There are more calls for Mille Lacs county lands this fall than there have been for the past three years and the demand has always been brisk. The magnificent crop we have just raised and the excellent advertisement the county received at the State fair give the impetus to this year's demands.

## Nothing Is Slighted Here.

Little things command big attention from us. Anything we put a price on must have quality. That is the ground floor upon which stands this prosperous business. When you come here leave your fears behind—banish your doubts. A conscientious endeavor to render the most satisfactory service is omnipresent.

### C. A. JACK'S PIONEER DRUG STORE.

#### C. A. JACK'S DRUG STORE.

Our dealers in farm implements say they have sold nearly double the quantity of machinery that they did last year. This is especially true of plows.

#### T. H. CALEY.

Charles Caine left yesterday morning for the State university to resume his studies in the medical department. If all goes well with this energetic young man he will be seeking for a location to expose his shingle next June.

Stevens, the pioneer of Minneapolis, writes: "I wish to congratulate you on the great exhibit made by your county at the recent State fair, and I wish to add that in the near future the denuded pine lands of Mille Lacs and its sister counties will be the great wheat-producing region of the State."

Jennie Robinson sang by request, "Suwanee River," and completely captured the audience. It was artistically performed, and showed that she has a voice of wonderful range, compass and power, and as she poured forth the great volume of melody, the audience was hushed into silence.—State Journal, Lincoln, Neb. The UNION has been asked to correct the statement that Mrs. N. E. Jesmer was elected grand manager of the Rathbone Sisters. The UNION got its information from one of the dailies, hence the error. Miss Lola Jesmer was the lucky lady so this paper cheerfully makes the correction but it won't retract what it said about the affairs of the society being placed in good hands for that still remains true.

E. O. McGlaulin, contracting architect, of Anoka, called at this office Thursday afternoon after a meeting of the Catholic building committee. He informed the UNION that he had been employed to draw the plans and make the specifications for the new church. The plans will be drawn for a church 40x80 with a sacristy at the rear 16x24. The plans will not differ materially from those of other Catholic churches and will be surmounted by the usual tower and cross. A gallery will be built in the auditorium and the windows will be of stained glass. The plans will be drawn for a frame building but fixed so that they may be readily changed to brick. There is a possibility of the building being constructed of the latter material, owing to present low prices. Mr. McGlaulin was given until to-day to complete the plans and specifications and will probably be in Princeton again this afternoon.

Beware of Ointments for Catarrh that Contain Mercury. As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists, price 75c. per bottle.
