A SUBURBAN COTTAGE. The Rooms Are of Good Size, with Abundant Closets—Cost, \$1,000. Copyright, 1892, by American Press Association.

The drawing herewith presented is for a small suburban cottage to cost about \$1,000, as estimated by a local contractor. In giving a description of it, as designed, we find the floor plans to be so as to use all rooms to good advantage. The design is made to accommodate as many rooms as possible with the least number of chimneys, using only one for the whole house.

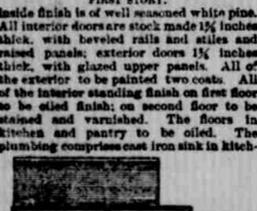

PERSPECTIVE VIEW. The rooms throughout are of fair size, with abundance of light and closet room. The entrance hall is 9x11 and possesses an attractive ornamental stairway. The parlor is 13x17. It is lighted by a bay window on the front and furnished with an open grate. Sliding doors connect it with the hall and dining room. A well fitted pantry opens off the dining room and kitchen and is connected with these rooms by double acting doors.

On ascending the front stairs we land in a small corridor, from which each of the principal bedrooms is entered. The foundation is of stone, the walls 20 inches thick, laid dry and neatly pointed with mortar. The chimney of good hard burned brick laid in good mortar. The entire first and second stories lathed and plastered one coat finished with white skim. The outside finish is of second clear white pine. Clapboards of sound pine and shingles of clear cypress. The floors are of pine. The

FIRST STORY. Inside finish is of well seasoned white pine. All interior doors are stock made 1 1/2 inches thick, with beveled rails and stiles and raised panels; exterior doors 1 1/2 inches thick, with glazed upper panels. All of the exterior to be painted two coats. All of the interior standing finish on first floor to be oiled finish; on second floor to be stained and varnished. The floors in kitchen and pantry to be oiled. The plumbing comprises cast iron sink in kitchen.

SECOND STORY. On and the necessary waste pipes and traps, etc. The height of ceilings is in cellar, 7 feet; first story, 9 feet; second story, 9 feet. Attic not finished.

The windows are of good quality pine. Lath, each first and second story joint, 2x4.

AT THE HOME, 2200 ST. AND REMOVED. Walls are sheathed with shipping and building paper and covered with 1/2 inch siding. GEORGE W. PATRICK.

New French Screens. In a lately manufactured French screen there are four charming panels in art needlework. The ground throughout is of pale rosalia satin. Naturally the design is dainty and pretty, since it is after the French school. Musical instruments—a lyre, a mandolin and such like—form central pieces. Surrounding these are large simulated boxes of green-blue silks, from which fall long, graceful sprays of flowers.—Decorator and Furnisher.

Manstehelf Decoration. Make a case of white wood turn along the top and go down in front, just as a mantle border does. On the front of this panel bunches of oranges and their blossoms, making a little conventional border in brown at the edge. When this is polished it looks beautiful. People who cannot draw could make one equally well by ironing on a pattern, or by having one cut and stenciling it on.—Cassell's Magazine.

A Novel Washstand Book. It is fitted with three or five panels for oil plaques, or for paintings in imitation of tiles. Above these is a long, narrow shelf with a curtain in front of it. Above this again is a shelf for vases or suitable ornaments.—Decorator and Furnisher.

A Successful Woman Farmer. Mrs. Nannie Osborne, of Utah, has lately taken high rank as a successful farmer. Her husband went to that territory for his health, and had just got a farm established on an island in Great Salt Lake, about ten miles from the city, when he died. This was ten years ago, and she now has the finest farm in Utah, and is making large profits from the proceeds of it. Her ranch is on such soil that it is highly favorable for garden produce, and the greater portion of the place is devoted to truck farming, the product being sent to Salt Lake City for sale. A visit to the farm showed that Mrs. Osborne had the science of farming down to a fine point, and as a result of her labors she is clearing from \$5,000 to \$8,000 every year from the proceeds of the place, but this year expects to increase it to \$10,000, as she has added a chicken ranch to the garden farm. She has two incubators in full blast and expects by early summer to have 600 broilers ready for market, which will find ready sale in Salt Lake City. Mrs. Osborne's ranch was under a heavy mortgage when her husband died, but now it is clear, and she has put over \$5,000 worth of improvements on it since the death of her husband.

