Board of Health.

The regular monthly meeting of the Board of Health was held last evening.

Present—Dr. C. B. White, president, Dr. Dennis and Messrs. Burwell, Bayley, Heath and Woodward.

The reading of the minutes of the previous meeting was dispensed with.

The report of the sanitary inspectors for the month of October was read.

D. S. Herrick, of the First District, reports two cases of yellow fever were both east of Magazine street, between N. Poydras and Terpsichore. One died October 11, the other October 13. They had lived here nine months and were consuming the district has been free from small-pox to October, when two cases occurred.

The principal schools do not observe the law in regard to vaccination of pupils. The gutters are in a foul condition. Inspections, 303; disinfections, forty-two; fumigations, three; small-pox, two.

Dr. J. T. Newman, of the Second District, reports nine cases of small-pox, five being sent to the hospital. The fish part of the French Market leaks from one end to the other. One case of yellow fever reported, but not believed to be such. Inspections, 548; disinfections, twenty-four; fumigations, ten; small-pox, nine.

Dr. G. Devron, of the Third District, says that on the third of October Peter Ferguson, ten and a half years old, died, after throwing up black vomit, at No. 617 St. Claude street. Said to have been infected from the fleet, but as no case has occurred there another cause must be sought for. October 14 Eliza Ferguson was taken sick, and died October 18; no black vomit, and body not opened after death was probably bilious remittent fever. October 13 Maria Leach, twenty-nine years old, twelve days from Iowa, was taken sick with yellow fever, but recovered; had worked at Natchez Cotton Press, and lived at No. 55 Spain street, 400 yards from the Ferguson cases. No case of fever occurred in these premises previously. Nineteen cases of other fever ended fatally. There is great suffering for water. Inspections, made, 473; disinfections, fifty-three; fumigation, one; yellow fever, two; small-pox, none.

Dr. Joseph Holt, of the Fourth District, reports Nicholas Masterson, thirty-three years old, four weeks in the city, was taken ill with yellow fever October 13, and died October 19. Inspections, 503; disinfections, twenty-three; fumigations, four; varioloid, one; yellow fever, one.

In the Fifth District, inspections made, 302. No report, Dr. Young having leave of absence.

Dr. George Kellogg, of the Sixth District, reports general health good, and no malignant disease prevailing.

Dr. George K. Pratt, of the Seventh District, reports the health good, and many nuisances abated. Inspections, twenty-five.

Dr. Newman also submitted a list of nuisances, which were ordered abated.

Dr. White stated that the steatophy Queenstown had brought two cases of yellow fever to the city on November 3. No other vessel had been fumigated since the quarantine had been raised, but Dr. Howe had since been instructed to continue fumigations.

It was agreed that the new City Council should be addressed relative to the health of the city, and the measures to be taken to protect it.

Dr. Devron, who had been sent by the Board of Health to Pascagoula, reported undoubted existence of yellow fever, and a number of cases examined. He had suggested measures of disinfection, and expressed thanks to Mr. Hart, of the Mobile road, for favors.

The following resolution was offered by Mr. Bayley:

Resolved, That the Board of Health respectfully request his excellency the Governor to appoint its president or some other of the board register of births, marriages and deaths for the parish of Orleans; and that the person appointed shall discharge the duties of said office without compensation, but all fees and emoluments of said office shall be received and collected by him to and for the exclusive use of the board of health, and all such fees and emoluments shall be paid into the treasury to the board to the credit of its general fund and to be used and distributed accordingly.

It was agreed that the new City Council should be addressed relative to the health of the city, and the measures to be taken to protect it.

The Fire Department in Cou.

On the thirtieth ultimo the Cou. voted to the Firemen's Charitable Association a resolution to suspend act.

operations after the fifth of this month, because the city has failed to pay the department its dues for several months.

Nearly all the companies are at present in debt, not one having received recompense from the city, but having expended their own funds to continue operations in rolling to fires. Employees have not been paid their salaries, and druggists, physicians, undertakers and others have not received any money this year.

The city is now indebted to the association in the sum of \$100,000. The association has 21 widows, 300 children and thirty-six orphans in its hands, and unless something is done quickly all relief will be suspended. The city has been unable to settle with the firemen, and as there was no prospect of obtaining money from that source the association last week adopted a resolution to cease operating. Last night the board of delegates held another meeting to take final action on the resolution. All the companies except Nos. 12 and 9 acquiesced, but said they would submit to the action of the board.

