

IT'S A PRETTY CLUB

The Country Club and Its Advantages.

WHAT IT SECURES TO MEMBERS

It's a Convenient and Delightful Resort for Those Who Are Fond of Good Society.

Few social organizations offer more inducements for pleasure than the Country club of which Mayor W. J. Stuart is president.

The purpose of the association is to promote social intercourse among its members and to provide for the convenience of a club house and grounds and to conduct, maintain and manage such club rooms and grounds, and to encourage the playing of tennis.

The managing officers consist of a board of directors that from time to time elect officers from its own members.

The members of the Fisk Lake Tennis club were admitted as charter members, the Country club being really the outgrowth of the earlier club.

Prof. Schumann, of Berne, Switzerland, worked seven years making a silver, gold and platinum model of the great Krupp fifty-ton hammer, now in the Krupp gun works at Essen, Germany.

A flea, trained by Mr. Schumann, will, at the word of command, hoist the hammer to the top of the frame, where it is automatically set free, descending in precisely the same manner as the monster after which it is modeled.

The club is conveniently located at the Amsten farm house on the west bank of Fisk lake.

There is a woman's parlor, a gentlemen's smoking room and the rooms of the stewardess and servants.

Large parties are given at the club with complete satisfaction to the hostess, who invariably desire the best that can be secured.

The present officers of the club are Mayor W. J. Stuart, president; Charles Fox, vice president; M. Beckwith, secretary; C. M. Wood, treasurer.

W. C. Winchester, J. Ward House, F. B. Clark, Albert A. Murray, Dr. D. S. Sinclair, Frank A. Werner, D. S. Fischer, W. W. Fyfe, Alfred Baxter, James Turner, E. B. Whitlock, Arthur F. Hatch, J. S. Knox, Fred Beck.

HOW TO BE PRETTY

Methods of Removing Wrinkles From the Face.

STRANGE STORIES OF VANITY

The Extreme Care That Some Women and Even Men Take to Keep Their Faces Smooth.

The facial renovator isn't very busy now. Her "patients," being as a rule of the wealthier class, are at present engaged in undoing all the good work that she wrought during the winter.

LIFTED BY A FLEA. The Elizabethan Blacksmith's Foot Duplicated by a Modern Scientist.

Mark Scariot, a blacksmith, who lived during the reign of Queen Elizabeth, made a chain of forty-five links, to which he attached a padlock made of steel and brass, consisting of eleven pieces besides the key.

The chain was so small as to freely admit of being fastened about the neck of a common flea.

A flea, trained by Mr. Schumann, will, at the word of command, hoist the hammer to the top of the frame, where it is automatically set free, descending in precisely the same manner as the monster after which it is modeled.

WOULDN'T WASTE CHANCES. One Woman Who Was Not Averse to Marriage.

Did you ever notice how a party of women, young or old, will discuss every conceivable subject, but never fail to end with an animated dissertation on the marriage question?

A COW AMONG BEARS. Rosy Beards the Fortifiable Brule in His Den.

Just outside the city of Berne, in Switzerland, there is a bear pit, the inhabitants of which are as savage as bears can be, and they are known to have made away rapidly with any living being that ever happened to drop into their cobweb.

W. C. Winchester, J. Ward House, F. B. Clark, Albert A. Murray, Dr. D. S. Sinclair, Frank A. Werner, D. S. Fischer, W. W. Fyfe, Alfred Baxter, James Turner, E. B. Whitlock, Arthur F. Hatch, J. S. Knox, Fred Beck.

LONG PINS IN HATS

Saves the Women From Less Journeys

IN PURSUIT OF HEADWEAR

The Chronicles of Society and Its Doings—At Home and Abroad

Women have many senseless customs and habits, say the men, not the least of which is jabbing a long pin through their hats and apparently through their heads.

FOR WEARERS OF FALSE HAIR. A Few Facts Which May Result in Weaning Them from the Practice.

The most expensive is the silver white, which is in great demand and very difficult to find.

Mr. and Mrs. F. E. Dickinson of Minneapolis, of Casopola, are the guests of Mr. and Mrs. C. O. Smedley of No. 2 Portsmouth terrace.

Mr. and Mrs. T. Brandon, Mr. and Mrs. C. J. Mills and Mrs. C. C. Mills of Evert have been visiting Mrs. Martha Orton.

Mr. Robert Droyer and children of Chicago, have been visiting Mr. and Mrs. M. W. Marshall of Henry street.

ONE CIGARETTE STUB. A Number of Hunters in the Gros Ventre range, Wyo., one day in August, 1889, were smoking as they rode along.

Mr. and Mrs. F. Handy of Topeka, Kas., is the guest of her daughter, Mrs. J. R. Shelton.

Mr. and Mrs. B. Downs and son, Ray, of Union City are the guests of Mrs. S. F. Downs.

Mr. and Mrs. Charles H. Leonard and family are at their cottage, "Shady-side," for the summer.

IN THE FAR WEST

Prof. Swensberg's Vivid Descriptions of

COLORADO'S GRAND SCENERY

The Needles is the Hottest Place in the United States—Details of the Long Journey.

The Needles is a city located on the west bank of the Colorado river. The town was named after a series of small mountains. They are sharp pointed crystals that appear like so many needles carried out of the solid rock, and are decidedly interesting objects.

Our journey now is toward the land of the setting sun. We are still 600 miles from San Francisco. First over the line is Arizona and the remainder of that vast area once known as the Great American Desert, the greater part of which has been converted by irrigation into fertile productive land.

Landscapes colors are blended by the speed, black and white, green and blue being shaded into each other in indeterminate confusion.

Mr. and Mrs. J. R. McGarrick left Thursday for Frankfort, where Mrs. McGarrick will remain until September. Mr. McGarrick returns Monday.
