

## HEAT HELPS.

You can never appreciate the worth of a hot water bottle until used in some time of need. Heat helps almost any pain, is often the only remedy required and with a hot water bottle you can have continuous, even heat for hours if necessary. It helps to cure toothache, earache, neuralgia, cramps, etc. And at this time of the year it is worth many times its cost as an antidote for those disagreeable bedfellows, cold feet.

It pays to get good ones. They outlast two or three of the poorer sort. And here you get the good kind at the prices ordinarily asked for inferior goods.
