What Kind of Feathers

Your new home is not simply a this year's nest to be lived in a short while and abandoned. You are building for life. It is important, then, that in choosing its interior finish you buy material of quality and character. The Curtis trademark on woodwork is a guarantee of quality—it is stamped only when the material has passed rigid inspection.

Come in and let us show you the Curtis designs from our big Curtis Catalog.

The cold backward weather has retarded seeding operations in this vicinity.

Rum river needs a tonic in the shape of copious showers. The water in that stream is receding fast.

Deputy State Examiner West was here last week and made a thorough examination of affairs at the court house. He found everything O. K. and compliments the county officers on the manner in which they discharge the duties of their respective offices.

District 24 School Notes.

We have two large charts illustrating a kernel of wheat and the steps wheat goes through as it is manufactured into flour.

Florence Siffing is back in school after a three month's absence.

Walter and Edward Orne have left school.

The two Miss Romines visited school last week.

Everyone enjoyed the Easter vacation and all are ready for the final home run.

Friday afternoon we had a party for those whose birthdays occurred in March and April.

Our bell tipped one day but Robert Moore convinced it that it must not stay that way. Robert is a good "convincer" when he wants to be.

The first grade has new readers. This is their fifth set.

Hazel Berry, Grace Lundblad and Olive Berry won first prizes in their respective classes, for compositions written. "Good Teeth, Good Health" was the title of them.

We have several flowers in school. The history classes have learned the pledge to the American flag, namely: "I pledge allegiance to my flag and the republic for which it stands, one nation, indivisible, with liberty and justice for all."

Mark Buys a Circus.

E. Z. Mark of Willow River—E. Z. by name if not by nature—has bought a real circus with a wild west attachment under the direction of Bill McCarty, a Montana round-up artist, and will start the season from some eastern city, about May 1. Emmet Mark is well known throughout the county, and this entire part of the state—in fact, you can find his friends by the dozens all the way from here to Miles City, Mont.—and everyone hopes he'll make a barrel of money out of the monkeys and the other things he'll show.

He purchased more than 100 horses, as part of his equipment, from St. Paul dealers the latter part of the week and also took over the Clark and Fowler dog and pony show which was owned in the capitol city.

This does not indicate any disposition on Emmet's part to quit Pine county. He will retain all his interests at Willow River, and possibly establish his permanent winter quarters there.—Pine City Piker.

Plant Wheat Not Oats or Barley.

Reports say that in the Red River valley many farmers are planting oats and barley rather than spring wheat. This is believed by those familiar with conditions over the country to be a grave mistake.

In the winter wheat areas where much damage was done to wheat through the winter, many farmers are reseeded their land with oats and barley. This added to the normal acres of oats and barley is likely to produce an over supply. Minnesota farmers should plant wheat at the expense of oats and barley rather than oats and barley at the expense of wheat.
