

Northwestern Hospital and Sanitarium

ESTABLISHED 1900

A private institution which combines all the advantages of a perfectly equipped hospital with the quiet and comfort of a refined and elegant home. Modern in every respect. No insane, contagious or other objectionable cases received. New, quiet maternity rooms. Rates are as low as the most efficient treatment and the best trained nursing will permit.

H. C. COONEY, M. D., Medical Director

FRANCES S. COONEY, Superintendent

MISS IRENE JORDAN, Registered Nurse, Supt. of Nurses.

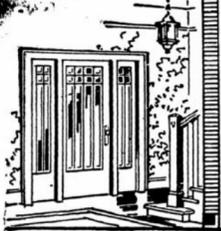

What Kind of Feathers

Your new home is not simply a this year's nest to be lived in a short while and abandoned. You are building for life. It is important, then, that in choosing its interior finish you buy material of quality and character. The Curtis trademark on woodwork is a guarantee of quality—it is stamped only when the material has passed rigid inspection.

Come in and let us show you the Curtis designs from our big Curtis Catalog.

CALEY LUMBER CO.

Benjamin Soule, Manager.

TWENTY-FIVE YEARS AGO

Miss Jean Rines is home from school in St. Paul to spend Thanksgiving with her parents.

Ed. Chesley was down from Milaca yesterday. He says business is brisk in that lively little burg at present.

Hen Webster has secured the contract for hauling the railroad timber on the Rum river, where Page Bros. operated last year. Hen expects to bank 15,000,000 feet of logs this winter.

C. H. Chadbourne: I have a great admiration for Jas. G. Blaine. If Grover Cleveland is on the nominee of the democrats next year, I would rather see Blaine president than any other man.

Chas. Van Wormer, of the Cambridge Press, was in town Tuesday. He reports business is only fair in Cambridge this fall, but as good as could be expected in a town destitute of railroad facilities.

Several more letters with reference to the proposed flouring mill have been answered by the editor this week. Princeton's liberal proposition of \$2,000 cash bonus and a site will be accepted and the mill will be forthcoming.

The starch factory shut down Monday. In the neighborhood of 70,000 bushels have been converted into starch this season. If, when the returns are all in, the receipts equal the expenditures the owners of the factory will feel happy.

Milaca people say Will Bouck is giving excellent satisfaction in the post office at that place. Will commenced kicking for better mail service immediately after he was appointed and he has kicked to some purpose. It pays a town to have a live postmaster.

Mr. and Mrs. Will Hatch and two children returned to their home in Spencer, Iowa, Tuesday morning, after a two weeks' visit with relatives in this place. Will is a successful building contractor and his friends and acquaintances here are glad to know that he is prospering.

Milaca correspondence: A lot of hoodlums succeeded in getting drunk one day last week, at a certain place in town where real estate is advertised for sale. This kind of business has been going on long enough in Milaca and if that fellow from Anoka does not look out a little he will be sorry for his venture.

Mille Laes Lake correspondence: The Sioux were here eleven days in all. They seemed to be well fixed, had plenty of cash, good buggies and wagons and any amount of horses and colts.

District 24 School Notes.

Edna Foote, Mrs. Parrault, Madge, Elizabeth, Margaret and Dorothy Berry visited school last week.

Last Friday we had a picnic dinner. Oliver Berry suffered with a tooth ache for two days, but attended just the same. Good for Oliver.

New library books have been received and we are all busy reading them.

Mr. Hatch banked the school house. Library books will be issued to any one who wishes them.

The geography and history classes had tests last week.

We spent our recess and noon hour skating on the pond.

The attendance is keeping up very well. Let's hope for a continuation during the winter.

Mr. Mathis took our pictures two weeks ago, and all have purchased one or more.

The arithmetic classes are drilling on the four fundamentals.

School Report.

Report of Baldwin school, district No. 10, for the month ending Nov. 10. Those who were neither absent nor tardy for the entire month were: Clifford and Evelyn Enemark, Marie Heinen, Byron Francis, Robert and Wilbur Hannay, Eva and Bennie Johnson, Ida Nelson, Geneva and Milo Patten, Clarice and Earl Pierson, Eunice and Ruth Townsend, Andrew and Milo Weissenfluh, Kermit Young and Alma Zirott.

