

RULES ARE ISSUED

BY THE RAILWAY AND WAREHOUSE COMMISSION

For the Government of Country Elevators in Minnesota—The Rules Based on the Laws Passed by the Last Legislature.

St. Paul, June 27.—The railroad and warehouse commission, in compliance with an enactment of the last legislature, has compiled the rules and regulations for the government and control of public country elevators of this state. These rules will attract widespread attention throughout the state, as probably no measure ever enacted in this state elicited more discussion than the one on which these rules are based. All elevators and warehouses on the right of way of any railroad, at any station or siding in this state, in which grain is stored and handled, are designated by law as public warehouses. It is unlawful to receive, store, ship or handle grain in such elevator or warehouse unless the owner or owners thereof shall have procured a license therefor from the commission, and a true and correct account of all grain received must be kept. A receipt must be issued for each separate lot of grain. Upon surrender of warehouse receipts of the same grade in not less than car load lots, and upon payment of all lawful charges which may have accrued thereon, said grain or grain of same grade and net quantity is deliverable, in not less than car load lots, except as hereinafter provided, to said owner or his order upon demand, either from the elevator or warehouse where it was originally received, or if the owner so decides, upon track at St. Paul, Minneapolis, St. Cloud or Duluth, subject to official inspection and weight. If the owner demands his grain from the elevator or warehouse where it was originally received for the purpose of consignment to himself, or any other person, he shall be entitled to receive it in such lots or quantities as he may desire, and to which he may be entitled, and the delivery of such grain so had and accepted shall be held to be a final and legal delivery.

The warehouseman will be held responsible to the owner for net amount of grain called for by said receipts. Provided, however, that when it appears that there has been a shrinkage in transit in any given car load, the actual amount thereof may be allowed to such warehouseman, but in no case to exceed sixty pounds to the car load.

The charge for receiving grain, insuring, handling and storing the same fifteen days and delivering shall be 2-1/2 cents per bushel. If delivered in car load quantities within ten days with immediate shipping orders, 2 cents per bushel. Storage charges after the first fifteen days, 1-1/2 cent per bushel for each fifteen days or part thereof, but shall not exceed 5 cents per bushel for six months.

Provisions are made for arbitrating differences. Complaints of fraud or oppression will be investigated by the commission upon written complaint. Reports must be made on or before Sept. 1 of each year. Penalties are prescribed for any persons, firms or corporations entering into a combination for pooling the earnings or dividing the business of elevators.

Burbridge, who is an athlete, made a desperate fight, and a crowd gathered and the footpads fled. Burbridge will be confined to his bed for a week, but he saved his \$15,500 and is happy.

WRECKERS AT WORK

Aurora, Ill., June 27.—A dastardly attempt at wholesale wrecking of one of the Chicago, Burlington & Quincy trains was made last night in the Aurora yards. A pin was pulled from a switch in front of the depot while a freight train was passing and a number of cars were derailed. When the 9:15 passenger train was ready to pull out it was found that a switch had been turned under the train. A general investigation followed, and it was found that several switches in different parts of the yards had been turned and others broken. There is no clue to the miscreants.

George Charles Howard is plaintiff and the defendants are the Iron and Land Company of Minnesota (limited), a corporation organized under the laws of the kingdom of Great Britain and Ireland, Emil Tarrmann, of Minnesota, Albert Scheffer, of the Central Vermillion Iron company and forty-three others. Howard sues to recover \$11,500, which he loaned the company on the security of fifty of its bonds of 50 pounds each, which were to be a first lien on the company's property in St. Louis and Lake counties. He alleges that Scheffer secured a judgment against these lands for \$760,740 in a suit brought on certain second mortgage debenture bonds issued by the Iron and Land company. These second mortgage bonds, plaintiff alleges, expressly recited and set forth the existence of the first mortgage bonds and were in all ways subject to such first bonds, and he asks that his claim be made a first lien on the company's property.

THREE ANARCHISTS PARDONED BY THE GOVERNOR

Fielden, Schwab and Neebe, charged with complicity in the Haymarket riot in Chicago in 1886, Released From the Penitentiary.

Springfield, Ill., June 27.—Gov. Altgeld yesterday issued pardons to Samuel Fielden, Oscar Neebe and Michael Schwab, the anarchists serving terms of imprisonment at Joliet penitentiary for alleged complicity in the Haymarket riot in Chicago on the night of May 6, 1886. The governor takes the grounds that these men had not a fair trial and that the court was prejudiced. He scores Judge Gary and Chief of Police Bondfield severely.

Chicago, June 27.—Gov. Altgeld's action in pardoning the anarchists created no great excitement here. While it was not looked for yesterday, it was expected, from the governor's well known opinions upon the matter, that the pardons were merely a question of time, and a short time at that. Ever since the men went to Joliet there has been a strong movement on foot for their release. The great mass of Germans, the Turner societies and the foreign element generally, has been strong in urging their freedom. Few petitions so large as those sent in behalf of Schwab, Fielden and Neebe were ever prepared in this country. They came from all parts of America, and included as signers men of every stamp of opinion and every grade of position and wealth. Fielden, Schwab and Neebe arrived in Chicago last night and went at once to their homes. The meeting with their families was very affecting. All unite in saying that they will forever eschew anarchism and hereafter lead better lives.

She was carried into the house and medical aid summoned. Miss Taylor left a friend's house for home about 10 o'clock, nothing more was seen of her until found by her father as above stated. Two young men are suspected.

MURDERED CHINAMAN

Brainerd, Minn., June 27.—A boy herding cattle to-day found the body of Lee Chung, the missing Chinaman supposed to have been murdered here a week ago. A terrible stench drew the boy's attention to the spot. Lee Chung had evidently been lured to the spot, a mile from the city, across the river, and stabbed to death, as there was a gash in the back and the knife thrust through the heart. He still had a diamond ring on his finger, but his watch and money were gone. Before the body was found the two Chinamen charged with his murder were brought up for examination, which was postponed until Thursday. They will be held, as the evidence is very strong. A farmer saw four Chinamen go out to the thicket on the day the murder was committed, and saw three return. Indignation runs high, but it is not thought violence will take place, as the sheriff has the prisoners well guarded.

\$40,000 BLAZE

Minneapolis, June 27.—Fire destroyed about \$40,000 worth of property at Spring lake, near Minneapolis. The fire started in Bidwell & Co.'s slaughter house from some vats of grease, which caught fire while the workmen were at dinner. From there it spread to the Hastings stone saw mill, the Clayton Plover works and to the J. B. Bassett planing mill, near by. Sparks from these buildings also set fire to two barns belonging to L. F. Poses have gone up the river on both sides, and it is thought the thief will be caught. In his buggy when found at the river bank was \$40 in money and a box of 44-caliber cartridges.

SATISFACTORY TEST

New York, June 27.—The official test of the segmental wire gun now in progress at Sandy Hook before the ordnance board, has so far been exceedingly satisfactory. So far a suitable powder has not been obtained. On Thursday the most remarkable record was made by smokeless powder at Sandy Hook that has ever been made anywhere. A charge of 2 pounds 3 1/2 ounces with 13-1/2 pounds of shot gave the enormous velocity of 2,230 feet per second at 125 feet from the muzzle, with a pressure of 36,520 pounds per square inch. This is not only some 300 feet per second greater than has ever before been obtained from the gun, but considering the length of the gun, viz.: 26 caliber, is beyond any question the most wonderful record ever made by any gun or powder in the world.
