REPUBLICAN COUNTY CONVENTION
A republican county convention will be held in the Metropolitan hall, over the post office, on Thursday, July 13, at 10 o'clock a. m. For the purpose of electing delegates to the republican state convention to be held in the city of Saginaw, on Wednesday, July 26, 1922, and for the transaction of such other business as may properly come before the convention.

WEATHER
WASHINGTON, July 13.—For Lower Michigan: Showers, followed by clearing weather; northerly wind.

FOR PINGREE

With the results of last night's caucus before the astonished vision of those that have virulently assailed the wisdom and patriotism of THE HERALD's support of Mayor Pingree there will be no justification for further bitter and cruel criticism. The vindication is practically unanimous, for at the most liberal estimate of the strength of the opposition, nine of the twelve wards are committed to the support of Mayor Pingree in the coming county convention. With this majority, under the rule established in Marquette and St. Clair counties, the entire city delegation would act as a unit for him. The result too is a lesson that will prove salutary if it shall be heeded, for it shows the trend of the masses toward a freer expression of sentiment and a less dominated control by the professional politicians. It was the voice of the people that found expression in the primaries last night instead of the triumph of the practical party manipulators. That expression is significant in that it was most pronounced in the wards where capital is most strongly entrenched. It clearly foreshadows that one of the great issues of the coming contest will be based upon the relation of the workingmen to capital. In recognizing this inevitable issue and declaring their preferences for a man who has risen from a shoemaker's bench to his present position in business the republicans of this city have shown a political sagacity that will court its own reward.

CYRUS W. FIELD.

The death of Cyrus W. Field closes a life that has been of incalculable usefulness to the world. It has been a life in which hardship, vicissitudes, honors and sorrows have been strangely mingled, and the last act was the saddest and most troublous of all. He passed away amid the luxuries of his beloved Ardway park and honored by every civilized nation, but his last hours found him a broken hearted and nearly penniless old man. Though he was a philanthropist, he will naturally be longest remembered through his connection with the laying of the first ocean cable. For thirteen years Mr. Field gave up the newly found joys of a beautiful home and risked his entire fortune in furthering a project that was almost universally regarded as the dream of a reckless promoter. He crossed the ocean time and again only to be rebuffed by the cold conservatism of parliament and to be insulted by the jeers of congress. His ultimate victory over these immense odds deserved to be rewarded by a life of prolonged ease and happiness. It is just a quarter of a century since the first successful cable was laid, and in that time the man who accomplished the work has seen his fortune swept away and his ancient and honored name disgraced by his son. Every venture in which Mr. Field has been actively interested, from rapid transit to cheap homes for the poor, has been beneficial in its results. His nature was all goodness and had many elements of greatness. The tired body finds its long rest amid the silent beauty of his native Berkshires. His spirit is everywhere.

PROTECTION AND STRIKES.

Following the Carnegie lock out, because the workmen refused to accept a reduction in their meager wages, the fever of unrest has spread from Homestead to every point of the compass, and in default of an amicable settlement it will affect all labor centers from New York to San Francisco. The democratic cry is that these days are hardly propitious for stump speakers to start out to talk to workmen about the beauties of protected American labor, etc. It is the same old chestnut of the last Cleveland campaign about protection, monopolies and strikes. There is no connection whatever between protection and monopolies. Monopolies exist in free trade countries, and in highly protected countries, and in low tariff countries. They exist in the ranks of the people's party. They exist in England, France, Germany, and in all other countries as well as in the United States, in native industries not affected by the tariff, and in imported products free of duty. There will be monopolies wherever there is great capital and the ability to organize and concentrate and the disposition to control and oppress. Wherever there are monopolies there will be strikes, for the object of concentration is power, and power is tyranny in the labor world. There are monopolies and strikes in protected America and so are there in free trade England. Perhaps we have more labor troubles than England, but she has more

IT'S ALL ONE WAY

The Pingree Men Sweep the City.
TAKING TEN OUT OF TWELVE
Of the Wards and Leaving the Other Two Divided—Rich is Not "in It" in the Valley City.

Last night's caucuses resulted in an endorsement of Mayor Pingree's candidacy by an overwhelming majority of the delegates. It was anticipated that the friends of Mr. Rich would be in the majority, but in every ward but one the Pingree men had a clean majority of voters. The average attendance was larger than usual and the interest was correspondingly greater than for years. In every ward, too, where there was a free and unobstructed expression of choice, the Pingree men were victorious. On the whole, where the majority is so great, amounting almost to a unit, it is not an exaggeration to say that the city is solid for Pingree. The various ward caucuses resulted as follows:

First Ward for Pingree.
Frank Sotke, chairman of the first ward caucus, called the republican ward caucus to order in Watson & Frost's store at No. 137 Grandville avenue and G. H. DeGraaf was elected chairman and Marcus A. Frost secretary. Forty-three voters were cast on the first ballot, which Hendrikus Leppink received 28; G. H. DeGraaf, 13; scattering 2. Mr. Leppink was declared elected. Fifty-two votes were cast on the second ballot, of which G. H. DeGraaf received fifty and two scattering. Cornelius Stryker, the third delegate, was elected by acclamation. Pingree was the unanimous choice of the caucus for governor and the delegates are avowed Pingree men.

