Kickapoo Worm Killer, a pleasant candy lozenger, expels the worms, regulates the bowels, restores your children to health and happiness. Mrs. J. A. American Farmers Are Getting Wise

They have discovered the truth of the old adage that "A stitch in time saves nine," which, applied to the business of farming, means that it's a lot cheaper in the long run to have good barns, granaries and other out buildings on the place than to put up with rickety, makeshift affairs that some farmers used to think good enough. Don't say you can't afford needed improvements until you know what these improvements would cost. Come in and let us tell you the cost of the material for any new building you may want.

Job Printing and Job Printing

THERE are two kinds of Job Printing—that which is neat and artistic and that which possesses neither of these qualities. The Princeton Union makes it a point to turn out none but the former kind, and the Union finds this easy because it has the type, machinery and skilled labor with which to accomplish it.

Nothing Looks Worse Than Botched Job Printing.

It is a drawback to the business of a merchant or anyone else who uses it. Botched Job Printing suggests loose methods. Then why not use the kind printed by the Union? It costs you no more and gives the public a good impression of your business. The Princeton Union is prepared to execute every description of

Commercial and Fancy Printing

at short notice and nominal prices. If you are in need of letterheads, noteheads, billheads, statements, cards, posters, programs, wedding invitations or any other work in the printing line, an order for the same placed with the Union will insure its being produced in an attractive and up-to-date style.
