OUR BABY'S BOOK

ANOTHER LOVE watches and mentally records every step of her baby's physical and mental growth, but the human brain is not always the most infallible recorder of events. Let the passing years efface these memories a mother should keep a written record of her baby's history.

BABY RECORD BOOK

A book for this purpose, beautifully designed and illustrated, and containing no advertising, is yours practically for the asking. This book is a creation of the Graphic Artists. In size it is 8x10 inches, bound in mode shade cloth, decorated in gold, and contains thirty-six pages of which seventeen are full page drawings in colors of child-life, by Verona Busby Dobbin, famous as an illustrator and particularly known for her studies of children. The other pages consist of forms covering events of importance from birth on through babyhood, in which may be entered dates, data and memoranda concerning this interesting period of development. This book is a model of the bookmaker's and artist's craft. It is impossible to explain its superior quality here; suffice to say that such a book would cost at least \$2.00 at any bookstore.

Frank Hoist, convicted of murder in the second degree for killing Lieut. Hoist was sent to Stillwater on Saturday to begin serving his sentence, although his attorney has signified his intention of appealing for a new trial.

Chisholm, on the iron range, is making rapid strides toward its recovery from the effects of the devastating fire. There are seventeen two-story brick buildings in course of construction, costing from \$12,000 to \$22,000 each, and more than 100 have been completed in the past eight months. Fifty residences are being built and 350 have been completed since the fire.

An iron range exists between the Mesabi range and the Canadian border. Duluth men have been working quietly and have obtained large holdings of land which they believe are underlain with iron in quantities which will make the new iron territory rival if not exceed the Mesabi. It is declared that a great deposit of ore has been discovered in a strip of country eight miles long and from two to three miles wide. The deposit already known to exist is half way between Virginia and the Canadian border on the Rainy lake road.

Women Who Are Envy.

Those attractive women who are lovely in face, form and temper are the envy of many, who might be like them. A weak, sickly woman will be nervous and irritable. Constipation or kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. For all such Electric Bitters work wonders. They regulate stomach, liver, and kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion. Many charming women owe their health and beauty to them. 50c at C. A. Jack's.

An Item of Interest.

In the museum of the San Francisco mint one sees a lump of gold like a large bean, stamped on one side with the rude outline of a crowned archer. It is a Persian daric which has come down from the time of Darius. This suggests the interesting fact that in the gold coins of today are particles of precious metal which have come down from a very remote past, as considerable of the material that goes into the new coins come from old ones remelted. Another interesting fact is that Golden Grain Belt beer, if served regularly at mealtime, will aid digestion and make rich red blood. Keen appetite comes with its use. A Thrilling Rescue.

How Bert R. Lean of Cheney, Wash., was saved from a frightful death is a story to thrill the world. "A hard cold," he writes, "brought on a desperate lung trouble that baffled an expert doctor here. Then I paid \$10 to \$15 a visit to a lung specialist in Spokane, who did not help me. Then I went to California, but without benefit. At last I used Dr. King's New Discovery, which completely cured me and now I am as well as ever." For lung trouble, bronchitis, coughs and colds, asthma, croup and whooping cough it's supreme. 50c and \$1.00. Trial bottle free. Guaranteed by C. A. Jack.

Forestry Commission Notice.

Chapter 22 of the Revised Laws of Minnesota, 1905, entitled "Forestry and Fire Warden," requires the Forestry Commissioner to prepare an abstract of the penal laws relating to forest and prairie fires and he may require any county board to cause at least three weeks published notice thereof to be given. The following is accordingly hereby published:

STATE OF MINNESOTA,

Office of Forestry Commissioner.
St. Paul, April 15, 1909.

The law of Minnesota for preventing and suppressing forest and prairie fires, as amended by Chapter 182, Laws of 1909, makes town supervisors, town clerks, village presidents and mayors of cities fire wardens, and requires them to take precautions against such fires, report them promptly and prosecute offenders.

THE LAW FORBIDS:

Setting fire and not extinguishing it before it endangers the property of another;

Throwing or dropping burning substance into combustible material without extinguishing same;

Starting camp-fire without clearing ground within a radius of ten feet;

Setting fire to brush or slashings in clearing land before piling same;

Setting fire to brush or slashings or other combustible material in a dry season, or allowing fire to be burning or smoldering in such season.

Those who cut timber or wood to sell must pile the slashings and burn the same as soon as practicable, and when it can be done without danger, and before the first of May.

Rangers may be appointed in a dry and dangerous season.

Railroad companies must keep their right of ways clear of combustible material, extinguish fires that occur near their lines of road, also patrol their roads in dangerous weather. The master mechanic and locomotive engineer, as well as the company, are responsible for the efficiency of spark arresters.

The minimum penalty for violation of any of the provisions of this law is \$50; the maximum penalty \$100 and three months imprisonment in jail.

C. C. ANDREWS,
Forestry Commissioner.

WOMEN'S WOES.

Princeton Women Are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches; dizzy spells, bearing-down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people you know.

Mrs. Carrie D. Stone, W. Main St., near Baptist church, Anoka, Minn., says: "My back was very weak and I felt tired and worn out most of the time. The kidney secretions were also irregular and unnatural, causing me much annoyance. Hearing of Doan's Kidney Pills, I procured a box and they gave me such decided relief that it is a pleasure to recommend them."
