

BLEW UP THE BARN

Dastardly Outrage on a Gilead Farm.

DESTROYING A SEASON'S CROPS

It is Supposed Nitro-Glycerine Was Used to Destroy the Separator and Burn the Barn.

Grand Rapids, Mich., Sept. 2.—Yesterday morning about 3 o'clock a grain separator belonging to Kinney Stephenson was blown up, it is thought by nitro-glycerine, on the farm of Henry Martin, in Gilead township. The barn, separator, the wheat crop of forty acres and seven tons of hay were burned.

Suspicious notes on the same persons who it was thought, burned A. Martin's dwelling a few years ago.

WAS NOT A STRONG BOAT. Manners Criticize the Western Reserve. Gathering Up the Dead.

Newberry, Mich., Sept. 2.—The life-saving crew of the Grand Marais steamer are patrolling the beach for ten miles each way today in the search of bodies from the steamer Western Reserve, which foundered off this point Tuesday night. Up to noon but three bodies had been recovered.

The body of a woman found last night is still unidentified. The remains are but partially clothed, indicating that she had risen from her stateroom to the deck only to find the steamer sinking. The third body is also unidentified. Harry Stewart, the sole survivor, has not yet returned from South Bay, Maine to identify the dead, but is expected this afternoon.

Palmer & Co., agents for the Michigan Life saving station to have all bodies embalmed to await the arrival of Philip Munch and C. F. Palmer, who are on the way to the scene of the disaster. Harry Stewart, the only survivor, has been ordered to remain at Newberry. He says positively, in answer to an inquiry, that the steamer broke in two in forcing her way into a log sea.

No disaster ever occurring on the lakes has given marine men such a shock as the loss of the Western Reserve. To them it is much more than the loss of one of the finest steamers on the lakes. It is the wiping out of the family of a millionaire vessel owner and the almost complete annihilation of the crew. It is also an overturning of the theories on principles on which the latter day mariners have been built. So skeptical were marine men today that the Western Reserve could have been lost in the way described in the morning papers that a dozen telegrams were sent to Cleveland.

The uniform reply was, "Newspaper reports are too true. The Western Reserve broke in two and all were lost, save one."

For several years since the building of steel vessels became the fashion the tendency has been not so much for speed, as for the ocean, but for size of cargo. The rivalry between shipyards as to which would produce the boat carrying the largest cargo on the smallest dimensions has been keen.

The Western Reserve was built outcries on the lakes, and she did so. Her record was over 112,000 bushels of wheat from Chicago, and over 3,700 net tons of iron ore from Escanaba. This record was a boast for the Cleveland Ship-building company which constructed the steamer, and a big profit to the owners.

In the efforts to secure great carrying capacity, it is now evident that strength had been sacrificed. The steamer was unable to withstand the storm, which, according to all reports, was not particularly severe. When the critical moment came the west end, and Captain Munch paid the penalty of his mistake with his life.

GEORGE WELSH PARDONED. Good and Sufficient Reasons For the Governor's Leniency.

LANSING, Sept. 2.—Governor Winans has pardoned George Welsh of Detroit sentenced in the Detroit recorder's court to ten years at Jackson in 1889 for manslaughter. Welsh was one of the Cornell gang in Detroit and he with others assaulted an old man named Maurice Crawford, breaking his neck.

The reasons assigned for the pardon give the case a very peculiar appearance and would seem to charge Welsh's victim with contributory negligence in holding his head in a position that the receipt of an ordinary blow upon the jaw resulted fatally, an occurrence which is viewed for by medical experts as very rare. The recommendation of the board of pardons says that ordinarily the offense could be nothing more than a case of simple assault and battery; that Welsh was at the time of committing the offense suffering with consumption, which has been grossly aggravated by prison. His conduct has been most exemplary, and in its opinion the punishment has been sufficient for the crime. Ten of the jurors, the trial judge and the prosecuting attorney join in the recommendation for executive clemency.

Went to Death by a Ball. CLEVELAND, Sept. 2.—Word comes from Martin that on Tuesday Reuben Payne, one of the oldest residents of that section, was gored to death by a bull.

