Wm. Sheller is putting up a fine new barn on his farm south of here. It's all prosperity here now-a-days.

D. Schutte and son, Guy, left last Monday for Prinsburg, Minn. They will work in that vicinity during harvest.

You should have seen that broad smile which D. Bekins wore last Wednesday when he passed around the cigars and said "it's a boy."

We enjoyed a good shower last Friday and one that was needed. Some hail fell north and west of here but not much damage was done.

Puck.

FREER.

E. S. Lester, a real estate man, of Mankato, was looking up some pieces of land in this neighborhood last week.

Haying is in full blast and the wheat harvest is coming on very fast. There are some pieces in this locality which will do to cut this week.

Gus. and August Stark have gone to North Dakota where they will remain until fall, having secured work with parties they have worked for in former years.

The party which went up to Page on a prospecting tour returned wiser if not better men. They say Greenbush is good enough for them until the flies are subdued up there.

E. Hanson, of Minneapolis, came up on the train last Tuesday morning to Pease and then drove over with Luther Jones to Freer, to look after his building. He returned to Minneapolis on Thursday evening's train to buy the stock for the store.

Died Sunday, July 23, Miss Carrie Olson, daughter of Mr. and Mrs. Jens Olson. Miss Olson was one of our finest young ladies and will be missed by her young friends, of which she had many.

A large company followed her remains to the cemetery. The funeral sermon was preached at the residence of her father by Pastor Ingebrigtsen Tuesday of last week. Miss Olson was to have been married last May but the wedding was postponed on account of her sickness.

The Misses Hanson drove up from Minneapolis last week, visiting with friends on the way up and met their father, E. Hanson, here last Tuesday. In the evening they drove over to Pease to visit with Mr. and Mrs. Frank Jones and returned to Minneapolis Wednesday morning.

The Bridgman base ball club was to play our boys Sunday but some of their club failed to get here so they picked up enough to fill their nine on the ground, and had a game in the evening, the score being 2 to 5 in favor of the home team. Will McDougal and Axel Peterson were the pitcher and catcher.

EDITH.

T. J. Warren went to Milaca Saturday.

Wm. Roach and Tom McKleish came up from Milaca Friday.

Elmer Dinwiddie, of Wigwam Bay, was in Edith on business Friday.

The Foley Bean steamer, Queen Anne, was tied up for the season Saturday night, having made the longest run since it was built.

Mrs. Manning and daughter, mother and sister of Mrs. Adolph Olsen, came up on the stage Friday to spend the summer with Mr. and Mrs. Olsen.

F. H. Douglas, who has charge of Burch's drive, came up Tuesday and had the steamer drag the rice from the channel in the thoroughfares for two days in the hope that this would allow the water to run more freely to assist Burch with his drive below Princeton.

Mr. and Mrs. J. W. McClure started Monday for a trip in a row boat around the lake to follow every foot of the shore. The distance will be nearly 200 miles and Mr. McClure expects it will take them twelve to fifteen days to make the trip. Mr. McClure is to scale up all the company's logs left in the big lake.

Teachers' Examination.

The teachers' public examination for uniform State certificates will be held at the high school building in Princeton and at the public school building in Milaca on August 7th and 8th, 1899. I am not yet informed as to the hour of opening, but advise all applicants to be present at nine o'clock, A. M., August 7th. Do not take writing material as that will be furnished. I advise the holders of certificates which are valid until next March to not write at the State examination until that time.

Dated July 25th, 1899.

C. W. VANWORMER, Superintendent of Schools, Mille Lacs County, Minn.

Tetter, eczema and skin diseases yield quickly to the marvelous healing qualities of Banner Salve made from a prescription of a skin specialist of world wide fame. 25c. C. A. Jack, Druggist.

A New Burlington Book.

Railroad companies are great patrons not only of the liberal arts but of that modern classical expression that printing, engraving and photography places within the reach of everyone.

The Burlington Route has contributed its share to the sum total of railroad art and its latest addition will rank among the finest specimens of scenic souvenirs ever issued. It is the Burlington's Book of St. Paul and Minneapolis, a rich oblong volume picturing first the magnificent train, then scenes along the route, then St. Paul and surroundings, followed by Ft. Snelling and Minneapolis. In all respects, composition, letter-press, illustrations and binding, it is a dainty volume.