A committee of five, composed of Messrs. I. N. Marks, William Johnson, N. A. Llam-bian, F. Dudenberg, Jr., W. H. Manning and L. A. Witz, was appointed to wait on the board of underwriters, to ask that body if it will not make some arrangement to accept a portion of the firemen's claim against the city, at par, in order to assist the department in its present extremity. It is supposed that the insurance companies can use the aforesaid scrip in paying their indebtedness to the city, if so inclined. This will test the alleged friendship of insurance companies for their firemen.

One of the principal reasons for reconsidering the resolution to suspend was in the hope that when the new city Administrators take their seats they may be able to assist the association financially.

The meeting last night was a very full one, and the delegates were fully up to the necessities of the emergency.

City Assessment Department.

About three weeks ago Administrator Strucken and Mr. Henry Bonnard, chief clerk in the Department of Assessments, requested our reporter to warn taxpayers that unknown and unauthorized persons had obtained money from citizens by representing that on the payment of a specified sum of currency their assessment would be reduced. By some manipulation these speculators had become possessed of the fact that the assessment on many pieces of city property had been lowered without the knowledge of the owner, and on that information they operated. The Recorder published that statement at the time, and the little game was spoiled; but it seems that the adventurers have broken out in a new place. A person said to be a money broker called on the representative of a large corporation and said that for and in consideration of \$1000 he could have the association assessment cut down materially. The broker, when questioned about the method of transacting such business, stated that there was a ring who attended to these things. The gentleman informed Administrator Strucken, and nothing will be left undone to unearth this rascality.

Now, Mr. Strucken desires all parties who have paid brokers or others for reduction of assessments during the past two years to report the facts at his office, City Hall, in the hope that the guilty parties may be exposed. It is expected that victims will make ready responses to this request.

The Returning Board.

Senator Anderson having arrived in the city the returning board is now nearly complete. As yet it lacks some few days of the expiration of the legal day in commencing to canvass the returns. The board are, however, nearly prepared to commence work, and there will be no delay in the matter. A meeting will be held as soon as possible.

Journalism as a Profession.

A Washington special to the Louisville Courier-Journal of the fourth instant says: The Treasury Department has had an occasion to decide the question whether a journalist has a right to import free of duty books intended for his own use in his profession. The law of June 6, 1872, says that "books, almanacs, and newspapers, printed in the United States shall be free of duty; but heretofore this clause of the law has only been applied to books introduced by lawyers, clergymen, physicians and architects. A journalist recently arriving at one of the Atlantic ports imported a library valued at something over \$1000, which he contended should be admitted free of duty. The collector of the port, however, refused to establish a Mexican trade between this port and Vera Cruz. The ships are now provided; the rest depends upon the will of our merchants. The REPUBLICAN will use its best endeavors, and extend its good wishes for the success of the new line.

The Opera House.

This evening Verdi's grand opera "Le Trovatore" will be presented with the same cast which marked its first production.

To-morrow evening "Haydn" and "Les Noces des Jeannettes" will be produced. It is announced that at an early date "Les Huguenots" will be sung; it must also be noted that "La Juive" is in active rehearsal.

The Temperatures.

The thermometer at Louis Frigerio's, No. 50 Chartres street, on November 6, stood as follows: At 8 A. M., 60; at 2 P. M., 75; at 6 P. M., 79. Lowest point during the night of November 5, 59.

VALUABLE IMPROVED REAL ESTATE BOOK ACCOUNTS, NOTES, ETC., AT AUCTION BY THE SHERIFF. See all particular attention to the sales at auction to be made this day at noon at the Merchants and Auctioneers Exchange, Royal street, by the sheriff of the parish of Orleans. Said sales comprise:

1. A lot of ground, with the buildings and improvements thereon, situated in the Fourth District of this city, on Second street, between St. David and St. Patrick streets.

2. A lot of ground, with all the buildings and improvements thereon, situated in the Third District of this city, on Greatman street, between Bagatelle and Union streets.

3. And certain book accounts, notes, etc. For full particulars and terms see advertisement.

STATE ELECTION.