In this ward, which pays the largest tax of any in the city, there was a representative assemblage of citizens, property holders and business men. The largest total vote cast was sixty-two. The vote in this ward is truly significant and surprising to the friends of Mr. Pingree, as the workingmen were scarcely represented. Alderman E. D. Conger was called to preside and Alfred Woodcock acted as secretary. The delegation chosen is unanimous for Pingree. E. D. Conger was named as the first delegate and received 28 votes, Mr. Thomas D. Gilbert, who is friendly to Rich, receiving 4. William H. Loomis was elected as second delegate by 34 votes. David Forbes, who was backed by the supporters of Rich, receiving 10. For the third delegate 32 ballots were given to Theodore M. Goossen and 25 for Forbes, who made a second attempt to represent Rich in the county convention.

Pingree Takes the Third.

There was an immense vote polled in the third ward. George Clapperton was chosen chairman and William Neahr secretary of the caucus. A total of 530 votes were cast. For Pingree, H. A. Moore and William Neahr were chosen delegates. They are all Pingree men.

Fourth Ward Divided.

The fourth ward caucus was organized by electing W. H. Anderson, chairman, and Adolph E. Mason secretary. Messrs. H. E. Chase and Col. P. V. Fox were sworn in as tellers. George P. Wandy was nominated and elected as first delegate without much opposition. For second delegate Milton Johnson was elected by a small majority out of a vote of about 100, the balance being divided between Dr. Griswold and Mr. Matheson. For the third delegate more interest was taken in the caucus than in the past, the final ballot resulting in the choice of Dr. Griswold by a vote of 46 to 31 over his opponent, Fred S. Clark. First Ward in Line.

The sixth ward caucus held at No. 42 West Leonard street was well attended by citizens of that ward. The hall was crowded and the excitement was high. C. B. Clark was chosen chairman and W. R. Adams secretary. Cal. Edison and John Rydorf were appointed tellers. After all the officials had been sworn by H. J. Felker a ballot was taken. Each voter was given one ballot on one time and the three men receiving the highest number of votes were declared the delegates of the caucus. The results of the ballot is as follows: Joshua Ingraham, 81; W. H. Stokes, 82; Alex. W. Buchanan, secretary, 78; Ferris, 51; H. Timmer, 32; Charles A. Coyle, 23; Paul Morris, 20.

Triumph in the Seventh.

In the seventh ward Jimmie Coye seemed to be in a hurry to get through with the business in hand. He called the caucus to order promptly at 7:30 and there were then present only four persons including himself. He organized the caucus at once and with lightning dispatch elected himself, J. J. Knox and J. W. Poinam delegates. He then adjourned the caucus just as a large body of voters appeared. He blandly told them that the caucus had been held and that there was no further use for assembling. There was something sulphurous flying in the air for a few minutes, but the great majority concluded that nobody would profit by Coye's cunning trick and the voters dispersed. The sentiment of the great majority of the voters in the seventh ward is favorable to Mr. Pingree and it is probable that the delegates to respect it in county convention. Mr. Coye is understood to be a Rich man, but his associates are undecided.

Masses Carried the Eighth.

At the eighth ward caucus E. G. D. Holden was elected chairman and Frank Hold secretary. Twenty-two votes were cast. William Moordyke was elected as first delegate on the first ballot by a vote of 13 to 9. E. G. D. Holden was elected second delegate in the ninth ballot and S. King as third. They are all Pingree men.

Pingree to the Ninth.

There was a comparatively good turnout and earnest enthusiasm manifested in the head of the ticket, which resulted in the selection of three Pingree delegates by acclamation. The first vote was cast for E. G. D. Holden and Capt. Henry H. Wilder secretary. Delegates—William Raynes, Robert Loge, C. R. Otterbein.

Tenth Ward for Pingree.

