

Paint With Tested Paints

Experiments are apt to be costly especially when it comes to painting a house. Why not profit by the experience of others? If you use some unknown brand of paint you must wait some time before you know whether you have a bargain or not. Time only can thoroughly test house paint. This brand has a record of half a century. We can show you houses in town painted with B. P. S. paint years ago that are still well protected. For covering capacity, permanence of colors and durability this brand excels all others. Ample choice of tints. Call for color card. B. P. S. paints cost no more than other good paints.

Open Sundays from 9 a. m. to 1 p. m.