Found No Doubt by Doctors who "cut" Pellets. "Cutting" process leads to nothing. For this reason and to protect the public, the board of health of Dr. H. P. Patten, are now held only through regular authority.

Found something that the dealer says is a "cut" of gold. It may be better for you, but it's pretty certain to be worse for you.

FREE TO ALL.

A Notable Announcement Made by the Physicians of the Copeland Medical Institute.

Medicines and Treatment Free for Two Weeks to All Who Apply Before September 13—Reasons for Making It.

As was previously stated in this paper, the location of the Copeland Medical Institute and Dr. Copeland and associates, under whose care it is carried on in Grand Rapids, is a permanent one. Their leases, contracts, etc., are for a term of years, and the elegant offices in which they are installed, at No. 192 East Fulton street (corner of Sheldon street) bear abundant evidence of the solidity and permanency of the business.

The Men Themselves. When men are brought prominently before the public in the columns of the daily press, a very natural inquiry is prompted as to their record and antecedents. In the case in hand the writer gladly welcomes the opportunity to answer this inquiry.

Dr. W. H. Copeland, though still by no means an old man, has gained for himself a reputation in his specialty, the treatment of throat and lung troubles, such as it is the good fortune of but few physicians to enjoy. Matriculated at Bellevue Hospital Medical College, his abilities were even then early recognized in that famous institution of medical learning. He was elected president of his class and held that office until he graduated.

After finishing his course at Bellevue with honor and after extended hospital practice and experience, Dr. Copeland devoted himself entirely to the lines of practice mentioned above. His associates are gentlemen bearing credentials equally as notable as his own and have advanced steadily with him, and the practice in the specialties to which they devote themselves reaches several thousand cases annually. It will be seen, therefore, that their establishing themselves in Grand Rapids is by no means an unimportant event.

The Claims Made. The physicians of the Copeland Medical Institute established themselves in Grand Rapids making distinct and clearly defined claims.

1. They claim to give the most thorough, complete and systematic treatment for catarrh and troubles of the head, throat and lungs that is offered to the public.

2. They claim to be the most successful in these troubles, and that cures effected by their treatment are permanent and lasting.

Now, to establish these claims and at once satisfy the public as to their superior and notable skill in these lines of practice, they make the following offer:

Medicines and Treatment Free for Two Weeks to All Who Apply Before September 13. The physicians of the Copeland Medical Institute will positively examine, prescribe for, treat and supply with two weeks' medicine all persons who apply to them before September 13, making no charge whatever. NO MONEY WILL BE ACCEPTED FOR ANY KIND OF SERVICE BY THE PHYSICIAN, AND NO AGREEMENT TO TAKE MONEY AT ANY TIME WILL BE MADE UNLESS THE CASE SPECIFIED FOR FREE TREATMENT. This offer is extended to only one member of each family.

Remember the Location, 192 East Fulton, Corner of Sheldon Street.

CATARHAL DEAFNESS.

Almost Entirely Deaf From Catarrh and Cured in One Month. (Chicago News.) Neglected catarrh frequently results in partial or complete deafness. A case in point is furnished by Mr. Johnson, of 707 N. Tannan street. Mr. Johnson is an iron moulder with Crispen & Sexton, 100 E. 1st street.

"I have had catarrh," said Mr. Johnson, "ever since I can remember. My nose was stopped on continually. I could not sleep at night and was always coughing and sneezing. I suffered considerably from headaches, which were severe over the eyes. I had a sore throat every time the weather changed. This was my normal condition for a number of years and although I took medicine to relieve my suffering I did not get under medical treatment.

"But the catarrh attacked my ears and I was compelled to take treatment. There were buzzing and ringing sounds in the ears; my hearing became affected and about two years ago I became completely deaf in the right ear. The hearing in the left ear was bad also. I could scarcely hear a person when you would be shouted into my ears. You can imagine how injurious this was to me and how I agonized my whole existence. I felt drowsy in the morning. I was confused and dizzy and a constant roaring in the ears made me long for relief.

"Friends advised me to go to Dr. Copeland and associates and I was persuaded, although I felt that they could not possibly do me any good.

