

LIBERTY LOAN BILL IS NOW LAW

President Attaches Signature to Greatest War Credit Measure Ever Authorized.

VANDERLIP TO ASSIST

President of National City Bank to Give Entire Time to Government in Helping Secretary McAdoo.

Washington, Sept. 26.—President Wilson has signed the \$11,000,000,000 war bond measure and it is now a law. The bond bill—largest war credit ever authorized at one time—will raise \$4,000,000,000 for new loans to the Allies at 4 per cent and \$3,000,000,000 to take up the old 3 1/2 per cent allied loans.

Two billion dollars each will be issued in treasury certificates of indebtedness running one year and in war saving certificates running five years. The latter may be purchased by small investors in denominations as low as \$4.10, such a certificate bringing in \$5 at maturity.

The bond law also provides \$538,945,460 for the Danish West Indies, Alaskan government railway, Panama canal and naval construction.

Vanderlip to Assist.

Frank A. Vanderlip, who as president of the National City Bank of New York, heads the largest national bank in the United States, has severed his connection with that institution and all other organizations with which he is identified for the period of the war to assist Secretary W. S. McAdoo in Liberty Loan finance, Washington dispatches announce.

Rogers Names Committee.

Minneapolis, Sept. 26.—Chairman A. R. Rogers of the general executive committee of the ninth federal reserve district Liberty Loan campaign has completed the organization of the committee.

The committee, which will direct the placing of the ninth district's allotment of the loan, comprises: A. R. Rogers, chairman; L. B. Hanna, North Dakota; J. C. Bassett, South Dakota; J. W. Black, northern Michigan; Frank P. Hixon, Wisconsin; Norman P. Holtzer, Montana; Homer P. Clark, St. Paul; C. H. Bigelow, St. Paul; E. J. Carpenter, Minneapolis; W. A. Durst, Minneapolis; F. A. Patrick, Duluth; Theodore Wold and John H. Rich, Minneapolis, ex officio.

SEATTLE SHIPMEN TO STRIKE

Twelve Thousand Men Ordered Out Next Sunday.

Seattle, Wash., Sept. 26.—A strike at 10 o'clock Sunday morning of 12,000 members of the fifteen metal trades unions employed in Seattle shipyards and allied shops has been ordered by the Seattle Metal Trades council. Three big steel shipyards, about sixteen wooden shipyards and forty contract shops will be affected.

Receipt of telegrams from President Wilson and Samuel Gompers, president of the American Federation of Labor, urging no precipitate action, gave hope that a walkout might be averted. This vanished, however, when it was announced that the President was planning to have the controversy settled by the wage adjustment committee of the United States shipping board.

The council's business agent took the position that the government had hopelessly misunderstood the Seattle situation in attempting to link it with the situations in San Francisco and Portland, and that further attempts to postpone the walkout would be useless.

SOLONS MAY VISIT FRANCE

Sending of Congressional Committee is Urged.

Washington, Sept. 26.—Congressman Pat Norton of North Dakota made a speech in Congress advocating the sending of a joint congressional committee to France as the guest of the French government to visit the battle lines. Mr. Norton urged that this would give the congressmen a better idea of actual war conditions and they could return and tell their people about them, bringing about increased interest in the war. Mr. Norton has not given up his idea of calling Congressman Hefflin to account for his unproven charges in connection with the Bernstorff "slush fund."

Disability Rates Are Approved.

Washington, Sept. 26.—Disability rates in the soldiers' and sailors' insurance bill as passed by the House were approved by a Senate finance subcommittee.

Fears Russia Has Hard Road Ahead.

Stockholm, Sept. 26.—Charles R. Crane of Chicago, a member of the American commission to Russia, who spent two days in Stockholm en route from Petrograd to England, describes Russia as facing a long period of trial and inner chaos and to be suffering from an overdose of exaggerated modernism in Socialist reform ideas. Russia, he declares, are groping blindly for a way out from the present troubles, but are inspired by a sincere desire and intent to find a satisfactory solution.

COUNT DE SALIS

Appointed British minister of special missions to the Vatican.

Count De Salis, who has been appointed to succeed Sir Henry Howard as minister of special missions to the Pope. Sir Henry Howard, the first British minister to the Vatican, was appointed in November, 1914. Count De Salis was the British minister to Montenegro since 1911. He is a veteran in the British foreign service and has won commendation for his diplomatic way of handling intricate situations.

NO WASTE OF PROFITS

United States Is Warned Against Such Danger.

Bankers' Convention Addressed by Representative of British Treasury Department.

Atlantic City, N. J., Sept. 26.—Basil P. Blackett, representative of the British treasury, speaking at the convention of the American Bankers' association, warned the American public against waste of war time profits.

