W. H. Ferrell received a telephone message on Monday afternoon from White Rock, Goodhue county, that his mother was not expected to live and he and his wife immediately left for that place in their touring car. Before they reached there, however, Mrs. Ferrell passed away.

Isle will probably have a railroad station in the near future. This would be a great accommodation to the people of that thriving little place on the shore of Mille Lacs lake, and the railroad and warehouse commission should compel the Soo to establish a depot there. Wahnkon is now the nearest railroad station although trains run directly through Isle.

Dog days are here, but don't get scared. Dogs are no more liable to go mad at this time of the year than in winter provided you supply them with plenty of fresh water, and this is the duty of people who keep dogs. Dog days take their name from Sirius, the dog star, which is now in its ascendancy. The star exerts no influence whatever over dogs.

"THE SCHOOL FOR PEOPLE WHO WANT THE BEST"

Dorothy and Doris Howard, twin daughters of Mr. and Mrs. Millard Howard, gave a party on Saturday afternoon to celebrate their sixth birthday anniversary. Ten little girl friends were their guests and the time was enjoyably passed by them. The dining room was prettily decorated with cut flowers and at 5 o'clock Mrs. Howard served a nice supper. Many pretty gifts were bestowed upon the twin sisters.

Considerable rye has already been threshed in this vicinity and the yield is reported as above the average. Farmers north of town, on the clay soil, are all busily engaged in harvesting small grain, and an abundant yield is promised. On the lighter soil, south of the village, the harvesting of small grain is about completed. Late potatoes look good. Corn is a little backward but there are some fine fields well advanced in this vicinity. The clover and hay crop is simply immense.

The Mille Lacs County fair is not a money-making scheme. No one connected with the fair receives a dollar of compensation for his services—save for manual labor actually performed. Every dollar received from gate admissions, sale of privileges, etc., is paid out for premiums and attractions or expended in bettering the grounds and buildings. Help the fair and help to make it pleasant for the farmers and their families when the fair is in progress. Princeton is exclusively a farmers' town. There is no manufacturing to speak of in Princeton. The farmers are the main and sole reliance of the town, but there are some short-sighted people in our midst who do not seem to comprehend that fact.

**A Model School House.**

The school board of district 10, Greenbush, consisting of James Kenely, A. G. Orton and Frank Wenberg, is not to be outdone in providing for the comfort of the pupils. A complete modern basement furnace has recently been installed by the board which possesses all the facilities for supplying the building with warm, fresh air. The school building is now one of the best in Mille Lacs county, modern in every respect. Those who send children there will surely appreciate what the board has done to make the building a pleasant, healthful place.

**Resolutions of Condolence.**

Whereas, in His infinite wisdom, it has pleased the Supreme Ruler of the universe to call our beloved brother, Llewellyn S. Libby, from the duties of this life to the life beyond the river that marks the unknown shore;

And whereas, by his death his wife has lost a kind and loving husband, and this lodge a faithful member;

Therefore, be it resolved, that we, the members of Princeton lodge No. 93, Knights of Pythias, tender to our deceased brother's wife the heartfelt sympathy of a true brotherhood and our assurance that we wish to border her future pathway through life with the flowers of fraternal devotion;

And, be it further resolved, that a copy of these resolutions be tendered to the wife of our departed brother, published and spread upon the records of this lodge.

Dated this 14th day of August, 1912.

Otto Henschel,  
Frank Goulding,  
Fred Newton,  
Committee.
