Valuable Map of Gettysburg.

To meet the demand for an accurate map of Gettysburg and vicinity during the great memorable celebration which will be held at that historic point beginning June 29-30 years after the commencement of the terrific fight which sealed the fate of the hitherto sanguine confederacy—the United States Geological Survey has combined four of its topographic sheets and printed a large map. The map covers about 925 square miles, including the Gettysburg battlefield and the adjacent portion of Pennsylvania as well as the adjoining portion of Maryland and is on the ample scale of one mile to the inch. It shows accurately the size and shape of the mountains and ridges, and by means of contour or elevation lines the exact altitude of every hill, slope, valley and pass. All the roads by which Lee brought his main army in from the west are shown, and the course pursued by the Army of the Potomac under Hooker and later under Meade can be readily traced. Such familiar bloody fighting ground as Little Round Top, the Wheatfield and the Peach Orchard are shown in their exact topography almost as clearly as in a bird's-eye photograph, as is also the ground over which Pickett's division of 18,000 men, the flower of the south, made its famous but futile charge—a charge however, which accomplished its probable purpose of deterring Meade from following up his victory with pursuit of Lee's shattered columns.

Such map would have been worth thousands times its weight in diamonds to either of the commanding generals at the battle of Gettysburg, where the fate of their great armies and probably of the union and confederacy hung on the issue of the day. The regular price is 40 cents a copy, but by special authority granted by the secretary of the interior, it will be delivered postage free in a mailing tube until July 4, 1913, at 20 cents a copy. Remittances should be made to the Director, United States Geological Survey, Washington, D. C., in cash or money order.
