

Dress Your Buildings

In a new coat of paint. Even considering the preservative value of paint as nothing, the improvement in appearance alone is worth much more than the cost. If your property is for sale you can't afford to not paint---it will add five to ten per cent to the selling value.

We have studied the paint question. We know what will give the most satisfaction for the expenditure, and we are anxious to supply you with the best grade of paints and painters' supplies, and insure full value for every cent of cost.

A meeting of farmers will be held in the school house of district 4, Greenbush, Saturday evening at 7:30 o'clock for the purpose of considering the organization of a farmers' telephone company. It is proposed to wire the whole of the territory between Long Siding and Estes Brook, and about fifty farmers are interested in the project. Should the proposition materialize an effort will be made to secure connection with either the Rural or Tri-State systems.

That the Union's constituency appreciates a good local paper is shown by the fact that, without any boosting, 117 new names have been added to its subscription list since Jan. 1st, 1906, and all but three have paid in advance. In the same time only six old subscribers have been dropped from the list, making a net gain of 111 bona fide subscribers in less than three months. Very few newspapers in the state outside the cities have a larger circulation than the Union.

Henry Rines, editor of the Kanabec County Times, Chas. F. Serline and Prof. Robinson, all of Mora, called at this office on Friday and discussed topics literary, pedagogic and general. They visited the places of interest in Princeton and dined on the fat of the land at the Hotel de Newbert, sweet corn on the cob appealing particularly to their epicurean tastes. Before departing for home the gentlemen purchased a bushel or two of this brand of corn from I. C. Patterson and took it with them. The roasting-ear crop in Kanabec county, they say, has not yet matured.

A postal card postmarked at Avalon, Catalina Island, March 12, has been received at the Union office, in which a homely dude is represented as dining on "ocean breeze," "Cal. climate" and "mountain air." The card is signed by Mr. and Mrs. N. E. Jesmer, Mrs. M. R. Mallette and Miss Mattie Lyons. The card looks nice and indicates that our Minnesota friends are having a glorious time on the Pacific coast, but it strikes us that "climate" is a rather thin diet.

The Alberti family of Chicago will appear at Jesmer's opera house on the evening of Thursday, April 19. The entertainment will consist of a lecture on Russia and Siberia, illustrated with stereopticon views, by Capt. BEST of SEPARATORS

Actually Free of Cost.

This is really the fact in the purchase of a DE LAVAL CREAM SEPARATOR. Any reputable person may buy a DE LAVAL machine on such liberal terms that the machine actually pays for itself.

And it not only does this the first year, in which it saves its cost, but goes on doing it for fully twenty years to come. In the face of these facts buying trashy "cash-in-advance" separators, or any other than the best, is penny wise, dollar foolish. Such machines quickly lose their cost instead of saving it, and then go on losing instead of saving.

There is no possible reason why any buyer of a cream separator should be content with less than the DE LAVAL, and there never was a more promising time to make this most profitable of all farm investments.