Copies of this elegant book can be had by enclosing 25 cents (postage stamps not received) to Geo. P. Lyman, G. P. A., Burlington Route, St. Paul, Minn.

Expenses of remittance can be saved by several persons combining their orders.

To Consumptives.

As an honest remedy, Foley's Honey and Tar does not hold out false hopes in advanced stages, but truthfully claims to give comfort and relief in the worst cases, and in the early stages to effect a cure. C. A. Jack, Druggist.

Born to Mr. and Mrs. Alexander Blair, of Greenbush, July 31, a boy.

Bob Burch succeeded in starting his drive nicely last Tuesday and by night had it nearly to Spencer Brook.

According to an exchange a handful or two of flour from the flour barrel is the best extinguisher of gasoline. If your gasoline stove gets to acting up, bear this in mind, as a handful of flour is worth more than half a dozen pails of water and won't make anything like the muss to clean up.

M. A. Tibbetts has sold his hotel near the depot to J. L. Larson, who will probably take possession within a few days, the deal having been closed but the transfer has not been completed. Mr. Tibbetts has managed the hotel so long that he will be greatly missed. Mr. Larson, the new proprietor, has the UNION's best wishes for his success.

The water tower has attained a sufficient height now so that people can see what sort of a structure it will be and our town is receiving many compliments. The engine room is being ceiled and otherwise prepared for the reception of the power and lighting plant. When completed the village will have over three miles of electric light wires on its pole line.

The linework on the streets is nearly completed and as soon as the machinery arrives and is put in place the electric lights can be turned on. Mr. Patterson says that as far as the work of construction is concerned he will be ready to turn over the plant Sept. 1. He is afraid, however, that there will be some delay experienced in getting the machinery on the ground.

Tuesday morning Princeton was visited by a heavy electrical storm and for a few minutes things looked decidedly interesting in this neck o' the woods. At 1 o'clock the gale struck and for fully half an hour the timid ones kept the cellar door open ready for a rapid exit. The lightning played incessantly but the whole storm appeared to be too far above the earth to do any particular damage.

One of the Mille Lacs lake mail carriers has thrown up his contract and A. J. Barrett has been secured to carry the mail temporarily. The contractors attempted to sue the bondsmen of the delinquent carrier, but found the bond to be valueless. If this experience is repeated a few times the blanket contractors will lose some of the profits they have hitherto derived from bleeding the local men.

The Princeton gun club has decided to pay a reward of \$25 in addition to the remuneration allowed by the State for the arrest and conviction of anyone guilty of shooting out of season. This will give the complainant a nice little purse for whatever trouble he may experience in securing a conviction of lawbreakers. The larger part of the farmers in this section have signified their willingness to co-operate with the club in protecting the game and so far this year there has been very little shooting in this vicinity.

The Milwaukee is said to be preparing to build a line to Duluth between the Coon Creek cut-off and the St. Paul & Duluth. The Northern Pacific is also reported to be planning a line north from Minneapolis. It begins to look as if Northeastern Minnesota will soon be covered with a network of railroads. It is one of the most productive sections of the northwest and the railroad companies appear to realize this and intend to get in on the ground floor. But after all it is not wise to believe all the railroad rumors you hear, even if they are pleasing to you.

Dairy Business.

It is noticeable that in every community, in which the dairy is well developed, there is a high degree of prosperity and refinement. The influence of the business is uplifting. It requires intelligence and a wide study to make the business a success, and all this is on the line of refinement. It demands gentleness of disposition. No rough, brutal man can achieve success in the dairy. He must be kind, and, if not naturally so, he must cultivate the spirit of kindness. The cow must be loved, must be petted, must be fed well and fed properly, and all this leads to the broadening of the mind and the improvement of our natures. Then, there must be cleanliness, not only about the premises, but about the person. An Indiana dairyman has a covered barnyard, and he was asked at an institute if he was satisfied with that way of keeping manure. "Why," said he, "I do not have a covered barnyard for the purpose of keeping manure. All manure is hauled out as soon as made in order to keep the yard clean. I constructed a cover over the yard for the comfort of my cows." There was a whole volume of dairy instruction in those few words. The watchfulness to preserve cleanliness and the kindness to the cows are the corner stones to successful dairying.—Practical Dairyman.
