A stay of proceedings was granted in Hall vs. Michigan Fire Insurance company, motion for a rehearing allowed within fifteen days. Tuesday's call—20; 21, 25, 26, 27.

Miraculous Escape. Saginaw, Oct. 7.—The tramway of Chambers' mill gave way yesterday at a weak spot, precipitating an employee named John Dook to the ground beneath, the unfortunate man being badly injured about the lower jaw, while his body was covered with bruises. He was literally covered with oak timber and broken boards, and his escape from death is almost miraculous.

Clinton County Fair. St. Johns, October 6.—The thirty-seventh annual fair of the Clinton County society held here this week, has been a great success. The attendance Thursday, "the big day," was very large, and it is claimed by old patrons to have been larger than any previous meeting. The exhibits in the various departments are just about up with former years.

Republican Rally at Sparta. Sparta, Oct. 7.—An enthusiastic republican mass meeting was held here tonight. The Rev. Washington Gardner delivered a strong address that was highly appreciated by all that heard it. The meeting was held in the town hall, and many were unable to obtain entrance to the building. It was the regular meeting of the year, and the members of the party feel greatly encouraged.

Four New Lightships. Washington, Oct. 7.—The lightship board is preparing plans and specifications for four lightships, three of which are destined to be stationed on Lake Michigan, and one for service on Lake Erie. These vessels will be about ninety feet long, twenty feet broad with a draught of eight feet and will have all modern illuminating apparatus.

Want Nearly \$100,000. TRAVERSE CITY, Oct. 7.—The management of the Traverse City asylum asks for \$85,000 worth of new buildings and additional ground valued at \$10,000. Owing to slack of space many patients are confined in jail waiting an opportunity for entrance. There are 800 patients at the institution.

Sines of War Wasted. West Bay City, Oct. 7.—Work on the Bay opera house has been at a standstill for several weeks. The citizens have wondered what the trouble was, and have been told that the delay was only temporary. It seems that some of the stockholders have refused to submit to further calls for money.

Ends His Unhappiness. St. Joseph, Oct. 7.—Orno Hall, 29 years old and unmarried, suicided yesterday afternoon by shooting himself in the left breast. His brother is the publisher of a Goodville paper. A love affair is supposed to be the cause of his suicide.

Death of George Wright of Saginaw. SAGINAW, Oct. 7.—George N. Wright, aged 24 years, son of A. W. Wright, the millionaire lumberman, died yesterday of typhoid fever. The remains will be taken tomorrow to Vermont for interment.

Diagnosis, Implications, and Complications of Dr. Farrow's medicine, though sold at lower prices than the original, are dear at any price. Beware of cheap imitations. The makers take all the risk. Practically, they sell them to you on credit. Use these liberal terms, the genuine guaranteed medicine can be sold only at these low-established prices. Golden Medical Dispensary, \$1.00 per bottle. Favorite Prescription, \$1.00 per bottle. Pleasant Pills, 25 cents per box. But, sold in this way and at this price, they're the cheapest medicine that you can buy, for you pay only for the good you get.

IN MARTS OF TRADE

Is Found the Key to the Country's Prosperity. REPORTS OF THE WEEK GOOD

Showing an Increase of Business With Splendid Crops, a Good Demand and Fair Prices.

New York, Oct. 7.—R. G. Dun's weekly review of trade will say: The first week of October shows more activity in spite of the near approach of the presidential election. Business is distinctly better at the south on account of the improvement in the price of cotton, more active in the west with improved crop prospects, and only slightly retarded in the east. The moderate increase in the demand for money at New York, which preceded the October settlements, has passed without embarrassment, and the rate for money on call has declined from 3 1/2 to 4 per cent, while at other cities the money markets are reported abundantly supplied with funds. The expected reaction from the extreme low price of cotton helps business at the south, and although wheat is low in price it is a little higher than it was a week ago. In general, speculation has disturbed legitimate trade much less during the past quarter than is usual at this season, although the transactions in cotton have been exceedingly heavy. Trade in Michigan is somewhat better at the election approaches, but dry goods are quite active both at wholesale and at retail. Cotton goods are decidedly firm and tend to advance in price, the trade in boots and shoes is remarkably good and wool steady in price with holders confident.

