

Avoid Stale Baby Foods.

You insist on having your own food fresh. Be as careful about the baby's food. Owing to their delicate composition many of the infant foods are greatly affected by age, and may become positively injurious. We take pains to keep these foods fresh, and if you buy here you can be certain of quality.

A hint is as good as an argument.

We are just as careful to have our drugs fresh and pure as we are in the matter of baby foods.
