

SAVING ON SCHOOL SUPPLIES.

See our stock of school supplies before you buy for the next term. We have a full supply of everything you will need and on many items can afford you a substantial saving. In the supply line this will be in either a better than ordinary quality, or more than ordinary quality for the same price, or the standard amount and quality for less than you are asked to pay elsewhere. In addition you will have a larger assortment from which to choose. If the children come to get supplies they will receive as prompt and courteous attention as though you came yourself--and the prices will be the same, too.
