SEPTEMBER NIGHTS.

Their Coolness Causes Sickness and Suffering.

Rheumatism Is Getting Very Common.

One Woman Brought Home in a Carriage.

Rheumatism is growing more frequent.

And it is a painful disease that comes with the cool nights of September.

George Leatherby, of 115 Seneca street, Buffalo, tells in the Buffalo News about his wife's sad condition.

"My wife, Hannah Leatherby, had long been a sufferer with rheumatism, complicated with kidney troubles and nervous complaints.

"The doctors had given her up and we were completely discouraged.

Yet today she would not for a thousand dollars go back to the condition she was in before taking the remedy that was recommended to her by the last physician she consulted.

After she had used one bottle of this, she threw away her cane, and when she had taken six times that amount, she was well and strong.

This is solely the result of her use of Pain's celery compound, a medicine now prescribed by several physicians in Buffalo.

"My wife is nearly 70 years old and today is doing all her own work.

"The News, in commenting upon this, says, that Mrs. Leatherby's case has aroused a great deal of interest among her friends and acquaintances and many people come to ask about her marvelous cure.

A Good Thing to Keep at Hand.

We have found Chamberlain's Colic, Cholera and Diarrhoea Remedy the very thing to straighten one out in such cases, and always keep it about.

We are not writing this for a pay testimonial, but to let our readers know what is a good thing to keep handy in the house.

We gave it a fair trial and the results were wonderful. We cannot recommend it too highly to all ladies who are afflicted.
