Mr. and Mrs. H. O. Oliver left for Rochester last Monday to visit relatives and friends. Mrs. Oliver will receive medical aid at the Mayos' hospital.

Rena Alberts of Onamia was a Vineland visitor Monday.

**Prompt Action Will Stop Your Cough.**  
When you first catch a cold (often indicated by a sneeze or cough), break it up at once. The idea that "It does not matter" often leads to serious complications. The remedy which immediately and easily penetrates the lining of the throat is the kind demanded. Dr. King's New Discovery soothes the irritation, loosens the phlegm. You feel better at once. "It seemed to reach the very spot of my cough" is one of many honest testimonials. 50c at your druggist. Advertisement.

**New Seed Law.**  
"The quality of the seed offered for sale in Minnesota," declares W. L. Oswald, head of the state seed laboratory, "will be greatly improved if the retailers will co-operate in every possible way with the laboratory in making the new seed law success."

"The labeling of the seed as required by the law should work no hardship on the retailers. It ought to be a good way for them to advertise, giving them an opportunity to offer seeds of tested quality, bearing labels to that effect."

"All seed sold in quantities of one pound or more, except garden, flower, and tree seeds, must have the proper label attached. Just having it on the bulk packages is not sufficient. If the seed is bought from the wholesale dealers and sold without opening the bag or package, the original tag of the wholesale dealer is sufficient. If the bags are opened, however, and small lots retailed the dealer must attach his own tag. Printed labels, with blank spaces to be filled with the required information, may be purchased from any tag manufacturer and should not cost over seventy or eighty cents a thousand."

"The information on the wholesaler's label, if correct, may be copied, or a sample of seed may be sent to the state seed laboratory, where a test will be made free of charge. When a retailer is in doubt he should send in a sample for a state test."
