

BE KIND IN LITTLE THINGS.

The sunshine of life is made up of very little beams that are bright all the time. In the nursery, on the playground, and in the schoolroom, there is room all the time for little acts of kindness that cost nothing, but are worth more than gold or silver.

DEAL GENTLY.

Deal not harshly but gently with the Editor. He has many cares. He is struggling in a noble cause, and you must admit manfully. Complain only when you know you could do better yourself with the same means left to him.

INTERESTING ITEMS.

A STRIKING QUESTION.—"Mamma," said a little child, "my Sunday-school teacher tells me that this world is only a place in which God lets us live awhile that we may prepare for a better world. But, mother, I do not see anybody preparing. I see you preparing to go into the country, and Aunt Eliza is preparing to come here. But I do not see any one preparing to get ready? You scarce ever speak about going."

FAST HORSES AND FAST WOMEN.—JUDGE BARNARD'S OPINION.—In his recent charge to the Grand Jury, Judge Barnard gave it as his opinion that "it is safe to say, and my observation justifies me in saying that nearly all the fast horses and fast women in the city of New York are supported out of the city treasury."

A DISTINGUISHED PENSIONER.—The United States Government is now paying a pension to the widow of William Tell, a lineal descendant of the Swiss hero of that name. The husband of the pensioner served in the late war in this country.

A colony in Maine was started a few years since by a wealthy man, who was a moral skeptic, and who determined to keep out both rum and religion. The place grew; but the result was so bad that now, in starting a new colony, he has applied to have a Church from the first, offering to contribute largely in its aid. He says that he cannot keep out rum without the aid of religion, and that without religion, he gets only the worst men to work for him. He is satisfied that no place can thrive without the Christian Church ministry and the Sabbath.

The Rev. Robert Collyer says the men who have been thanking God for the burning of Chicago, were "not men who had been burnt out, you know."

An ex-Chief Justice of the Supreme Court arguing a case before a colored magistrate, was one of the sights at the City Hall yesterday.—Clarion, Nov. 3.

The road to sham gentility is always crowded, while that which leads to an honorable competency by means of honest toil is almost deserted.

Bularchus was the first painter who introduced, at least, among the Greeks, the use of many colors in one picture. One of his pictures was purchased by the king of Lydia for its weight in gold. He flourished 740 B. C.

Poisoning was made petty treason in England and was punished by boiling to death. Some remarkable instances occurred in 1592.

The Crystal Palace at Sydenham (London) was opened by the Queen on the 19th of June, 1854.

FUN AND FANCY.

An editor out West, who thought the wages demanded by compositors was an imposition, discharged his hands, and intends doing his own type setting in the future. He says: "Owin'G, To the Exorbitant Wees demanded by printere we have concluded to do our own type setting in the future; and although we never learned the business we do not see any great objection to it."

The Iowa penitentiary at present contains two hundred and fifty inmates, and not a woman among them! An irrepressible bachelor suggests that this don't argue anything in favor of woman's superior virtues—it only shows that they are more cunning, and avoid detection in their misdemeanors.

The last good story on our streets is to this effect: During a recent inquest held on the body of one who had committed suicide, the coroner asked a witness: "Madame do you know whether this man ever committed suicide before, or not?" There is nothing like getting at all the facts in a case of this kind.

A Norwich authority tells a pathetic little story about a pigeon which became fastened by a long string hanging from its leg to a telegraph wire. Two or three boys wanted to throw stones at it; but a kind gentleman, telling them not to hurt the poor bird, got a ladder and carefully unwound the string and put the frightened, fluttering little creature tenderly into his bosom while he descended. The next evening he remarked that it had made a much nicer pie than he had expected.

They have a "School of Design for Women in Philadelphia. The Memphis Appeal adds: "Nature did enough for our women in this way, and they need no school of the designing sort."

Nevada is capable of supplying the world with salt. It abounds in salt springs, salt marshes, salt mountains, and great plains, where the evaporation of ages has left deposits of salt almost illimitable in extent.

Washington Irving, in conversation once, alluded to a man of superior pomposity as "a great man, and, in his own estimation, a very great man—a man of great weight. When he goes to the west, the east tips up."

Chemists say linen can be converted into sugar. A young bachelor says he has seen the sweetest kind of "sugar"—in linen.

Quills are things that are sometimes taken from the opinions of one goose to spread the opinions of another.

The man who waited for an opportunity has gone on; and the man who was fired with indignation has been put out.

"Sir, you have broken your promise," said one gentleman to another. "Oh, never mind, I can make another just exactly as good."

