and common sense, which respects on earth the rights of the Southern States, should teach these Southern outcasts that we have a federal government, and that the power which emancipated the negro was able to protect him.

The Chicago Tribune of September 1 speaks unreservedly of the situation. It says: "The present high-handed measures in the South are precisely what we have feared and expected for the last three years."

Many of the Northern papers speak of us in a sorrow than anger. They saw this State but a few short weeks back holding out its hands for alms, for bread.

A Good Thing. The New Iberia Sugar-Down has a subject for congratulations. We are glad to hear that many of the colored people of St. Mary, like those of Petite Anse Baptist Church, have made up their minds not to participate in the elections.

SHERIFF'S SALES AT AUCTION FOR CITY TAXES OF IMPROVED AND VACANT REAL ESTATE.—Attention is called to the sales at auction to be made this day at noon at the Merchants and Auctioneers' Exchange, Royal street, by the sheriff of the parish of Orleans.

Local Discrimination Against Steam Engine Republians. More than a year ago the writer had business with "one of the oldest and best" who was then a prominent steam engine republians.

After three months of dangerous and hard labor putting in a temporary false bottom, white and black, in the Gulf of Mexico, West, and the manager of the dry dock here notified, also, again upon her arrival at the Southwest Pass, but upon reaching the city it was found that the vessel was not in the dock.

What was to be done? Nothing but to try and compromise with Mr. Star. But "where the purpose of the vessel was to be delivered to the Lone Star, which was offered to the Lone Star in either of the other docks, but as it would only take eight days to repair her and she must go, and in six weeks, there it was, ready for launching, and after she is launched she will doubtless lie idle a month.
