Princeton Defeated Elk River at the Junction Saturday Afternoon.

The high school baseball club accompanied by a score or more of the rooters went to Elk River last Saturday afternoon to play the return game with the high school club of that village. Victory again perched on the Princeton banner and the boys and their friends returned feeling highly elated. The score ran up into figures owing frequent errors which were costly and were largely due to the imperfect grounds. The Princeton boys took the lead at the start and were never headed during the game. They were accorded excellent treatment and speak highly of their entertainers. The summary of the game is given below:

### TO BE MOVED.

The Congregational Church Will Soon Be a First Street Fixture.

Before many days the Congregational church which has occupied a prominent place on Main street for 10, these many years, will be changed in its location. Last week the society sold its lot on Main street to Mayor Caley and purchased the lots on First street where L. Fryling's tailor shop now stands. The committee has secured the services of Edwin Frank, of Hastings, to move the church and in a short time it will be on its way to the new location. The society has not yet decided whether to remove the parsonage from its present location on Pleasant avenue to the new church grounds, but it is quite probable that it will be done.

The UNION is informed that as soon as the church is removed from its present location Mr. Caley will begin to

to excavate for the basement of a new building which will be put up this season. It will be used as a warehouse for the starch factory and will enable the factory to run at a much greater profit than is possible at present. The building will be of solid brick and will, besides furnishing accommodations as a warehouse, serve as a protection against fire, dividing the row of frame buildings which now occupy that street. It will be a great improvement and Princeton people will be proud of it.

### R. R. ACCIDENT.

The Eastern Minnesota Thursday Afternoon Broke Down Near Groundhouse.

The southbound Eastern Minnesota passenger was several hours late last Thursday afternoon and when it arrived here it was drawn by the locomotive used on the old jerky, its own engine having been put out of service by an accident a few miles this side of Groundhouse. The train was making a little better than schedule time over that part of the road when the connecting rod on the fireman's side snapped and the detached ends made kindling wood of that side of the cab in the twinkling of an eye. The fireman happened to be in the gangway shoveling coal and escaped injury. The engineer applied the air and sprang from his seat at the first intimation that something had gone wrong and he had scarcely left his seat when the other rod broke and demolished his side of the cab also. Both the engine-men escaped without a scratch but it was only by the best of luck that they did. Before the engine came to a stop the flying rods had demolished some of the stampipes and one of the drivers threw a tire. The engine was clearly out of it and Milaca was telegraphed for an engine. The locomotive of the jerky was in the village and was sent out to pull the train to its destination.

### Needs a Rest.

Miss Mary O. Glidden, teacher of Latin in the St. Cloud Normal school, was examined by direction of the probate court Monday morning for her sanity. Miss Glidden is, in the opinion of the examining physicians, Drs. Beebe and Maloy, suffering from the effects of overwork and she realizes that her mind needs a rest. In 1892, Miss Glidden was confined in the Pontiac, (Mich.) asylum for six months. She realizes that absolute rest is essential and she is anxious to go to Fergus Falls for the treatment. She went to Fergus Falls Monday night being accompanied by Mrs. G. C. Hubbard and Miss Avery.—St. Cloud Journal Press.

## STATE LAND SALE.

Auditor Dunn Disposed of a Large Amount of State Lands in This Section Last Week.

Friday in Sherburne and Saturday in Mille Lacs the People Were Given Opportunity to Buy Homes.

State school lands are in demand as was shown by the land sales held last week in Sherburne and Mille Lacs counties. There was a good attendance at both sales and in Sherburne county the sale was particularly good, \$6,000 worth being sold after the original offerings in the morning. In Mille Lacs county twenty-nine parcels were disposed of, very little being taken by non-residents. Auditor Dunn was very well pleased with the result.

Mr. Dunn was interviewed by the St. Paul Globe on his return and gave the reporter the following: "Not 5 per cent of the farmers holding State lands failed to pay up their delinquent interest," said Mr. Dunn yesterday, "and I believe Mille Lacs and Sherburne counties are a good indication of what the rest of the State will be. I think there is no doubt that the next school apportionment will be the largest ever made in this State. Our returns from the payment of past due interest on State land certificates will bring a very large revenue into the State, and the June settlement of taxes promises to be the largest made in some years.

"The policy of the department in enforcing the collection of interest on State certificates is causing but little hardship. The face of the returns of the sales held last week shows this. Mille Lacs county is one of the best counties in the State, yet it is one of the newer ones, and I think the fact that 95 per cent of the interest due on certificates issued in that county was promptly paid is evidence of the expediency of taking the position I have. Those who did not have the ready cash hustled around and got it from the bank. Crop prospects were hardly ever better and the banks are very willing to loan money.

"Altogether I sold at the two sales about 20,000 of State lands, for which we received from \$5 to \$10 per acre. The average was about \$6. A large amount of it went for \$5. I think the prices paid were very good."

### WOOLLEY CAME.

Princeton Lodge No. 93, K. of P., Enjoyed an Official Visit Tuesday.

W. W. Woolley, grand chancellor of the Knights of Pythias in the domain of Minnesota, came over from Howard Lake last Tuesday to officially visit the local subordinate lodge of the order. The boys were expecting the visit and in anticipation of the event had several candidates in readiness and during the night conferred the second rank on one and the third rank on five candidates. An invitation had been sent to Milaca Lodge and about twenty of the boys of our sister village were present. During the evening the grand chancellor gave the boys an interesting talk in which he took occasion to compliment them on the quality of their work and gave them considerable valuable instruction.

At midnight a recess was taken and during the intermission sandwiches, cake coffee and cigars were served. It was nearly daylight when the work was finished and when the boys dispersed they felt that the visit of the grand chancellor had been a red letter event in the history of this lodge.

### THINKS HE IS DEAD.

Relatives of the Boy Alleged to Have Been Burned Are Certain of It.

The youthful adopted son of William Haesecke, the Duellm farmer whose house burned during his absence ten days ago, has not yet appeared, and the neighbors and those interested are becoming more firmly convinced that the boy met his fate in the burning building. He was in charge of the house when it was consumed and at first it was thought that he had become frightened and run away. His continued absence and the fact that no trace of him has been found give the people about Duellm every excuse for accepting any evidence, however slight, that he perished in the flames. Yesterday it was reported here that what is thought to be a piece of an arm but so burned and blackened as to be unrecognizable has been found in the ashes of the house. It seems almost impossible however that the body of a boy could be so entirely consumed by so small a fire as to leave no trace of it whatever. But the family has become reconciled to the thought that the lad is dead. The natural father of the boy is said to live in St. Cloud.—St. Cloud Journal Press.