DUBUCLETS MAJORITY

CONGRESSMAN MOREY EJECTED

The Democrats claimed yesterday to have received information that Rapidie had been carried by their party by a majority of 351, and that their candidates for the lower House were elected. They also claimed that St. Landry by a majority of 2300. The claims are highly improbable, and we prefer to wait until we have further information.

A dispatch was received by Marshal Packard, which gave the following as the vote of Dubuclet and Morey, 2550; for Morey and Spencer, 2300. This guarantees the re-election of Congressman Morey by a handsome majority.

Morey's Majority.

Taking the official returns so far as received, the estimated majorities in the Democratic parishes, and the votes claimed by the Democrats in other parishes not officially reported; omitting Livingston, Sabine and Vernon, from which no returns are received; rejecting De Soto, where no Republican was permitted to vote, and the extravagant claim from St. Landry in the evening papers of yesterday, we find the following result:

Table with columns: Dubuclet, Morey, and various parish names with corresponding vote counts.

Majority for Dubuclet, 4,233

Republican estimates. Democratic claims.

While we have conceded this much to the opposition we still have faith that the actual count will materially increase the Republican estimates and diminish the Democratic claims.

At Custer opens the St. James barroom this morning.

Army Promotions.

The following promotions in the army were announced on the third instant:

Major Matthew M. Blunt, Fourteenth Infantry, to be lieutenant colonel Fifteenth Infantry; Captain Montgomery Bryant, Second Lieutenant Garland N. Whistler, Fifth Artillery, to be first lieutenant; Captain David P. Hancock, Seventh Infantry, to be major Second Infantry; First Lieutenant J. B. Brickle, Fifth Artillery, to be captain Artillery; First Lieutenant Daniel H. Murrell, Sixth Infantry, to be captain Sixth Infantry; First Lieutenant William Logan, Seventh Infantry, to be captain Seventh Infantry; Second Lieutenant George S. Hoyt, Eighth Infantry, to be first lieutenant Fourth Cavalry; Second Lieutenant Louis H. Orleans, Tenth Cavalry, to be first lieutenant Tenth Cavalry; Second Lieutenant Garland N. Whistler, Fifth Artillery, to be first lieutenant; Second Lieutenant Stephen W. Grooback, Sixth Infantry, to be first lieutenant Sixth Infantry; Second Lieutenant William L. English, Tenth Infantry, to be first lieutenant Seventh Infantry; Second Lieutenant George S. Hoyt, Eighth Infantry, to be first lieutenant Eighth Infantry; Second Lieutenant John L. Clem, Twenty-fourth Infantry, to be first lieutenant Twenty-fourth Infantry.

A. B. Custer opens the St. James barroom this morning.

Counting up the Guelphs.

The birth of a son of the Duchess of Edinburgh increases the number of Queen Victoria's grandchildren to twenty-six, and of this large family twenty-three are still living. The Queen's oldest child, the Princess Royal Victoria, wife of the Crown Prince of Germany, has had two sons and four daughters, of which number one has died. The Queen's second child, the Princess of Wales, married to the Prince of Wales, has had three sons and five daughters, one son being dead. The Queen's third child, the Princess Alice, wife of Prince Louis of Hesse-Darmstadt, has had two sons and five daughters, one son being dead. Next comes the Queen's fourth child, the Duke of Edinburgh, married to the Grand Duchess Maria of Russia, with one son. Finally, the Queen's fifth child, the Princess Helena, wife of Prince Christian of Schleswig-Holstein, has had two sons and two daughters, all of whom are living. The Princess Louise, the Queen's sixth child, wife of the Marquis of Lorne, is not yet the head of a family. The other three children of the Queen, the Duke of Connaught, Prince Leopold and the Princess Beatrice, are unmarried. Altogether, Queen Victoria has thirty-two children and grandchildren living, which constitutes a very respectable family, even for a queen.

A Convenient House.

If anybody in Danbury is looking out for lodgings in Philadelphia, to be occupied during the Centennial Exhibition, I would advise him to hunt up the place mentioned in the following advertisement, which I cut from a Philadelphia paper:

"The upper part of a house to let, containing three rooms, a cellar, kitchen, and a back yard."