"Well, sir, in one month's time my hearing has been entirely restored. These physicians began at once to remove the cause, which was catarrh, and now I am getting well of that. My ears are all right again and I hear as well as I ever did. I am feeling like a new man and I am profoundly grateful to Dr. Copeland and associates for what they have done for me. I never thought that catarrh—that is, chronic catarrh—

FIGURATIVELY SPEAKING

The Doors of Fall will swing wide open tomorrow, Monday Morning, presenting to the people of Michigan the golden fruit from the famous looms of the world. With this event the Fall season of 1892 will be formally opened by

SPRING & COMPANY

And the ladies are cordially invited to visit the many departments of interest. They will be found rich in their abundance of all the latest creations from the fashion centers of the world.

The greatest exhibition of new Dress Fabrics, Cloaks, Carpets and Draperies ever shown in this part of our hemisphere, outdoing and excelling the mightiest efforts of the past.

RICH DRESS FABRICS!

Varieties without number. Novelties in profusion. An endless expanse of Rich Dress Fabrics for Fall and Winter wear. Open and to be seen this week for the first time in Michigan.

It is with pleasure that we invite the ladies to our Fall Opening, believing that they will appreciate the enterprise shown in placing before them so rich a collection of Dress Materials, the like of which cannot be found anywhere in the West, and perhaps in but two or three cities in this country.

The catalogue is inexhaustible. In Wool Dress Fabrics for Fall and Winter there will be found many pleasing fancies. You do not care to read much of them when the privilege of a personal inspection is now made possible.

Handsome Cheviots in two tone effects, all colors. "Our Own," a new and desirable fabric for Fall Suitings and Traveling Costumes, in shades of gray, brown and bluish casts.

New Bengalines in all the colors. Wool Surahs, comprising all the shades manufactured.

English Suitings, such as will be worn by the blue bloods of Europe this season, in all shades and varieties. Novelties and exclusive designs manufactured for us, and imported direct, an exemplification of the latest Paris fashions.

Handsome patterns in green, brown and blue, the ground of which is illumined with a dash of gold or silver. Fabrics in silk shot effects.

Two tone effects in Camel's Hairs, shot with colors, exquisite and becoming. Dainty patterns in Moire Goods and Rept Vallours. Cravenettes or Shower Proof Cloth, a desirable dress fabric, impervious to water and handsome as a picture.

English and Scotch Homespun. Storm Serges with prices ranging from 25 cents per yard up. All the new colorings in Whipcords.

Henriettas and, in fact, everything known to the Dress Goods business this season will be found on our counters this week.

New Cloaks and Wraps!

Introduction of the Fall and Winter Styles. This department, made famous to people in this section by its greatness and its ability to satisfy every taste and price desired is again reinforced with an endless accumulation of new goods.

The changes in style are marked and much to be desired. Garments are cut longer this season, some having plaited backs, Russian effects.

For Misses and Children:

Pretty New Style Jackets, Reefers, Gretchens and Newmarkets in all the new shadings.

For Ladies:

Our new importations unfold a charming repertoire of novelties. Elegant Austrian Jackets in 32, 34, 36 and 42 inch lengths. Plush Sacks ranging from \$10.00 upwards. Capes, Newmarkets, Reefers, Box Coats, Russian House Coats and a wealth of Outside Wraps of every description.

And of Carpets and Draperies!

THE COLORS—Bright and dark, navy blue and blacks predominate in both plain and fur trimmed.

We are satisfied with the show in this department, and years of study and experience have made us very particular. We know that our Carpets and Draperies are exclusive designs, made to our order, and that they cannot become common. Exclusive to us means exclusive to you. Isn't that a satisfaction? Especially when they cost you no more than the stock made goods found in every little store.

The fashion fanciers have accomplished great results. Patterns run to French designs and colorings this year and also in Dresden colors. This department (second floor) will be found rich with the art of novelties and gems.

This is the first coming out of Dame Fashion and she will be assisted by more than one hundred accomplished salespeople. You are expected to be present by invitation of

SPRING & COMPANY
