

THE PARSON'S CORNER.

THE PRESS.—The press has come to occupy a very large place in the educational work of to-day. The time was when the pulpit and the platform had the making of public sentiment, and the moulding of public thought largely to itself.

Modern invention has changed all of this. The newspaper furnishes us information on current events. The great magazines give us the choicest and fullest treatises on all social, scientific and philosophical questions, and the cheapness of books puts a library of the choicest literature within the reach of the people.

The pulpit is thus relieved of the labor that had cumbered it, and left free to do its own work of teaching spiritual truth.

It has become quite the fashion to pour out vials of wrath on the public press, but the press of to-day is a terror to evil-doers. Fraud, corruption, public and private crookedness can not long hide from the keen scented and almost omnipresent reporter, and there is little doubt but what the knowledge of this fact does much to restrain evil-doers.

MEETINGS.—The union revival meetings closed Sunday evening, and meetings will begin at the Prairie school house, to-night.

THE CHILDREN.—The Loyal Temperance Legion meets every Friday at the close of the school in one of the school rooms. If you would like to have your children taught that their chances for happiness and prosperity in life will be increased by neither drinking intoxicants, using tobacco, or profane language nor gambling, send them to the meeting.

DR. THWING.—The State of Minnesota loses one of its ablest and best men in the removal of Dr. C. F. Thwing, of Plymouth church, Minneapolis. He goes to be president of Western Reserve University at Cleveland, Ohio.

TO PREACHERS.—Be gentle, ye teachers and preachers, we like the sincere milk of the word, but we don't wish it curdled by your cross looks, neither do we want it rammed down our necks in the shape of icicles, or flung in frozen chunks at our poor devoted heads. Hand it out sweet and warm, and in an edible and drinkable condition, and we will let you see how much we like it.—*H. L. Hastings.*

Wanted.

Cattle, sheep, hogs, hay, corn and oats, for which I will pay the highest market price. Call and see me.

SPENCER BROOK ITEMS.

SPENCER BROOK, Nov. 18, 1890.
Henry Schumaker and wife, of Livonia, were visiting friends at the Brook last Sunday.

William Shulean, county auditor, was a caller in this part of the county the first of the week.

The carpenters that built the Clough barn left for home last Saturday, having completed the job.

Doc. Whiting is putting the finishing touches on his house inside and out. When completed it will be a fine looking home.

Joseph Chapman came down from Milaca last week. While hunting he caught a bad cold and has an attack of neuralgia.

There will be a dance at Smith's hall on Thanksgiving evening, Nov. 27th, under the management of Mike Finican and Chas. Thompson.

The farmers are having the finest fall weather to do their work for a number of years. On the 15th of November we noticed quite a number plowing.

Robert: In quoting from the Minneapolis Evening Tribune, you say: "If last Tuesday's election had resulted in a Republican victory wheat would now be selling at \$1.25 a bushel." Admitting that to be a fact, what would become of our poor devils that have to buy our flour? There are two parties to look out for—the producer and the consumer.

BLUE HILL ATOMS.

BLUE HILL, Nov. 17, 1890.
Miss Cora Galbraith, who has been spending the summer at Duluth, has returned home.

School begins to-day in district No. 36, with Mr. Joseph Nokes, of Princeton, as teacher.

Mr. S. Clark and son Frank have returned from Minneapolis where they have been at work, and are building a barn for Mr. F. Harper.

A basket supper will be given at the house of E. D. Wheeler for the benefit of the preacher, on Friday evening, the 21st. Everybody invited. Let them have a full house.

L. H. Pratt and family will start south as soon as they can dispose of their property and get ready. They intend to make Florida their future home, but we think they may be glad to return to Minnesota.

If any one in Blue Hill or Greenbush should hear strange noises either night or day, they needn't be afraid, it is only L. L. Pratt, or some other Pratt, learning to play their new cornets. No one would think of calling the sounds "Music in the air." It is only a sort of prelude to what may come some day and perhaps be called music.

Our temperance meeting last Saturday evening was well attended and a couple of hours very pleasantly and, we trust, profitably spent. Several signed the pledge, God bless them, and help the rest to see just where they stand in his sight. Our next meeting will be on the evening of November 25th, Tuesday, and we are glad to say that Rev. Skemp will probably be with us. Come one and all.

NEMO.

MILACA ZEPHYRS.

MILACA, Nov. 19, 1890.
Mrs. Hilton spent a few days in Anoka, last week.

We are pleased to notice Mr. George Aldrich's smiling face among us again. We have missed you, George.

A meeting was held in the M. E. church last Thursday night to make arrangements for Christmas festivities.

Mr. Wilson was called home to Big Lake, through the illness of his wife. We are sorry to say he did not reach home before she had passed away.

We are pleased to know that Mr. and Mrs. Keys, and family have returned from Anoka. Mr. Keys and his little girl have entirely recovered from their illness.

We think that a vote of thanks should be tendered Barrett & Campbell, and their employes for the way in which they go heart and soul into any and all entertainments held in Milaca.

We are pleased to be able to say our school house is progressing satisfactorily now. As soon as it can be occupied the Mille Lacs Lumber Co. intend making a storeroom of the hall now used as a school room. Here is an opportunity for some enterprising person to make something. Build a good large hall where entertainments could be held not considered proper to be held in the church.

A reception and pound social was tendered our pastor and wife, Rev. Mr. and Mrs. Taylor, last Tuesday evening, a large number being present. After a short program of singing and recitations Mr. Lee presented to Mr. Taylor in behalf of the citizens of Milaca a large donation of pounds of all things necessary for the inner man. After a few remarks from Mr. Taylor, refreshments were passed to all present and a very enjoyable evening was spent.

TAKEN UP.—One light red colored yearling heifer, warts on forehead. Came to my place about Oct. 10th. Owner requested to prove property and pay charges.

True as Holy Writ.

The Democratic victory in this legislative district is entirely due to the determination of a few to force objectionable men upon the party because there was a good majority to back them. The delegation from this county went to Little Falls with a pretty good knowledge of the condition of this county and had their advice been heeded a Republican delegation would have been sent to the legislature as usual. As is often the case, the party interests were sacrificed to private ambitions and the entire ticket including that staunch friend of the interests of the laboring class, R. C. Dunn was swept under by the current.—*Long Prairie Argus.*

How They Do Things in Morrison County.

There were some queer proceedings by the election officers in different parts of the county if all reports be true. In one town it is claimed the judges of election burned the ballots immediately after counting, in another some of the voters indulged in drunken rows during the day and upset the ballot box, spilling the tickets onto the floor, and in Little Falls city the judges adjourned the work of counting and took a sleep, some going to a hotel for a night's rest.—*Little Falls Transcript.*