At the Centers of Trade. At Philadelphia trade in jewelry and paints is active, in liquors and tobacco good, and steady in chemicals, while business in groceries is fully equal to last year's.

Business is brighter at Baltimore and the packing trade opens with great promise while building transactions are heavy.

At Pittsburgh manufactured iron is quite active and in large demand at well supported prices, while business in gas is fair, but a strike of coal miners embarrasses the Monongahela trade.

At Cincinnati trade in groceries is good and in the month of September about thirty per cent greater than last year, while other trade is active and money growing somewhat stiff.

At Indianapolis there is a boom in real estate and the railroads find it exceedingly difficult to handle all the tonnage offered.

At Detroit manufacturing is decidedly active. Chicago reports a large trade in merchandise, and good collections with bank clearings 14 per cent larger than last year, with a moderate increase in real estate and lumber transactions. Receipts of cattle, hogs and sheep are slightly larger than the year ago, but receipts of flour, barley, cheese, hales and dressed beef are double those of last year's.

At St. Paul trade is materially greater than a year ago and at Minneapolis very good, lumber being unusually active and the output of flour 200,000 barrels against 194,000 last year. Business at St. Louis is more active than usual and collections prompt.

At Kansas City trade is steady, cattle receipts heavy and collections fairly satisfactory.

At Omaha business is good, particularly in groceries, and at Denver business is improving. Nearly all southern cities report better trade, though at Little Rock prospects are not considered encouraging.

Business at Louisville is improving, with large sales of tobacco. At Nashville trade is fair, and at Memphis improving, and decided improvement is noted at New Orleans with better prices of cotton and very good collections.

Activity in the Metals. The iron industry is doing well, notwithstanding the resumption of work by many establishments which were idle a long time on account of strikes, for while prices are nominal, the demand exceeds the production, and the demand gives a decidedly stiffer tone to the market. Bar iron is still disappointing, and rails very dull, but the demand for structural iron keeps the works busy and plates are surprisingly active. While the output of pig iron is not as large as it was a few months ago, the consumption is probably larger, and the trade in more healthy condition. Larger sales of copper are also reported at 1 1/2 cents and the consumption is very great. This is stronger in speculation, as at London without any discoverable reason. Lead is slightly weaker at 4 1/2 cents and the market for the tin plates continues somewhat unsettled. Perhaps the textile industries were never more prosperous than they are now, for while prices are nominal, the demand for goods is large and urgent and the works are crowded with orders.

There are signs of improvement in prices of cotton goods and sales of wool continue heavy. Rubber goods works are busy, shipments of boots and shoes from Boston last week were 85,000 against 75,000 for the last week of Chicago last week were 20,000 against 68,000 last year. It is not a satisfactory symptom of the pig iron situation in cotton is enormous, sales at this city amounting to 1,229,000 bales last week, with an advance of a half cent in the price. Yet exports of cotton are not large, and of all domestic products the value exported last week was only \$4,453,544, against \$7,783,989 for the same week last year, considering the great increase in imports of merchandise the state of foreign trade is hardly encouraging. While the imports are in part of materials for manufacture, there is also a quiet noteworthy increase in imports of dutiable articles. The treasury continues to accumulate gold, having added to its stock \$1,500,000 during the past week and \$700,000 silver, but it has put into circulation about \$3,000,000 more paper of various kinds. Although the circulation of money decreased in September, there is also indication as yet that the money markets in any part of the country are insufficiently supplied.