Clara C. Anderson, Teacher.

School Report.

School report of district 50, Baldwin, for month ending Nov. 10. Total enrollment 35, average daily attendance 30. The following were perfect in attendance for the month. Dorothy Swanson, Floyd and Lawrence Usher; Henry, Anna and Emma Peterson; Ruth Lindquist, Dale and Basil Fiero, James Holmes, Enolia and Timothy Lambert, Roy Dorn and Florence Vetsch.

Glennie M. Oakes, Teacher.

Unclaimed Letters.

List of letters remaining unclaimed at the postoffice at Princeton, Minn., on November 20, 1916:

Mr. E. C. Marvin, Albert Johnson, Mrs. Erika Larson, John Clark, Indian.

Please call for advertised letters.
M. M. Briggs, P. M.

Sunday school immediately following.
Cordial invitation extended.

Episcopal.
Divine service will be held on the Wednesday following the third Sunday of each month at 3 p. m., in the Congregational church.
Rev. T. J. E. Wilson, Hincley.

WATCH YOUR TIRES.

No Matter How Good They May Be This Caution Is Necessary.

Many a car is sold on the representation that "the Blankmobile will run from 7,000 to 10,000 miles on a set of tires," and the motorist thus gleams the opinion that his tires need no attention for that length of time.

But no car dealer's statement or tire maker's guarantee can influence good or bad luck, and it is largely the work of the latter that places the bit of broken glass, the sharp stone or the protruding nail directly in the path of the unwary tire. Such an obstacle will not necessarily penetrate the tire—the chances are that it will not—but a cut will be formed in the outer layer of rubber or tread, which, like an infected wound, will eventually spread and "inflamm" the entire surface.

A few moments spent in examining, cleaning and plugging the cut or hole will add thousands of miles to the life of the tire. The inexperienced motorist can form no conception of the readiness with which mud, sand and water can enter the slight opening in the surface of the tire and by gradually working its way "under the skin" will tend to separate the tread from the outer layer of canvas.

In a few hundred or thousand miles this tread will be hanging in flapping shreds, worth no more than so much old rubber, and in order to be reclaimed the tire must be retreaded or used in connection with one of the several detachable treads on the market—H. W. Slauson, M. E., in Leslie's.

THE DEAD SEA.

Some Interesting Facts About This Curious Body of Water.

For a number of years many persons have declared the Dead sea, in Palestine, is diminishing, but a recent careful survey by experts has established beyond all doubt that the sea is steadily increasing.

At many points on its southern and eastern borders there are vast forests with large trees becoming submerged.

The sea is about forty miles in length and ten miles wide at the broadest portion. Should it continue to enlarge it will take in valuable country, but, so far as known, there is no way to prevent this.

Mediterranean waters are 1,300 feet higher than the Dead sea level, but this is no proof the waters of the Dead sea are drying up.

A survey of the wonderful region of years ago shows islands that are now gone. It is declared these are covered. There is so much solid matter in the water that it makes about one-fifth, or 20 per cent, of the matter solid. It is so intensely salt and bitter that no creature can live in it.

The bed of the sea is rich with mineral deposits. Salts, copper, lead and zinc and marble are found in vast quantities, and experts are of the opinion there is a great deposit of petroleum beneath the vast body of water.

A man's body is lighter than the amount of water it displaces, and it is therefore impossible for a person to sink.

Vegetation is scarce and greatly stunted for miles about the sea.

Sandy and the Glass.

Tourist (referring to the barometer)—I see the glass is going up again, Sandy. Sandy—Dae ye tell me that? A body will soon no' be able to afford a draw at all!—Dundee Advertiser.

Filial Philosophy.

Auntie—Bobby, why don't you get up and give your seat to your father? Doesn't it pain you to see him reaching for the strap? Bobby—Not in a train, it doesn't.—London Opinion.

DON'T SELL

Your poultry until you have seen us. We want a large quantity for the Thanksgiving trade.

Prices this week are:
