SUNDAY, MARCH 26, 1893.

WEATHER BULLETIN. WASHINGTON, March 25.—For Lower Michigan, generally fair; northerly winds, warmer in northern portion.

OUR CITY TICKET. Republicans may feel elated over the magnificent work of the city convention.

The contrast between the democratic and republican conventions is very marked. In the former a cut and dried slate was railroaded through.

The candidate for city clerk is a young man of excellent reputation. A working man in the sense that he depends on his salary for a livelihood.

The candidate for treasurer is well known. He has been tried and his efficiency is proved.

The candidate for comptroller is a young man of force and will run well.

For the marshaling and board of review, two strong names are presented.

On the whole, the city ticket is one of the most unimpeachable ever nominated.

MAYOR STUART. Mayor Stuart's re-nomination is a deserved tribute to a faithful and efficient public officer.

IT'S A WONDER. Yesterday the Chicago Inter Ocean was 21 years old.

POINTS ABOUT MEN. The young earl of Beauchamp, who has just come of age, has deserted the family mansion in Mayfair and taken up his residence in the squalid White-chapel quarters.

affairs. They are identified with the substantial interests of the town. They represent vested capital and industry in all their ramifications.

The taxpayers are worried electing men to the council to gratify the personal ambitions of candidates.

The democrat nominees for the council were nominated without reference to their business qualifications.

It must be plain that mere political shiftness is not one of the qualifications of a good alderman.

LEGISLATIVE PROGRESS. It must certainly be apparent to every fair-minded citizen of this state that the present legislature is breaking all records for rapidity and conservatism in the matter of legislation.

Both cases the fault was traced to the framers of the bills passed, and as the errors have been corrected, no harm has been done.

STATE PRESS SENTIMENT. If, as Mr. Cleveland asserts, every American citizen must contemplate with the utmost pride and enthusiasm the growth and expansion of our country.

It is denied that ex-Congressman Wheeler has withdrawn as a candidate for the pension commissionership.

Senator Hill proposes to swing around the circle again immediately after adjournment.

It has been said of Edward B. Whitney, the new assistant attorney general, that if he knows as much about the law of the land as his father, Prof. Whitney of Yale, knows about the laws of language the nation is safe.

SECRETARY HOKES SMITH is ambitious of becoming known to fame as a headman. In addition to accepting the resignation of General Baum as commissioner of pensions in advance of the appointment of his successor.

ONE of Hoke Smith's first official acts was to declare that the Southern Pacific railroad has no title to certain lands that it holds.

MEXICANS of parliament have voted that they shall hereafter receive compensation for their services.

MORSE HAS A CINCH

Cleveland Says He Will Probably Go to Glasgow.

OWLSEY WENT COURTING

And the Grand Rapids Man's Opponent Let the Pium Slip Through His Chicago Digits.

WASHINGTON, March 25.—The recent statement that Judge Morse, of Michigan, would be consul to Glasgow at \$12,000 a year, was confirmed by President Cleveland himself this morning in a brief interview.

SEVENTEEN persons were killed in the great cyclone that swept through the Mississippi valley, but the Grand Rapids Democrat hasn't heard a word about it yet.

SOMEbody ought to show The Eagle of the perch. It is befouling the present campaign by vituperative feasting on the dead issues of the past.

CONGRESSMAN WATSON of "Where am I at" fame has been fined for drawing a revolver on a railroad agent.

WILLIAM J. STUART does not own more city lots than any other man in Grand Rapids, but he makes a mighty good mayor in spite of it.

"HEART failure" is evidently as popular in England as it is here. It is assigned as the cause for the Duke of Redford's death.

REPRESENTATIVE WAGNER seems to be drawing "Butt-on, Butt-on, who's got the Butt-on" with perfect success.

AFTER April 4 the present genial and companionable city clerk will devote his time to his real estate business.

BOARD OF PUBLIC WORKS. Regular Session Held Yesterday.—Estimates of Cost of Improving Streets.

At the regular meeting of the board of public works yesterday, nothing but regular routine business came up.

Superintendent Van Amburg of the waterworks system, recommended the purchase of a shaper for use in the machine shop.

Leonard Schneider was ordered to relay the water connection at the corner of Fourth and Turner streets.

Mr. Worden called attention to the need of a little book in which records of street improvements and laying of sewers may be kept.

Carter Harrison will be, in the words of his supporters, "a corker of a mayor."

Now Herr Most is going into the saloon business with the famous "Billy" McGlory.
