FRATERNIZATION.

A correspondent writes: EDITOR REPUBLICAN: In your article on the "Letter of Mr. Davis," when questioning the Bulletin's "exhibition of intense sectional bitterness" manifested in the treatment of General Longstreet, and others like him? What is the use of talking about "fraternization" when such men as he are persecuted because they try to fraternize? SUBSCRIBER.

That some good has been accomplished by these Sabbath night services we freely admit. It would be strange if some good had not been done. But the amount of good secured has not, we think, been in any proper proportion, measured either by the efforts made or the desires of those who have the management of these services.

Base Ball in Texas. The national game has suffered disgrace and possibly degradation in the Lone Star State. From the Houston Telegraph we learn that the R. E. Lee base ball club of Houston went down to Galveston for a friendly bout with the Flyaways of the Island City.

It is fair to say that the base ball players are not to be blamed for all the misconduct. Such a row might have occurred at a horse race, or even at a prize fight; and yet if the R. E. Lee had not made an excursion to Galveston for the purpose of playing ball on Sunday, that particular fight would not have occurred.

THE TEMPERATURE. The thermometer at Louis Frigerio's, No. 50 Chartres street, on August 21, stood at 84°; at 8 A. M., 74°; at 2 P. M., 77°; at 5 P. M., 79°. Lowest point during the night of August 20, 73°. Rain during the day of August 21, six-tenths of an inch.

CHILD'S PRAYER.

God, the Father! God, the Son! God, the Spirit! Three in one. Shield Thy servant. Bless Thy child. Keep his nature undefiled.

Sabbath Night Services at the Academy of Music. That some good has been accomplished by these Sabbath night services we freely admit. It would be strange if some good had not been done.

That the church itself is responsible for this state of things in large degree can not be truthfully denied. After admitting all that may be said about the depraved tendencies of human nature, the various attractions of a large city that gratify these depraved tastes, and that growing spirit of infidelity which ignores the supernatural almost, if not entirely, some of the reasons are to be found within the church's own bosom.

We do not say these things are true only of New Orleans. They are to be seen in all large cities in more or less extent. There are, however, in addition to these, special causes in some localities that are not without their effect. Has it never occurred to the managers of these meetings at the Academy of Music that they were lacking in the spirit of gospel fraternity and love in barely saving themselves from the reproach of pandering to a certain political sentiment by having one only of the ministers connected with Northern churches to preach, and that one an alien? Are they ignorant of the fact that there are some others also whose ecclesiastical connection ought not to be a hindrance in meetings held in the name of Him in whom "there is neither Greek nor Jew, barbarian, Scythian, bond nor free, but Christ is all in all?"

Let it not be overlooked that the spirit of fraternization is now being cultivated, except, perhaps, among some bad men both at the North and South, in civil and political spheres, and that the church, the last place where, least of all, the spirit of prejudice and animosity should be tolerated, must not be behind the world in its advances toward cordial reconciliation and reciprocity of fraternal offices. A hint to the wise is always sufficient.

ANNUAL STATEMENT.

On the first of September the REPUBLICAN will publish an elaborate review of the commerce of New Orleans for the year ending August 31, 1875.

This statement will exhibit the results of months of intelligent labor, and in addition to the usual resume of statistics essential to such documents, will contain several new features which merchants will find valuable. No pains will be spared to make the statement reliable and complete.

Maryland Prison Labor. Hard labor, rough clothes and coarse fare appear to be the fate of all prison convicts. In many States workshops have been established where prisoners learn trades and learn accomplishments neglected in their earlier days; they learn stone cutting, shoemaking, cutlery manufacture, coopering and harness making, and many other useful employments upon prison grounds.

The Maryland State prison appears to be a model institution of its kind. There facilities are prepared for doing most all kinds of skilled labor, and manufacturers are allowed to hire and work the convicts under their own direction, bringing into the prison the raw material and carrying out the finished goods. They thus put manufactured merchandise upon the market as cheaply as possible, and necessarily reap large profits.

It is well known that at the bar that Judge Braugh was peculiarly a great leader both in his temporary occupancy of the bench, and holding the position as filling a vacancy. The private practice he was forced immediately to relinquish more than equalled his salary, and his position deprived him of the right to accept a retainer.

THE RICE BRAVE. The following telegram was received yesterday by Captain C. A. Babcock, United States steamer Canonius, from Captain E. A. Freeman, commanding revenue cutter Dix: ORANGE, TEXAS, 9:30 A. M., August 21, 1875.

THE CENSUS.

Colonel William Wright furnishes the press with his completed returns of the census of the city of New Orleans. These figures are the result not only of the most earnest vigilance on the part of Colonel Wright and his assistants, but contain all the corrections that have been given them by the citizens. If there is any error it is caused by something beyond the vigilance of the census takers:

Table with columns: Total, No. of Whites, No. of Colored, No. of Foreign Born, No. of Irish, No. of German, No. of English, No. of Scotch, No. of French, No. of Italian, No. of Spanish, No. of Portuguese, No. of American Born, No. of Foreign Born, No. of Male, No. of Female, No. of Under 10, No. of 10 to 20, No. of 20 to 30, No. of 30 to 40, No. of 40 to 50, No. of 50 to 60, No. of 60 to 70, No. of 70 to 80, No. of 80 to 90, No. of 90 to 100.