I recommend this place because I can imagine nothing more interesting than a cellar on the third floor, and a back yard which can be reached only through the fourth-story window. I am going around to see that house the next time I visit Philadelphia, so that I can grasp the phenomenon better. I suppose they have the garret about eight feet below the front pavement. The only explanation of the mystery that occurs to me is that somebody has turned the house upside down and stood it upon its head, while the back yard, having adhered to the foundation wall, remains suspended in the air. It is a very entertaining to the hired girls who have to hang out the wash on the under-side of that yard. They had better practice for a while on the flying trapeze.—Max Adler in Danbury News.

BY TELEGRAPH.

EXCITEMENT IN MONROE

ANOTHER COUSHATTA AFFAIR FEARED

Lieutenant Hodgson, Seventh Cavalry, and Deputy Marshal Selye Arrested by a Sheriff.

Democrats and Republicans Celebrating their Victories.

(Special to the New Orleans Republican.)

MONROE, La., November 6, 1874.

Lieutenant Hodgson, of the Seventh United States Cavalry, and Deputy Marshal Selye were arrested this evening by the sheriff of Lincoln parish and a crowd of 200 men.

Fifteen cavalrymen have started after them for protection.

Fears are entertained of a Coushatta affair.

The mob were greatly excited, and indulged in abusive and insulting language toward Selye after the arrests.

The Democrats are firing guns for their national victory. The Republicans are firing for the victory of General Morey.

OUACHITA.

Celebration in Charleston.

CHARLESTON, November 6.—The grandest display ever known in this city is now progressing in honor of the Democratic victories. A torchlight procession, illuminations and firing of cannon are the order of the night. Governor Vance is now speaking to a score of people from independent squares. The greatest enthusiasm prevails.

Republican Legislature in Illinois.

CHICAGO, November 6.—The Tribune this morning gives the complexion of the next Legislature as follows: Democrats, 55; Republicans, 25; Independents, 3. House—Republicans, 67; Democrats, 63; Independents, 22.

Senator Gordon says: "It seems likely that the opposition and independent reformers combined will have a majority of one in the Senate. The returns from two-thirds of the legislative districts show a net loss to the Republicans of eleven in the lower House, but it is probable they will retain their majority in this branch, and also a majority of one in the Senate, at least in session at any time become necessary."

Firing Guns in Wilmington.

WILMINGTON, N. C., November 6.—One hundred guns were fired this morning in honor of the recent Democratic victories. The rejoicings are immense.

Delay in Counting in Philadelphia.

PHILADELPHIA, November 6.—The counting of the election returns of the city wards by the judges of common pleas will probably occupy ten days. Only one ward has been completed so far.

The Cubans Vote with the Republicans in Key West—Republican Congressman Elected in Florida.

AUGUSTA, Ga., November 6.—News from the West says the Cubans voted for the Republican candidate, thus defeating Henderson. Walls, a negro, has been elected over Finley, Democrat. The Democrats have twenty majority in the Legislature.

Nevada Elects Democratic Governor and Republican Congressman and Legislator.

SAN FRANCISCO, November 6.—The returns from Nevada are still incomplete. Adams, Democrat, for Lieutenant Governor, is elected. W. Doolittle, Republican, for Secretary, is elected. The Republican majority in the Legislature on joint ballot will be fifteen to twenty. The Republicans claim the entire State ticket, with the exception of the Senator from Humboldt, Adams, Democrat, for Lieutenant Governor. No estimate has been made of the general majority.

The Democratic Majority in Alabama.

MONTGOMERY, Ala., November 6.—The Legislature has voted for the Democratic majority. The result in the first congressional district is doubtful. If Haralson, colored Republican, has been elected by a considerable extent he is elected by Bromberg.

In the second district Williams, Democrat, has 1000 majority over Rapier, colored Republican. In the third district Bradford, Democrat, beats the colored Republican, in the fourth district Hays, Republican, has 6000 majority. In the fifth district Caldwell, Democrat, beats Sheffield, Independent. In the sixth district Heston, Democrat, beats Sloss, Independent, the present incumbent, by about 7000 majority. The Democratic majority on joint ballot in the Legislature is twenty-five.

A negro named "Uggs" was jailed to-day by the United States marshal on the charge of shooting and killing a young son of Judge Kiels, of Barbour county, on election day, and destroying the ballot box at Spring Hill in Barbour county.

Real estate is held twenty-five per cent higher than before the election.
