

Practical Points of Amity.
The friendship of Great Britain, which has shown its warmth so unmistakably in sentiment during the last three months, is also evident in more practical stages. In no direction have clashing interests sounded their discord more frequently than in our relations with the Canadian Dominion. Scarcely a year has passed without more or less wrangling to annoy if not to alarm the authorities at Washington, Westminster and Ottawa. Full provision has now been made for the final settlement of the questions at issue between the United States and her northern neighbor in the form of a joint commission. All matters of dispute which have arisen during the last 30 years down to date, including the Alaska boundary, the sealing problem, the Atlantic fisheries, reciprocity and hostile tariffs, general trade interests and Klondike regulations, will be treated with a view to permanent arrangement. The commission, with earlier sittings at Quebec, will probably finish their work at Washington.

Still more interesting, however, is the organization of an Anglo-American committee of 500 members to work for and cement Anglo-Saxon friendship. Made up entirely of British membership, it includes the most eminent and influential men of the land, representing all parties, all ranks of social life, all professions, all religions. Its roll is blazoned with the names of the most illustrious as well as the less known personalities, and it constitutes the most powerful corporate agent of public opinion ever created in the country. The classes and the masses are behind it. This amazing outburst betokens not only the belief that old irritating sores are forever healed, but it points to a profound sympathy and unity of feeling, making future sores, if not impossible, at the worst only childish trifles, which need only to be kissed to be cured.

It has been suggested with pertinence by a great New York newspaper as a lesson of the Bourgeois disaster that there should be a compulsory boat drill at least twice on every voyage of an ocean passenger liner. The dexterity and discipline which come of practice might easily become of inestimable value. We believe that this was at one time the habit of the Cunard line, if it is not today. It ought to be carried out in every ship which undertakes the responsibility of crowded human life.

The Spanish prisoners at Portsmouth, N. H., are quite happy over their kind treatment and tight waistbands, as they had been told before capture that they would all be put to death by the American savages. Perhaps some of the ignorant fellows believe that the unaccustomed amplitude of feeding only means fatter and tender "long pig," as the cannibal south sea islanders dub their favorite grill.

It is exceedingly unfortunate that the Cuban question in congress has become a party matter. The question of the recognition of either Cuban independence or belligerency is not a proper one to become an issue as between Republican and Democrat.

Those bawling Frenchmen engaged in the anti-Jewish riots in Paris should have paid the money they owe to the Jews before they tried to mob them. Without the Rothschilds, the Jewest of Jews, not a government in Europe could stand a year.

Mrs. Margaret Neet recently took Paris green on her husband's grave and died. That was a poor way to keep a husband's grave green.

Our esteemed American fellow citizens do not appear to be tumbling over one another to secure consulships in Cuba.

At the State Fair.
Two of our neighboring counties, Anoka and Isanti, have exhibits at the State fair this year. In its account of the different exhibits the *Pioneer Press* says: "The Anoka county exhibit, which was last year devoted principally to potatoes, is more varied this year. In the center of the booth assigned to the county appears a small house built entirely of grain, and around are heaped large quantities of vegetables. Potatoes are not neglected and the exhibit is surmounted with a banner which announces the fact that the county will ship this year 1,500,000 bushels of these vegetables. Features of the exhibit are a squash weighing 110 pounds, sunflowers measuring two feet in diameter and a flour booth where free lunch will be distributed during the week. The display is in charge of C. D. Green, A. Giddings and Frank Hart, all of Anoka.

"Beyond the St. Louis county exhibit is the exhibit from Isanti county. This exhibit, which is in charge of John Prescott, of Wyanette, assisted by Albert Prescott and Bert and Ben Nokes, is not large, but it is well calculated to show to the people of other parts of the State what Isanti county can do in the way of diversified agriculture. The vegetables are arranged on shelves, while behind and above them is a large fan-shaped design of grains and grasses. Isanti county is particularly proud of its potatoes, and the exhibit shows twenty-two varieties of this root as well as many varieties of onions, melons and corn which are the equal of any in the entire exhibit. Mr. Prescott shows with special pride a bundle of buckwheat five and a half feet high which he says yields forty to fifty bushels to the acre."

A CRITICAL TIME.
During the Battle of Santiago.

Sick or Well, a Rush Night and Day.

The Packers at the Battle of Santiago de Cuba were all Heroes. Their Heroic Efforts in Getting Ammunition and Rations to the Front Saved the Day.

P. E. Butler, of pack-train No. 3, writing from Santiago de Cuba, on July 23d, says: "We all had diarrhoea in more or less violent form, and when we landed we had no time to see a doctor for it was a case of rush and rush night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera, and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was the indirect savior of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrade and myself had the good fortune to lay in a supply of this medicine for our pack-train before we left Tampa, and I know in four cases it absolutely saved life."

The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by C. A. Jack, Druggist.
