

WOODWARD BROOK.

Albert Lang of Minneapolis is a guest of the Chris Minks family for a week.

Never in the history of potato raising have bugs been as numerous as this season. Early and late the farmer is at it to get rid of them. Several cases of poisoning have occurred to those who have used the dry spray of paris green. The poisoning process working on the person spraying as well as on the potato bugs. Lloyd Shea, John Hertel and Harold Hertel have had swollen limbs and faces as a consequence.

Several improvements are being made to state road No. 1. It surely does make driving pleasant when roads are in proper condition, not only for man but better still, for the horses.

Freda and Leonard Larson of St. Paul arrived here Friday and will spend a few weeks at the home of their uncle, Hans Rasmussen, and family.

The Ladies' Aid society of Woodward Brook met in an out-door session at the home of Mrs. S. C. Caley last Thursday. A lovely afternoon was spent in picnic fashion on the banks of Rum river. The next meeting will be with Mrs. B. Draxten on Thursday, August 20.

E. S. Starckenburg of Pease was here Monday and made arrangements for the building of a new shed barn on his farm. Mr. Starckenburg leaves for Idaho in about a month and wishes to leave his farm in good condition for selling or renting. Louis Talen and Ira Starckenburg will put up the building; the work to begin about Friday.

Peter Poortinga has bought the 120-acre farm of Mark Newman for \$7,200. No Woodward Brook farm is sold for a song. That time is past.

Eight months of school will be held, beginning the first Monday in September and a two weeks' vacation is to be given during the busiest time of the potato harvest. In district 36 M. B. Anderson was elected chairman of board. \$350 taxes were voted. It was decided to hold eight months school, beginning September 7. In district 26 Ben Van Roekel was re-elected treasurer for three years. Only \$50 in taxes were voted as there is about \$700 in the treasury. School term begins August 31 and the length of the school year is nine months. The Misses Alta and Effa Reichard of Princeton teach in district 12, and F. W. Pierce of North Branch in district 36.

Mr. and Mrs. Atkins, who have spent two weeks in Woodward Brook visiting with their daughter, Mrs. C. Jump, left Wednesday for their home at Lincoln, Neb. Mr. Atkins expresses himself as well pleased with our northern country and climate and the people who have met these genial Nebraskans would be glad to have them make their home among us.

Miss Selma Elslager went to the cities Saturday to spend a week with relatives and friends.

Henry Norman left for Lakeview, Iowa, Monday and will spend some time with a brother and a sister living near that town. His brother, Clarence, accompanied him as far as Minneapolis, returning the same evening.

complaint to make in regard to the sunshine needed to make hay.

George Lang returned to his home in St. Paul on Monday after a pleasant week passed with friends here.

The Christian Endeavor society intends to give an ice cream social. It will be held on the lawn of C. Jump. More particulars next week.

A number of friends of Mr. and Mrs. M. C. Thorring were pleasantly entertained at their home Sunday.

Although the annual fair of Mille Lacs county will not be held until September it is high time that we remind each other of our town exhibit. This exhibit should not be the result of one or two farmers' work and care, but should represent the work and growth from every section of the township. Now is the time to look over the fields of grain and see where the straw is longest and the heads are well filled. As the grass is being cut save a handful for the town exhibit. We ought to be able to make a good showing at the fair this year for plenty of everything imaginable has grown. But the real success of this exhibit lies in our pulling together and pushing it along. If you have something you think worthy of attention kindly let Peter Jensen know about it. He has consented to see that our township exhibit is collected and will have charge of the work. But it would not be anything like fair dealing to let Mr. Jensen and daughters do all the work, as they did last year, and give the town the honor and money. Do your share.

Mrs. Umbecker and son, Kenneth, of Princeton came here Sunday to spend Saturday with the Andrew Anderson family.

Mr. and Mrs. George Holdern of Grand Rapids, Mich., John Hubers of Middleburg, Iowa, and Mr. and Mrs. H. Brinks of Pease spent Monday afternoon at the Wm. Talen home.

Mrs. N. H. Nelson has been quite ill the past week.

The many friends of L. D. Gofield will be sorry to learn that he is in the hospital at Princeton very ill with pneumonia.

The dry spell has been severe on crops around here. Some potatoes are drying up and small grain will be light, but nevertheless it has been ideal weather for putting up hay.

A pipe organ has been installed in the Lutheran church in Glendorado. Saturday and Sunday evenings concerts were held. Among those who took part in vocal and instrumental music were Clyde Lance and E. Swensen of Foley and Prof. Remstal, the noted tenor soloist. TWENTY-FIVE YEARS AGO

Both preachers are out of town this week, hence the welcome rainfall this morning.

Hello, Hon. Adonis Eastman of Anoka, was there a game of base ball in your sleepy town on Tuesday, and how did your "Invincibles" fare?

Ed Page was in town on Tuesday, and he is not at all sanguine of getting the logs down even with the aid of the dams that are being constructed.

The country east of Milaca is being rapidly settled by industrious Scandinavians. Their little clearings, as seen from the car windows, look like oases in a desert.

County Attorney Bloomingdale went to Wisconsin last week on professional business, and has not returned yet. During his absence Chas. Keith is attending to the county attorney business.

T. H. Caley is harvesting his large field of oats west of the village this week. He says he would have had an average crop notwithstanding the severe drought had it not been for the confounded ground squirrels. They have wrought such havoc that the crop is hardly worth harvesting.

Two young men who had been visiting here called at Lou Libby's livery stable Sunday afternoon and hired a rig to drive around town for a few hours. On Monday Lou learned that his team was in the hotel barn at Elk River. It was a scurvy trick and it would not be safe for the hoodlums to try the same game over again.

At the annual school meeting in district No. 1, this village, last Saturday evening, A. W. Woodcock was re-elected treasurer without opposition. It was voted to raise \$4,000, although the treasurer's report showed that there was \$4,000 in the treasury. Not a dollar should have been voted. It was wisely determined to postpone the building of a new school house for another year. It was also voted to have nine months school for the ensuing year. Auditor Van Alstein acted as chairman of the meeting.

The Princeton boys met the Anoka "Invincibles," in that city, on Tuesday and "done them up" for the second time this season. Anoka played a better game than they did in Princeton. The score stood 16 to 12 in favor of the Kids from Princeton. The game was hotly contested and it looked dubious for the Princeton boys until the last half of the fourth inning had been played. In that inning the Princetons placed six runs to their credit. Costly errors were made by players on both sides. Staples is credited with four runs for the Princetons, and Kerr with three for the Anokas. As a base stealer Staples has few equals among the amateur nines of the state.

Job Printing and Job Printing
THERE are two kinds of Job Printing—that which is neat and artistic and that which possesses neither of these qualities. The Princeton Union makes it a point to turn out none but the former kind, and the Union finds this easy because it has the type, machinery and skilled labor with which to accomplish it.
Nothing Looks Worse Than Botched Job Printing.
It is a drawback to the business of a merchant or anyone else who uses it. Botched Job Printing suggests loose methods. Then why not use the kind printed by the Union? It costs you no more and gives the public a good impression of your business. The Princeton Union is prepared to execute every description of
Commercial and Fancy Printing
at short notice and nominal prices. If you are in need of letterheads, noteheads, billheads, statements, cards, posters, programs, wedding invitations or any other work in the printing line, an order for the same placed with the Union will insure its being produced in an attractive and up-to-date style.
