There is the story of an Anoka man who visited a Milaca butcher shop one day last week which proves that Anoka atmosphere produces abnormal appetites or else Milaca ozone is a menace to residents' truthfulness. The man in question ate two quarts of oysters and daintily, tasted, as desert, the liver sausage which the butcher was making. When the job was done the Milaca man weighed his product and found it 25 pounds short. We wait to hear from Anoka.

Deafness Can't be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