The vice president of the Illinois Republican association at Washington is a woman, Mrs. Electra E. Smith. She is assistant chief in the sixth auditor's department.

Miss Kitty Wilkins, of Idaho, rivals Missy Morgan in her knowledge of live stock. Miss Wilkins is a practical horse breeder and dealer. She visits the horse sales in the large cities of the country and buys animals which she ships to various points west. Miss Wilkins is said to be a very pretty girl.

To Cleanse the System. Effectually, yet gently, when colic or bilious, or when the blood is impure or sluggish, or permanently cured habitual constipation, to awaken the kidneys and liver to a healthy activity without irritating or weakening them, to dispel headaches, colds or fevers, use Syrup of Figs.

Soda Water. Always good every day, pure and cold. White & White. Open all night.

Leap Year Privilege. We wish to announce to the ladies that we are showing the very latest novelties in Ladies' Low Shoes. The finish and fit of the shoes are perfect. Don't buy a low shoe until you have seen ours. We take pleasure in showing them; give us a call.

Mineral Waters. All kinds, bulk and bottles. White & White, No. 59 Monroe street.

False Economy. Is practiced by many people, who buy inferior articles of food because cheaper than standard goods. Surely infants are entitled to the best food obtainable. It is a fact that the Gail Borden "Eagle" Brand Condensed Milk is the best infant food. Your grocer and druggist keep it.

The First Symptoms of Death. Tired feeling, dull headache, pains in various parts of the body sinking at the pit of the stomach, loss of appetite, feverishness, dimples or sores, are all positive evidence of poisoned blood. No matter how it became poisoned it must be purified to avoid death. Dr. Acker's English Blood Elixir has never failed to remove scrofulous or syphilitic poisons. Sold under positive guarantee.

City Teachers. The greatest opportunity ever offered in Grand Rapids to study music and art during the summer months is presented by the Western Michigan College Conservatory. The more announcement of the fact that these artists well known to the musical world, will conduct a summer school of music, should be enough to stimulate the desire of every lover and student of music to participate in the work and become a student. No mistake will be made in requiring a musical education from these teachers, as they are experienced, cultured and fine artists.

A special feature of this summer school will be teaching teachers how to teach music in public schools. Mrs. Bryant of New York, a teacher of large experience in this line, will have special charge of the work. All teachers who have their own best interests in view will avail themselves of this opportunity.

Mr. Landon, dean of the conservatory, is now at the college and may be seen at any time in relation to all matters pertaining to music, either instrumental or vocal.

A summer school for all branches of industrial and pictorial art will be conducted and in charge of Miss Minnie L. Davis, well known to every teacher in the city. This special course is planned to meet the requirements of teachers in the art work of the public schools.

Pure Old White & White, 99 Monroe street. Open all night.

Bad Times for Babies. Days of Cholera Infantum Near at Hand.

Two-Thirds of the Infant Mortality Occurs in Summer.

How the Health of the Little Ones May be Preserved.

More than one-third of all the babies born in Grand Rapids die before they have lived a year.

And two-thirds of these little unfortunates die in the summer months. Cholera infantum is, of course, the most destructive cause. The infant's stomach gives out, and frequently the natural food is not nourishing enough. This is one reason why lactated food is used. This food is pleasant to the taste, easily digested and contains the elements of strength that the little ones so sadly need. It is what physicians term a predigested food, and they consider it especially valuable in all weak conditions of the digestive organs, not only for infants, but for invalids, the aged and all whose stomachs are weak. Thousands of packages are prescribed every year by the physicians, but the greatest demand comes at this season.

Wells, Richardson & Co. of Burlington, Vt., who put up lactated food have probably received more heartfelt letters of gratitude from delighted mothers whose babies' lives the food has saved, than one could read in a month. Hundreds of photographs of little ones have been sent to the company by grateful parents.

The beautiful children whose faces are shown here testify by their sturdy health to the great good of lactated food. Their father, Mr. R. Hooford, who is one of the officials in the post-office at Detroit, says: "From the first day of our use of lactated food we could see its merits, the baby did not throw up its food as it did when we used other preparations, which were tried in vain."

