

Ladies, go to C. H. Rines' and select your spring and summer outfits. "Sheridan's ride duplicated" will appear in next week's issue.

New spring and summer goods, just received at C. H. Rines' store.

Work on the dam at Tibbett's brook is being vigorously carried on.

Let the man who refuses to work or pay his poll tax be shot on the spot.

Croquet sets at D. A. Caley's for almost nothing. Come and get a set.

Horse, buggy, harness and robes for sale cheap for cash. Enquire of S. L. Staples.

You can always rely on getting what you want, at prices to suit, at the Old Reliable Store.

White wash brushes and paint brushes, at the Drug Store, cheap for cash. Try us.

C. H. Rines has now on exhibition and for sale a splendid stock of new spring and summer goods.

What has become of all our Milo and Greenbush correspondents? Let us hear from you once in a while.

Frank Campbell has a heifer only 15 months old, that gave birth to a nice little "bossy" the other night.

The frost has played sad havoc with the plum trees, and we are passionately fond of plums. "I was ever thus."

That splendid horse "French Bob," can be seen at Smith's stable, Spencer Brook, on Fridays and Saturdays hereafter.

Charlie Rines calls Hi. Cowles a "moss-back," but Hi. laughs and says "grangering" pays better than logging.

"It's dangerous to be safe" around the East and West branch bridges on Sunday afternoons, when the boys are practicing pistol-shooting.

Sadley's grist mills are running in full blast. Farmers do not need to wander all over God's creation now to get their wheat converted into flour.

Scaler Moss came down from the pines Sunday afternoon and departed for the saw dust city Monday morning.

The board of supervisors unanimously agreed not to grant the change of the Germany road, petitioned for by M. V. B. Cater and others.

Farmers if you want to see some nice farming machinery, step into Caley & Neely's new wareroom and you will have your wish gratified.

Campbell & Libby will continue to run the stage whether or no they get the contract to carry the mail. But they will be awarded the mail contract anyhow.

The Spencer Brook "Star of Temperance" was excellent last week; it reflected great credit on the editress and her assistant—Mrs. Smith and Miss McKinney.

On Thursday, R. B. Newton resigned the position of road overseer for district No. 5, the board of supervisors have appointed A. P. Harmon to fill the vacancy.

Mr. Jenkins, the fruit tree agent who canvassed the country around here a couple of weeks last winter, was in town on Monday, filling his orders; he raked in \$450.

Herb. Gates is building a dwelling house in Wyandott. 'Tis well, Herb., that you should bear in mind the old proverb, "Before you marry be sure of a house wherein to tarry."

At the Drug Store you can buy white lead paints, varnishes, oils and colors of all kinds, cheaper for cash than at any other store in Princeton. I mean what I say, if you want to be convinced call and C.

We noticed the venerable Judge Spencer, of Livonia, in town several times of late; he is over 74 years of age, but looks as hale and hearty as most men do at 50. The Judge is one of the earliest settlers in this section of the state, it is from him the town of Spencer Brook took its name; he is highly esteemed by all who have the pleasure of his acquaintance. The Judge has always been friendly disposed toward Princeton. We hope he may "weather the gale" for many years to come.

Notice. I have this day given my son, Lowell J. Chadbourne, his time, and henceforth will not claim any of his earnings nor be responsible for his debts.

REV. H. B. HUNT, Pastor.

The Sabbath-school concert at the M. E. church on Sunday evening passed off nicely, that is, the singing part of it.

Port Morse has gone out to Herman. Look out for startling news from Herman, now that Port has gone to reinforce bold Dickson.

No action was taken at the village meeting held on Wednesday, in fact, there was no meeting held at all. The property-owners of the village will regret, one of these days, their apathy.

Boys, it is not the proper thing to do to detain the school girls, by telling them sweet nothings, until they are five or ten minutes late for school. It is rather embarrassing for the girls to explain the cause of their tardiness to the teacher.

Secretary Eaton, of the St. Paul Fire & Marine Insurance Company, was in town Wednesday and Thursday. Mr. Eaton reports everything O K in the insurance line, in this vicinity, as far as his company is concerned.

Mr. J. L. Brady has been doing a rushing insurance business of late, which proves that the people of this neighborhood have confidence in him, notwithstanding the attempts being made by certain individuals to injure his reputation.

We had the pleasure of meeting Mr. Gilbert Clough and having a pleasant social chat with him at Spencer Brook, on Saturday. Gib. is making money out at Delano, he has an unlimited contract to furnish the St. Paul & Pacific R. R. with ties and cordwood, and has 50 teams and from 60 to 70 men in his employ.