Table with columns: Can read and write, Can read only, Can write only, Cannot read or write, Total, White, Colored, Indian, Foreign Born, Male, Female, Under 10, 10 to 20, 20 to 30, 30 to 40, 40 to 50, 50 to 60, 60 to 70, 70 to 80, 80 to 90, 90 to 100.

It is with pleasure that the attention of the readers of the REPUBLICAN is called to the card of Hon. George H. Branch announcing his re-entry into practice. For several years Judge Branch can hardly be said to have devoted himself exclusively to private practice. In nearly fifty important criminal cases he represented the State as the appointee of Attorney General Field, and the number of convictions he obtained rivals the record of his chief. His learning was admitted by Judge Atocha to be second to none, and his youth and fire were powerful auxiliaries to the eloquence ever at his command.

BY TELEGRAPH.

WASHINGTON. The Treasury Robbers. WASHINGTON, August 21.—The one of the treasury robbers, was before the police court to-day, but at the instance of the prosecution the examination was postponed to Monday next.

NEW YORK. Singular Sickness in Thurlow Weed's Family. NEW YORK, August 21.—Thurlow Weed, his family and servants, have been suffering severely with symptoms resembling cholera. The consulting physicians were puzzled by the sudden and strange sickness which indicated poisoning. It was discovered that a copper wire, intended for boiling water for the coffee, had been scoured with oxalic acid, combined with the copper, formed arseniate of copper. The physicians say Weed, his daughter and three servants had a narrow escape.

POLITICAL. The Vote of Texas. GALVESTON, August 21.—The official count of the vote on the Constitutional Convention, in 101 counties; shows the following result: For the Convention, 26,253, against, 25,655. A Besieged and Lamented Movement in Boston. BOSTON, August 21.—The initiative step forming what is designated as the "Union National Party," with General P. Banks for its presidential candidate and possibly Q. C. Lomas, of Lowell, for its vice president, was taken here to-day. A State central committee was formed and a platform of resolutions adopted. No prominent men of either party took part in the proceedings. The resolutions pronounce Republican or Democratic party organizations dangerous, and call for a new party of peace, etc. They further condemn the enormous frauds on the government, dishonest public officials, great monopolies and corporations tending to oppress the people, sudden inflation or contraction of currency is declared dangerous, and the only way to specie resumption is to make promise of the nation as valuable as private notes; no encouragement should be given to sectional animosity.

THE TURK. The Races at Saratoga. SARATOGA, August 21.—First Race—Purse of \$500, for beaten horses; one mile and three-quarters. The starters were Donahue's Soratch, Harney's General Harney, Coffey's B. F. Carter, Burton's Soratch, Lewis & Co.'s Vinaigrette and McDaniel's Willie Burke. At the start Willie Burke took the lead, with Soratch second and Survivor third. In this order they ran the three-quarters of a mile, when Survivor went to the front, General Harney moving up to second place. From this point a most exciting contest followed, running neck and neck as they came down the stretch, Survivor winning by a neck. General Harney second, Willie Burke third, Vinaigrette fourth, Soratch fifth, Carter sixth, and Donahue's Soratch seventh. There was considerable excitement over the second race, a four-mile dash for a purse of \$1400, between Rutherford and the late quarter. Rutherford led a neck, but at the end of the first mile Rutherford was in front and kept in the lead until the last half-mile, when Wildcane came out and won the race by a length. Time—7:20.

FOREIGN.

Russian Revolt. LONDON, August 21.—The "Daily News" special from Vienna says the Russian General Kaufman is organizing an expedition against Khokand in revenge for the attack upon the Russian soldiery. The Times publishes a special from Berlin saying the Khokand rebels had attacked a Russian body guard. It is expected the Russian government will order the military occupation of Khokand.

GRAIN MARKET. The Times, in its commercial column, says the grain market is inactive, but previous prices are obtained for wheat. It seems to be the opinion that prices of wheat will be well maintained this season. This has sustained the market, in spite of the heavy arrivals of foreign wheat. The British wheat so far brought to market has not been of good quality. There is a rumor that it is now to report about the condition of trade abroad. The harvest will be generally three per cent below a fine yield, but with the old stocks to draw on there can be nothing approaching scarcity, and a moderate advance on the last season's prices is likely to secure abundance. The improved feeling recently manifested in the sugar market has subsided and several parcels have been withdrawn from the public sales on account of the reduced figures.

THE GLOVES. The French Army on a Peace Footing. General De Cassy, Minister of War, in a public speech at Orléansville, declared that France would maintain the organization of the army under the military law to a peace footing for purely defensive purposes.