"A babe of fourteen months was so run down and weak that it could not sit alone. The doctor first advised barley water, and then tried several of the prepared foods. At last the child was expected to die any day from starvation. I gave the father a box of lactated food which he used, and now the child is entirely well. The father is willing to make an affidavit that the food saved his child's life."

A child's life is too sacred a thing to be trifled with. Lactated food should be used from now on through the summer until the child is old enough to eat other food with safety. It is not expensive; it is not a secret. It is prepared under the supervision of no less a man than Prof. Boynton of the Vermont University. It will prevent cholera infantum. It will save the life of the child who is wasting away with this dread disease. From every part of the country come the most grateful testimonials of its value, from mothers and fathers whose babies have been saved, and from invalids to whom it has given strength.

A well known physician told a Herald reporter yesterday that when cholera infantum threatened, lactated food was often the only remedy. "And the best of it," he said, "for twenty-five cents a mother can buy a package that contains enough to make ten pints of cooked food."

BUFFALO CLOTHING CO. Great Sale of Spring and Summer Suits Regardless of Cost.

Notwithstanding the backward rainy season the business done by this enterprising house is phenomenal. Having closed out a very large stock of spring suits, they were compelled to again hustle to the markets of the east for a new supply, and as everyone knows, a sharp, shrewd buyer who visits the eastern markets now at this time of a very backward year, can buy large stocks of goods at their own price. Such was the experience of Mr. Himmelfield on his last trip, having bought a very large stock at spot cash and at prices that were below the cost of manufacturer. Now we propose to conclude our large sale by placing the

THE A year's digging and shoveling, and dredging, and cutting and hauling of rails. A year's hard struggle with least struggle with long telegraph lines, with right of way fixing, building stations, locating telegraph lines, year of anxiety, year of delay, of disappointment, deferred accomplishment, of push, of hurry, of exhortation, of encouragement, despair and doubt. A year of looking forward from month to month, from week to week and day to day. This is the year just passed. This is the progress of the struggle which has resulted in the building of the new railroad from Traverse City to Bay View via Charlevoix and Potoskey. Eighty miles of modern, first-class railroad, penetrating a beautiful, productive and beautiful region, and making a new through line, with through cars, from Chicago and Detroit. But, it is all over. The work is finished, and next Sunday morning the first train destined for Potoskey and Bay View will leave Grand Rapids at 7:30. On Monday morning, at same hour, the first parlor car will go north. On Monday afternoon, at 1:50, the next through fast train, with parlor car, will leave Grand Rapids, and at 11:15 p. m. the first through sleeper. For the first time through cars will run to Charlevoix—the beautiful—to Bellaire, Central Lake, Elk River, Spencer Creek. For the first time there will be possible, splendid car-window views of scenes along Torch lake, Grand lake and the intermediate chain of lakes. For the first time, passenger trains will roll along the shores of Pine lake and the charming bluffs of the south shore of Little Traverse bay. Excursion tickets from Grand Rapids will be \$7.65, good all summer, and on July 2, 3 and 4, good to return the 5th, tickets will be sold at half-fare for round trip, i. e., to Charlevoix and Potoskey, \$5.70; to Bay View, \$5.75. The line is a beauty—scenic beauty—inviting in its newness and its charming scenery. Try the new line.

Has the World by the Tail. Mr. Levi, the enterprising proprietor of the Model Hat store, at No. 103 Canal street, is creating quite a sensation in mercantile circles these days. It seems that recently he secured, through the exercise of unusual sagacity, a very well selected stock of umbrellas, shirts, hats, etc., etc., which are a part of the class of goods which he ordinarily carries in stock. These goods he promptly marked down to such a figure as to make his competitors trade and make competition with him impossible. The sale opened yesterday and, of course, the store was packed with customers from morning till night. The goods sold are fine under shirts and they are being sold at 30c, straw hats are selling at from 25 cents to 50 cents, and all kinds of negligé shirts are going for next to nothing. It's a great "snap" for Mr. Levi, but it is death to his competitors. The sale continues until July 4.