A correspondent describes Vinie Ream in her studio "with her arms bare to the shoulders and her ankles likewise."

"Good morning," said a printer in search of female compositors. "Have you any daughters who would make good type-setters?" "No, but I have a wife who would make a fine devil, said the monster.

Dobbs thinks that instead of giving credit to whom credit is due, the cash had better be paid.

"How can I expand my chest?" asked a stingy fellow of a physician. "By carrying a larger heart in it," the doctor replied.

It is stated that two-thirds of the women in lunatic asylums in America are the wives of farmers. It would seem from this that the American agriculturist is not a good husbandman.

A celebrated physician said to Lord Eldon's brother, Sir William Scott, rather more flippantly than became the gravity of his profession: "You know, after forty, a man is always either a fool or a physician." The baronet archly replied, in an insinuating voice: "Perh he may be both, Doctor."

WALTHAM WATCHES.

THE BALANCE WHEEL OF A WALTHAM WATCH BEATS 4 times second, 240 times a minute, 14,400 times an hour, 345,600 times a day, 992,00 times a week, 10,368,000 times a month, 128,144,000 times a year.

MORE IS EXPECTED OF A WATCH THAN ANY KIND OF MACHERY.

It must not only run all day, but all night; not only on weekdays, but on Sundays and Holidays. It must run hanging up or lying down—upside down or right side up. It must keep running when the wearer sits down or stand up, when he walks or rides. In fact, it is expected to do its duty at all times, in every place and in every position.

A Genuine Waltham Watch will fulfill all these requirements. I would once a day, it will faithfully tick for you a hundred and twenty-six million times in a year, without even requiring fresh oil all that time.

A Genuine Waltham Watch CONTAINS 5 Springs, 9 wheels, 51 Screws, and 98 other parts making altogether 136 separate pieces.

ALL GENUINE WALTHAM Watches have seven Jewels.

THE EXTRA JEWELLED HAVE ELEVEN JEWELS. THE FULL JEWELLED HAVE FIFTEEN JEWELS.

Every part of a Waltham Watch is made by machinery. The machinery used in making the movement of a single watch cost over a Hundred Thousand Dollars, yet we sell these Watches, in a solid Silver Hunting Case, for \$18. The same watch could not be made by hand and finished as perfectly for TEN TIMES AS MUCH.

A Genuine Waltham Watch is interchangeable, like a Springfield rifle that is, any part of one Watch is exactly like the same part in another; and if ten Watches of one grade were taken apart, and the screws, wheels, springs, &c., were mixed together, ten watches could be made by putting these parts together again, without any reference to their former combination. This is a GREAT ADVANTAGE;

For, if any part of a Waltham Watch is injured we can always replace it at a trifling Expense.

A GENUINE WALTHAM WATCH is made with special reference to DURABILITY

Other Watches will run for a year or two, an require constant repairs; but A Waltham Watch WILL RUN FAITHFULLY FOR MANY YEARS.

We sell these Watches, IN SOLID SILVER HUNTING CASES..... \$18

IN SOLID GOLD HUNTING CASES, \$70

We have prepared an ILLUSTRATED PRICE LIST, which describes the various grades of Watches in detail, gives the weight and quality of the Cases, and all other information necessary for an intelligent selection. We wish every one would send for it before ordering a Watch.

Write for it as follows: Messrs. Howard & Co., No. 785 Broadway, New York: Please send me your Illustrated Price List of Waltham Watches, as per advertisement in THE LOUISIANIAN.

(Sign name and address in full) WITHOUT EXPENSE, OR Refund the Money.

We have sent out over Five Thousand of these Watches upon these conditions, and have only been asked to refund the money in three cases, and not one of these was on account of dissatisfaction with the Watch, but because the parties needed the money more.

WE HAVE NO AGENTS, AND OUR PRICES ARE THE SAME TO ALL. A REQUEST OF OREGON OR TEXAS CAN BUY A WATCH FROM US AND IT WILL COST HIM NO MORE THAN IF HE LIVED IN NEW YORK. ALL THIS IS EXPLAINED IN THE PRICE LIST.

Special Notice.—We do not sell Waltham Watches in any Imitation, Gift, Plated, Orde, Filled Cases whatever (these are all other names for Brass or German Silver). The Waltham Watch is worthy of a solid Gold or Silver Case, and we do not propose to sell it in any other.

LET EVERY ONE SEND FOR A PRICE LIST. ADDRESS IN FULL, HOWARD & Co. Jewelers and Silversmiths, No. 785 Broadway, New York.