He was speaking before the members of the savings bank section. It was said the theory of officials of savings banks is that purchases of war loan bonds should be made from the extra money earned by wartime conditions.

"The war must be paid for out of the new savings," Mr. Blackett insisted.

"It is not enough to say it is to be paid either out of taxation or out of the proceeds of government loan issues. For the question arises immediately, how does the nation at war manage to provide the sums required from it by the government in the form of taxes or loans?"

\$60,000,000 a Day.

"The British government is spending more than \$60,000,000 a day on the war at present. The important thing is not the number of dollars which the belligerent governments are spending, but the goods and services which they command. If the goods and services are secured, the war is being paid for.

"When people lend money to the government they provide the money needed to pay for their subscription in various ways. The best way is that they should deny themselves comforts and luxuries and instead of using their money to command goods and services for themselves, they should get out of the market for them, and hand over the power to command these goods and services to the government, which uses them for war needs.

"A second way of providing money for subscriptions to war loans is to sell securities."

Russia Needs Engines, Says Willard.

Buffalo, N. Y., Sept. 26.—"The more engines we send to Russia the fewer of our boys will be sent to France," said Daniel Willard, chairman of the council of national defense, in an address to the Grain Dealers' association. Russia, he said, wants from 1,000 to 1,500 locomotives and France an equal number.

Deficit Bill Passes Senate.

Washington, Sept. 26.—Without a roll call and after brief debate the senate passed the \$3,000,000,000 war deficiency appropriation bill. Nearly \$800,000,000 was added to the measure as it came from the house and it now goes to conference.

Long Time Paper Frowned On.

Washington, Sept. 26.—The federal reserve board has taken steps to abolish long time credits in this country during the war to keep the financial resources of the country in a more liquid condition. Governor Harding has asked each of the 12 federal reserve banks to encourage in every way the substitution of 90-day for six-months notes. Hereafter the federal reserve banks will not rediscount commercial paper that has more than 90 days to run, except in the case of agricultural paper.

SEAMEN VOTE STRIKE

Great Lakes Union Announces Result of Ballot.

Extension of "Atlantic Agreement" Demanded—Tie-up of Coal Shipments Oct. 1 Feared.

Chicago, Sept. 26.—The lake seamen, numbering 20,000 members, have voted to strike.

The two weeks mail vote closed at midnight Monday, and Victor Olander, secretary of the union, declared the vote was practically unanimous in favor of the strike.

To Seek Agreement.

Olander and other union officials are expected to make one more effort to effect an agreement with the lake carriers association before the strike becomes effective Oct. 1.

"Our demand is the extension of the 'Atlantic agreement' to the Great Lakes, in the manner recommended by the Washington conference Aug. 1, which was approved by the government," said Olander.

"We believe the Great Lakes should be used in training men for merchant ships which ply in the war zone. This was the purpose of the Washington conference. Under existing conditions young men on the Great Lakes are not given the opportunity to become able seamen. As a result thousands quit the boats annually in disgust.

May Halt Coal Shipments.

If the men walk out, freight traffic on the Great Lakes would be practically paralyzed. Coal shipments now being rushed to the head of the lakes would be halted, it is feared, at a time when efforts are being made to overcome the shortage. About 4,000 seamen, 4,000 firemen and 2,000 cooks are affected by the strike. Passenger line owners express their willingness for conciliation.

Autopsy Is Performed.

New York, Sept. 26.—The autopsy upon the body of Mrs. Robert Bingham, who, before her marriage was Mrs. Henry M. Flagler, was performed at Wilmington, N. C., by Dr. Charles Norris, it was stated at Bellevue hospital. Vital organs taken from Mrs. Bingham's body are being subjected to tests at the laboratories. Final results of the tests will not be known for several days, it was stated, as the chemical nature of the examinations require some time.

Arguments in Ax Murder Case.

Red Oak, Iowa, Sept. 26.—The end of the trial of Ray Lynn George J. Kelly, charged with one of the VII. Isca ax murders, within 48 hours was forecast Tuesday when both state and defense rested on their rebuttal testimony. Closing arguments will be made at once and the fate of Kelly will be in the hands of the jury by tonight, it is believed. Two attorneys on each side are to make the closing pleas. Four alienists, all superintendents of Iowa institutions for the insane, testified.

WELDING

AIR HERO THOUGHT DEAD

Guynemer, Foremost French Aviator Reported Killed.

Had Accounted for Fifty-two Enemy Machines—Sergeant MacMonagle, American Airman, Shot Down.

Paris, Sept. 26.—The famous French aviator, Captain George Guynemer, is believed to be dead.