Everybody was for Pingree in the tenth ward caucus. W. W. Johnson

HAD A GREAT TIME

An Organization of the Furniture Men Effected.
PROCEEDINGS OF THE FIRST DAY

Both are sincere friends.
But we are not gathered here today to antagonize ourselves against any one. The manufacturer as a rule is our sincere friend and especially in this, for are we not the distributors of their products; do we not gather the proceeds and return it to them from every corner of this great country of ours? The railway companies are very friendly with us also, as long as we give them plenty of freight and pay them what they choose to charge in advance. No, gentlemen, we are not here today to make enemies, but to secure friendship with all those we deal with. To advance means to correct abuses wherever found, be it against manufacturer, jobber, railway companies, or whatever it may arise; to strengthen our credits, to weed our unscrupulous dealers, in fact to assist one another in anything that is honest, honorable and straightforward. The manner in which we are to arrive at this conclusion I leave to this honorable body, and trust that a committee will be appointed that will find the way and one which will be perfectly agreeable to all and give satisfaction to the manufacturer as well as to the dealer in all future transactions.

TEMPORARY ORGANIZATION.

Officers Chosen and Preliminary Routine.
The delegates then proceeded to the election of a temporary secretary, and M. J. Buck of Lansing was unanimously elected to that office on motion of J. A. Thompson of Okemos, Wis. A committee on order of business and permanent organization was appointed with instructions to report in half an hour.

The committee consisted of L. L. Clark, Minneapolis, chairman; W. E. Barker of Detroit, L. D. Leonard of Cleveland, Charles E. Brockway of New York, Frank Fryer of Pueblo, Col. The committee's report suggested the formation of an association of retail furniture dealers, the condition of membership to be the payment of \$1 and signing the constitution and by-laws. Also that a committee on resolutions be appointed to report at the next meeting and the appointment of a committee on constitution and by-laws.

CHAIRMAN CHAUVIN'S ADDRESS.

An Eloquent Speech Eloquenty Delivered.
Following the mayor's address Chairman Chauvin spoke on the purport of the gathering. He said:
Gentlemen, I am glad before you today I find myself in the position of the Red river farmer of the north, who gathered a larger crop from his sowing than he expected, and his heart was glad, and so is mine today. From a little seed sown a year ago through the great furniture journals, I find three crops gathered at the harvest, or four thousand fold.
In Grand Rapids, Cincinnati and New York our conferees are gathered by the thousands in response to a call of a year ago for the purpose of devising means for the betterment of our condition. And, gentlemen, I am sure we will accomplish it, for brains are not lacking in the furniture trade from the lumberman down to the retailer, though the manufacturers claim a monopoly of that commodity so essential to business success we will try to see if they have not left a few among the retailers, and we have before us an opportunity of showing it today.

BRUSH COMPANY.

It Elects Officers and Declares Dividends to Stockholders.
The stockholders of the Grand Rapids Brush company held their annual meeting in the company's office yesterday afternoon and elected the following directors for the current year: James W. Converse, Julius Berkley, M. P. Brown, Joseph H. Martin, William McEain, S. E. Gay and J. D. M. Shiras. The directors held a special meeting and elected the following officers: President, Julius Berkley; vice-president, S. E. Gay; secretary, William McEain; treasurer and manager, J. D. M. Shiras. A dividend of 10 per cent was declared on the profits of the business, 5 per cent of which is payable in thirty days and 5 per cent in ninety days.

NEW FURNITURE COMPANY.

The Order Work Company Was Organized Yesterday.
Grand Rapids has a new furniture company called "The Order Work Furniture company" which was incorporated yesterday and articles of association filed with the county clerk. The purpose of this corporation is the manufacture, purchase and sale of all kinds of furniture complete, and in parts and all kinds of woodwork. The capital stock is \$10,000 and divided into 1,000 shares of \$10 each. Thirty-five per cent of the capital or \$3,500 has been paid in. Following are the stockholders since the incorporation: Harry H. Hall, 100; Arthur H. Glinley, 67; Gilbert H. Folger, 67; Jeremiah H. Anderson, 60.

FOR A MASONIC TEMPLE.

A Decisive Meeting Will Be Held Tomorrow Night.
The board of trustees of Masonic hall of Grand River lodge No. 34 has called a meeting of all Masons of the city to be held in the lodge rooms Thursday evening. The meeting has been called for the purpose of taking an expression of opinion as to the location of the hall, which has been given the franchise on the county property at the corner of Lyon and Kent streets for fifteen days for a sum of \$25,000. The site is thought to be an admirable one on which to erect a masonic temple, and all who have expressed themselves on the matter are enthusiastic and anxious that the temple be located there.

PARLOR CAR NO. 10

Has Just Been Completed at the D. L. & N. Shops.

Parlor car No. 10, the latest addition to the rolling stock of the D. L. & N., has recently been turned out from the companies' shops in Ionia, and was on exhibition in the yards yesterday. The car is sixty feet in length and is fitted with the same superior upholstery as that in the famous Royal Blue train between New York and Philadelphia. Seating room for twenty is found in the main apartment, while in the smoking parlor ten more can be accommodated. The smoking apartment is one of the features of the car, and is fifteen feet in length, occupying the rear end.