The business failures during the last seven days numbered, for the United States, 184, Canada, 36, 1,641, 230, compared with 203 last week, 210 week previous to the last, and 279 for the corresponding week of last year. Advertis From Canada. New York, Oct. 7.—Advices to

Bradstreet's from Canada says: In the province of Quebec leading varieties of farm products are in only moderate demand, but in spite of this mercantile collections are fairly prompt. Toronto advices are that the distribution of staples has improved somewhat, but even there the demand from farm produce is not active, wheat bringing about 65 cents.

A Great Big Bust. "A few years ago a bully known as 'Big Mike' was the terror of southern Wisconsin," said Patrick O'Farrell. "Big Mike was monarch of all he surveyed, and his rights there was none to dispute. Janesville, Beloit and Waukesha

were his favorite haunts. He was always spilling for a fight, and as he stood 6 feet 6 inches and was put up like a Hercules nobody cared to accommodate him, and like Arkasaw in Mark Twain's o'ertune tale, he traveled chiefly on his bluff and bad looks.

"One night Mike was in a Waukesha saloon kept by a German with the patriotic name of Yaukeo. Mike was hungry for trouble. He insulted everybody present, imposed on the bartender and made himself a disagreeable nuisance generally. Presently a tall, gaunt, consumptive looking chap drifted in. He looked as though a good stiff breeze would blow him away. He lounged up to the bar, and in a voice sweet and deferential as that of a beautiful school-girl called for soda. Mike swaggered up to him and announced his intention to drink at the stranger's expense. The latter paid no attention to him, Mike became abusive. He followed him about the room cursing him and making pugilistic demonstrations.

"Finally the consumptive looking stranger turned and sweetly said: 'My Christian friend, you appear to be yearning for a thrashing. Be kind enough to give me your address and I will send you home to your family when I get through with you.' He handed Mike a notebook and pencil and carefully removed his coat. The cool audacity of the stranger paralyzed Mike. He tried to crawlfish, but the stranger wouldn't have it.

"I've heard of you for two years past, and I came to Waukesha especially to whip the insolence out of you," he said, "and right here we mix."

"But they didn't, Mike made a break for the door and has not been in Waukesha since. It was a beautiful bluff. The slim stranger could not have hurt him with a hammer. He died two weeks later of consumption."—Chicago Tribune.

Why a Cold Affects the Hearing. The drum or tympanum of the ear is a small air chamber, with hard, bony surroundings, ventilated by an air passage about 1 1/2 inches long, called the eustachian tube, which passes forward and inward from the anterior part of the throat behind the nostrils. The atmospheric pressure required on the inner side of the drum to counterbalance that of the outer side is provided for by the communication of the eustachian tube with the throat in the acts of breathing and swallowing. Lining the hollow of the drum and forming the innermost layer of the drumhead is a delicate mucus membrane, which also lines the interior of the eustachian tube. If we have a cold in the head the vessels applying the mucus membrane from the nose to the mouth expand, the blood within them flows slowly or stagnates and that in the mucus membrane becomes congested.

As a result there is more or less swelling, with augmentation of the natural secretions. The congestion is apt to be continued into the mucous membrane of the eustachian tube, which is thus obstructed. This causes the air in the drum to be rarified, the drumhead and the little chain of bones connected with it are forced inward, and by causing excess of pressure of the internal ear produce deafness.—Brooklyn Eagle.

Hobbies of the English Boy. The average British boy contracts at least three hobbies before he reaches the mature age of fifteen—when he is perhaps more intent upon growing a moustache than anything else—the collection of old postage stamps, the keeping of pet animals, or a love for the toy drama of the penny plain and twopenny colored variety. Like most hobbies, the first named mania is but short lived, and the useless stamp album, once the object of a tremendous affection, is thrown into the dust hole, never again to see light. But what is merely a temporary hobby with the boy becomes with some a lifelong passion in manhood.—Million.

The mayor of Tiffin, O., has decided favorably on a proposition to have the police of that city mounted on bicycles. It is expected that a smaller number of men will be enabled to cover a larger territory. Tiffin will be the first city to have its police force thus equipped.
