 is visiting the principalt industrial
centers of Belgium, Switzerland and centers of Belgium, Switzerland and
Gerrmany, with a party of American Gerrmany, with a party of American
manufacturrers and professors, including H. W. Leschen of A. Leschen
\& Sons, St. Louis; Clifford Egan Jaffa, Egan \& Co., Cincinnati; L. H. Cober of Jersey City; Prof. Cliffor
ado, and Prof. Raynor the Univers of Color ado, and Prof. Raynor Allen of the
Massachusetts Institute of Technology. two principal conclusions reached, in which all the members of
the American party agree, are the the American party agree, are the
extraordinary prosperity and extreme extraordinary prosperity and extreme
industrial ad vancement of Germany.
All of the thirty-fire works visited All of the thirty-five works visited
were crowded with orders, some of
them having them having orders for years ahead.
It was at Mulhausen that the Americans found gas engines being con
structed up to 3,000 horsepower. Gas engines in America, Lieut. Carden
said, are regarded as being in an experimental stage, but all over Eu-
rope are gas engines which passed from experimental to fully
practical use The Americans found that the Ger-
mans made great use of waste steam in manners unknown in America.
Lieut. Carden, who visited 350 Ger Lieut. Carden, who visited 350 Ge
man works in 1903, as a machiner expert for the St. Louis exposition, was able to contrast what he saw dur-
ing his present tour with what he saw four years ago. He said that the almost up to 100 per cent, the manufacturers everywhere having applied
Amercian methods of getting the Amercian methods of getting th
highest capacity out of tools and ma chines. He found, however, that the Germans employ fewer American ma
chine tools, most of those now in us having been made in Germany, al though the highest class America
tools are still imported. tools are still imported.
The feeling among the The feeling among the manufactur States will experience difficulty in beating Germany, and that the Ameri
can superiority in syst can superiority in systems of work
and machinery of a few years ago has and machinery of a few years ago ha
well nigh been overcome. Farmers Organize Strong soclety.
Plans to organize the farmers of country in a co-operative movemen
similar to the Rochale plan in Grea similar to the Rochdale plan in Great
Britain were perfected at a conference of farmers held in Chicago last Friday. Leaders of the movement ar
officers of the American Society o Equity, better known as the farmers Enion.
Alread
Already 300,000 farmers are pledged its sponsors, ond it is probable that Chicano will become the central mar-
ket and headquarters
The society is incorporated unde the laws of New Jersey. It propose the country for the distribution o farm products
