MR. KRUSE WAS OUT.

Somebody in authority ought to go after Director of the Poor Kruse with a sharp stick. That official seems to look upon his office as a soft snap instead of an agency for the relief of distress and suffering among the poor.

NEW YORK'S NEW BRIDGE.

New York City is to be joined to New Jersey by a massive bridge which shall be of unparalleled pretensions and fairly eclipse the Brooklyn structure. It will extend from the heights on the Jersey shore to the very centre of New York.

If you really like to shoot, your common sense will show you that a better business in your hat and brass or silver buttons on your gown will be sure to attract the attention of the game and entirely interfere with your chances of bagging anything.

A shooting dress should be made of coarse serge or "trousering," as neutral in color as possible. Made with a tolerably short skirt and a loose Norfolk waist, a cartridge belt, leggings and puttees, but you are as well prepared for a ten mile tramp through the woods or over the prairie as are your own companions.