Death of Sergeant Douglas MacMonagle of the Lafayette escadrille, in an air combat over Verdun region, has been confirmed. He was shot down. His mother lives in San Francisco.

Fiftieth Victory Cited.

Captain Guynemer, perhaps the most brilliant aviator of the war, was cited last in the official French announcement Sept. 10 for having won his 50th aerial victory. An unofficial press dispatch, a few days earlier, said he had accounted for 52 enemy machines. He was 21 years old.

Only a little more than two years ago, Captain Guynemer was a simple soldier. Joining the aviation corps, he rose rapidly in rank until he attained the grade of captain.

WHEAT COMES FROM CANADA

Much Grain to Be Shipped in Unless Farmers Sell.

Minneapolis, Sept. 26.—Half a million bushels of Canadian wheat has just been purchased by Frank L. Carey, local buyer for the government Food Administration Grain corporation, to come to Minneapolis. This purchase is to bridge over a temporary shortage at the mills, and was made to fulfill an obligation on the part of the food administration.

The 500,000 bushels just purchased is the first of what will be a large movement from Canada, unless supplies from Minnesota and Dakota farms increase materially in the near future.

Germans Driven Out Again.

London, Sept. 26.—The Germans delivered a powerful attack against the British east of Ypres. They succeeded in gaining a foothold in British lines on narrow fronts. Hand to hand fighting ensued and after another strong German attack the British re-established their line in its entirety, according to Field Marshal Haig's report last night.

Potato Crop Satisfactory.

Barnesville, Minn., Sept. 26.—Potato digging is on in this part of the valley. An average of 50 bushels to the acre is expected. Flax has fallen far below expectations in yield and a great many farmers will not get their money back.

Conservation of Sugar and Meat.

Our French allies have asked to be allowed to export from this country, during the next month, 100,000 tons of sugar. The French people will be entirely without sugar for the next two months unless they can obtain it from us. Mr. Hoover states that the United States can furnish the French people with the amount of sugar which they require if we will reduce our consumption of this article by just one-third. Most of us eat more sugar than we need and we could easily reduce the consumption of this food in candies and cakes.

Bran cannot be said to possess a high nutritive value but when used in a moderate amount is beneficial to most persons. Bran bread can and will

ANSCO CAMERAS & SPEEDEX FILM

The Folding Ansoco has many exclusive picture-saving features. For example, in the winding end of the Ansoco is a patent spring which holds the film taut in winding; holds the free end when exposed; lifts out the full spool, and keeps the film from sticking in the camera.

Let us show you the many other good points of Ansoco Cameras. We have a complete stock of Speedex Film, Cyko Paper and all supplies.

LOCAL MARKET QUOTATIONS.

The quotations hereunder are those prevailing on Thursday morning at the time of going to press:

POTATOES
Table stock 60c @ 65c
Triumphs \$1 @ \$1.10

GRAIN, HAY, ETC.
Wheat—No. 1 Northern \$2.07
Wheat—No. 2 Northern 8c @ 10c
Wheat—No. 3 \$2.01
Oats 48c @ 53c
Barley 97c @ \$1.22
Flax \$3.16 @ \$3.30
Rye \$1.72 @ \$1.80

LIVE STOCK
Fat Beeves, per lb 5c @ 7c
Calves, per lb 8c @ 10c
Hogs, per cwt \$17.00
Sheep, per lb 5c @ 8c
Hens, old, per lb 12c @ 14c
Springers, per lb 15c @ 16c

Fifty cents of each membership turned in for the Red Cross is kept in our local chapter to buy material to work on for the soldiers.

RECIPE FOR BRAN BREAD.
1 cup flour, 1 1/2 cups bran, 1/2 cup molasses, 1 cup sweet milk, 1 teaspoon salt, 1 teaspoon soda, 1/2 cup raisins.
Sift soda and flour together. Mix dry ingredients. Add molasses, milk and raisins. Bake for one hour in a slow oven.
Bran may be obtained from the feed stores or from the mills.
We are urged to conserve meat also. Cheese is just as nutritious as many meats and when prepared in the following manner makes a delicious dish.
ESCALLOPED CHEESE.
6 large slices bread (3/4 in. thick), 3 tablespoons butter, 1/2 cup grated cheese, 2 1/2 cups milk, 2 eggs, 1 teaspoon salt, one-eighth teaspoon pepper, 1/4 teaspoon mustard.
Butter bread. Cut in inch squares. Fill an oiled baking dish with alternate layers of bread and cheese. Beat eggs slightly. Add to milk with seasonings and pour over bread and cheese. Bake for one hour in a slow oven. G. D.