Isaiah Gould was taking a drive with Sheriff Howard's spirited horse, on Wednesday. Mr. Gould stopped at a house a few miles above town, to get a drink or something, leaving the horse unsecurely hitched. Result: a dilapidated set of harness and a badly used up buggy. The horse having succeeded in freeing himself from all incumbrances in the shape of harness and buggy, quietly commenced to "lay in" a supply of grass.

The "boss" seed distributor, Hon. Joseph Whitcomb, one of Princeton's most public-spirited and pure-minded citizens, is again in luck; his name is on the list of petit jurors who are summoned to attend the sitting of the United States district court at Winona. An apt illustration of the biblical saying: "A prophet is not without honor save in his own country."

A petition has been filed in the town clerk's office praying the board of supervisors to discontinue a portion of the road leading from Abe Orr's house to George Bockoven's place, and establishing a new road, running diagonally from Mr. Bockoven's house to skirt the shores of Silver lake. There is, already, considerable opposition being developed against the proposed change. In this matter of changing the location of roads it is an impossibility, no matter how the supervisors may try, to suit everybody. The greatest good for the greatest number is our motto.

Mr. Henry Howard and Miss Mary Franklin, of Wyandott, started out to hunt up a stray cow, on Sunday evening; accidentally or otherwise, they brought up at Squire Annis', and when they departed from thence it was as Mr. and Mrs. Howard. May fortune always smile upon them is our worst wish. On Monday evening the Brook boys—and had it not been for the "backing out" of the teamster a delegation of Princeton youths would have been on hand, too—treated Mr. and Mrs. Howard to a grand charivari; Henry came out and made a speech to the noisy serenaders and handed their leader several silver dollars with which to treat the boys, to cigars, of course.

A Handsome Income for an Energetic Lady or Gentleman.
The Ohio Scale Works of Cincinnati have just patented and are now introducing to the public a handsomely finished family scale, an article that has always been needed in every household, and in a communication addressed to the publisher of this paper the proprietors ask us to refer them to some reliable party, to introduce it for them to the people of this county. It is very seldom that a new article steps so suddenly into universal favor. Housekeepers are loud in its praise, it is always ready, there are no weights to get lost or to be hunted up, it is reliable and will not get out of order. The description of them is a handsome base surmounted by a column in which works a spiral spring so scientifically as to weigh anything up to twelve pounds with perfect accuracy, on the top of the column is the platform on which the articles to be weighed are placed, and they have an adjustable indicator so that you can take the tare of any vessel you may use in weighing, giving you the exact net weight. Housekeepers at once see their value in weighing fruits, sugars and other ingredients used in preserving, cooking, etc., or in testing the weights of purchases from others.

The scales are made of brass, are highly polished and are finished in a skillful manner. They are very attractive and take the eye of every one who sees them.

It seems to us that nearly every family in this county will want one, and it is certainly a rare opportunity for some smart energetic party to pick up quite a nice little income during the next few months. The company has agents in other counties who are easily making from \$5 to \$6 per day selling them, and we would recommend parties in need of employment to drop the Ohio Scale Works, No. 125 and 127 Central avenue, Cincinnati, Ohio, a postal card, and all information etc., will be cheerfully given them by mentioning our paper.

VICK'S FLORAL GUIDE.—This work is before us, and those who send five cents to James Vick, Rochester, New York, for it will be disappointed. Instead of getting a cheap thing, as the price would seem to indicate, they will receive a very handsome work of 100 pages, and perhaps 500 illustrations—not cheap but elegant illustrations, on the very best of calendered paper, and as a set-off to the whole, an elegant colored plate, that we would judge cost twice the price of the book.

Chambers Cyclopedia of English Literature.
Volume 1 of the new and beautiful Acme edition of this excellent work, just received from the American Book Exchange, 55, Beekman street, New York, embraces the history of our literature from the earliest period to the times of Queen Elizabeth, with lives of all noted authors, and choice specimens from the writings of each. All who are interested in the higher class of literature will welcome this newly revised edition, with its clear type and handy form; and all who have been longing for the era of cheap and good books will be more than pleased with its wonderful low price. The entire work in eight volumes, numbering nearly 3,500 pages, elegantly bound in cloth, gilt title, is offered to those who order this month for the price of \$2.50. Specimen copies are sent free on request, or a sample volume, complete in itself, post-paid for 43 cents. The publishers sell only to subscribers direct, instead of giving to agents or dealers the usual 50 or 60 per cent. discount to sell for them, and this, with the fact that the actual cost of making books has decreased fully one half within a few years, accounts in a measure for the remarkably low prices.
