Instructions for Sending Christmas Boxes to Soldiers Overseas.

The war and postoffice departments and the American Red Cross have made an arrangement by which every man in the army overseas may receive a Christmas parcel from his family or friends. The amount of shipping space which can be set aside for the transportation of these parcels will permit the sending of but one parcel to each man.

Each soldier overseas will be provided with one Christmas Parcel label. This label will be forwarded by him to the person in the United States from whom he wishes to receive his Christmas package. Packages that do not bear this label will not be accepted by the Red Cross for delivery to the post office authorities. Labels that are lost will not be duplicated.

Christmas parcels must be placed in standard cardboard boxes 3x4x9 inches in size. These boxes will be provided to holders of labels by the American Red Cross. They may be obtained at Red Cross chapters or branches after November 1.

Study these instructions and avoid mistakes. No message or writing of any kind will be allowed to go in the boxes. When the boxes are packed, but unwrapped, they must not weigh more than 2 lbs. 15 ozs. If the parcel is overweight, some article must be removed.

The following is an outline of the procedure to be followed by persons planning to send one of these parcels abroad:

On receiving one of these Christmas parcel labels, it should be presented at the nearest chapter, branch or auxiliary headquarters of the Red Cross, where the holder will receive a car-

ton. The cartons for Princeton and vicinity are at the Red Cross workroom in the basement of the Armory, which is open in the afternoon from 2 to 6 on Wednesdays, Thursdays and Fridays.

Do not mail your box yourself. When packed, the box unsealed and unwrapped, ready for inspection, should be taken to the nearest collection station designated by the Red Cross. Red Cross representatives are authorized to remove objectionable articles from parcels. The parcels are to remain in the custody of the Red Cross until delivered to the postal authorities.

The collection station for Princeton and vicinity will be at Herdiska's jewelry store, where Miss Nora Bryson, a former postoffice employe, will superintend the inspection of the parcels. This department will be open from 2 to 5 every afternoon of the week beginning Monday, November 11.

These boxes may be filled with any combination of articles, except those on the list barred by the postal officials. The following is a list of the principal classes of articles which are unmailable:

1. All spirituous, vinous, malted, fermented or other intoxicating liquors.
 2. All kinds of poison and all articles and compositions containing poison.
 3. Explosives of all kinds.
 4. Inflammable materials, including friction matches.
 5. Infernal machines and mechanical, chemical or other devices or compositions which may ignite or explode.
- Note—Under this classification would come cigarette lighters, etc.

6. Liquids or liquefiable articles, fragile articles and other admissible matter when not packed in accordance with the requirements of the postal laws and regulations.

7. All other articles which may kill, or in anywise hurt, harm, or injure another, or damage or deface or otherwise injure the mails or other property.

Bear these facts in mind when packing your Christmas parcel:

Nothing should go in a Christmas parcel which will not keep fresh from the time of packing until Christmas.

Dried fruits and other food products should be packed in small tin or wooden boxes, one-quarter to one-half pound size.

Hard candy, including chocolate, would probably be safe in tinfoil or heavy cardboard, but no soft chocolates nor anything that could possibly be crushed should be used, as the remaining contents of the package might be spoiled thereby.

Several dainties packed in oblong tin boxes holding each a quarter of a pound, will provide a better variety for a packet than a larger quantity of a single confection.

No liquids nor articles packed in glass should be placed in the package. For wrapping the gifts, use a khaki-colored handkerchiefs, twenty-seven inches square.

Parcel post zone rates will be charged to carry them to Hoboken, N. J., from which place they will be carried free to the boys "over there." Be sure to have your carton at the inspection station ready for mailing by November 16th.
