500% Advance in Farm Values

Minnesota's progress shown in striking figures by Immigration Commissioner Fred D. Sherman:

"Land values in Minnesota increased 500% between 1880 and 1910, while the figures show a steady and substantial increase of Agricultural Development in Minnesota. I predict that we will accomplish as much in the next ten years as we have in the past thirty. There is a universal land hunger, and this 'Back to the Farm' movement has a firm grip upon all."

Robert H. King Land Agency Has a very large list of Minnesota improved farms and wild lands for sale at attractive prices, and it would be well to see them if you are thinking of buying land.
