

## Our Wall Paper Advantage.

In selecting this season's wall paper stock we had one great advantage: It was to be an unusually large stock--the largest ever shown in this locality. Large buying enables one to include many a desirable pattern that would otherwise have to be omitted, and it also secures every possible price concession. Therefore this one advantage has enabled us to place two distinct advantages before our patrons--largest assortment; lowest prices. That these are appreciated is shown by our rapidly increasing wall paper trade.