FARMERS' CLUB.

The Members Exhibit Winter Squashes and Apples.
Secretary A. W. Slayton, A. Boss and J. F. Richardson were the only members of the Western Michigan Farmers' club present at the regular session yesterday afternoon. The farm work is especially pressing just now and it is almost impossible for farmers to get away from their work. Even Vice President Bosworth was absent, the secretary declared. Mr. Slayton also showed golden russets, Pinks, pleasers, seek-no-further and my apples, but they had seen their best days, and the secretary confessed that he knew no means for keeping apples successfully after April first.

RECOVERED HIS BODY.

The Corpse of John Mollen Found Floating Yesterday.
After having been in Grand river fifty hours, the body of John Mollen, who was drowned Sunday just below Grand island, came to the surface yesterday afternoon at 5 o'clock. Coroner Brandish had engaged Peter Hensen, O. Lunskie, Harry Pierson and John Olson to search for the body and they had been working in the vicinity of the drowning since Monday morning. They had quit work for the day yesterday and going to the shore rested themselves upon the river bank. One of the party discovered the body soon after it came to the surface. The body was recovered and taken into the boat and conveyed to the D. G. H. & M. railroad bridge, where it was turned over to Undertaker Koch of West Bridge street. The coroner thought an inquest unnecessary and the body will be buried this morning at 10 o'clock.

SEEKING THE RIGHTS.

The Visitors Encouraged in and About the City.

Furniture men were thicker than the traditional violinists in purgatory after dinner yesterday at the Morton house. They were waiting for the afternoon drive to be put in motion and meantime busied themselves by what is commonly and strongly known as "pushing" each other. Everybody was as happy as a boy surreptitiously playing in a bonfire or gorging himself on picnic preserves. At 2 o'clock the reception committee of the local dealers guided the visiting buyers over on the lion's street armory, where the procession was announced to start.

Every hack in the city had been engaged for the occasion and Ionia and Lotus streets were lined with fatigued looking heavy horses and affirming Jesus. The enthusiasm of the delegates was unbounded and they bunched into the carriages like so many school boys. Neatly shined and an entire absence of dignity were the most conspicuous features of the day. It was the intention to place a member of the visiting committee in each carriage to explain the sights to the visitors. Mayor Stuart was a guest of honor.

When it could be arranged so that any one of the occupants of a carriage would be compelled to sit in the front seat the other three lifted up their voices in grateful thanksgiving and proceeded to assist the sun in roasting him. The procession when it finally started was the longest one ever known in the city. There were more than 100 carriages in line, and the procession was at least a mile long. It started from Ionia street and drove over to Lyon. Then it turned down Lyon to Ottawa, and every member of the reception committee solemnly pointed out the city hall and swore it was the finest structure of the size in the country. The visitors all supported the statement, and the procession turned into Ottawa street. The visitors were then taken down Crescent avenue in order to give them an opportunity to see the new court house and police headquarters. They weren't very much interested in such a prospect, but most of them lifted their hats to the pretty girl cop in the county office—just to show their good will.

The procession then turned into Canal street. From Canal street it filed into Bridge and wheeled its way across the river. The sight of the water produced no enthusiasm, and the long line of vehicles turned up Broadway and proceeded to Fourth street. From there it returned into Widdicombe street and back to Broadway, thence to Fourth street and into Leonard. The line of march on the west side was laid out in order to give the delegates a chance to see the great furniture factories. After crossing Leonard street bridge the carriages turned into Canal street and proceeded to North park. Here the delegates refreshed themselves with lemonade and soda water and the procession started back. It came down Canal street to Crescent avenue and drove up to the bluff. A collision had been served here. It consisted of claret punch, lemonade and sandwiches. The delegates seized upon the refreshments with all the avidity with which a Tammany democrat accepts a

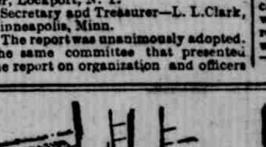

OUR PLATFORM!

Everybody has a platform or ought to have, in these days of political excitement. How is this ours?
Those Who Know Us
Understand that EVERY PLANK in it is as sound as a dollar, and it is an absolute guarantee as to all our statements. Don't think it a political card, then, when we make an announcement that a "spell" of weather has come.

This is the first time this year we have dared to mention Lawn Hose Sprinklers, Nozzels, etc., but now that a "Dry Spell" has come to stay we want to call your attention to the fact that we carry a large line of all Lawn Supplies.

LAWN SUPPLIES!

Red Diamond Hose. No better kind ever made.
Cactus Lawn Sprinkler,
California Lawn Sprinkler,
Boss Nozzle, Gem Nozzle.

HOSE MENDER.
We want you to come and see us for these goods.
