Jensen and Mrs. Goldberg of Princeton, Mrs. Christensen of Minneapolis and Mr. and Mrs. Walter Nelson and children of Baldwin.

A large crowd attended the Farmers' club meeting last Thursday evening at the town hall and all report a splendid time. The pupils of the Wheeler school gave a short program and play, "Hans von Smash," which everyone enjoyed. Glen Lambert also played several fine violin selections. Lunch was then served, after which an old-time dance was enjoyed for a few hours. Six new members were enrolled.

Taxes of the Poor Man. It is interesting to know that opposition to what is called the sales tax comes for the most part from those who fancy it will lighten the burden of the rich and transfer it to the poorer classes. And some of these go so far as to add, "the poorer classes who now escape taxation and who ought to escape it." It is wonderful how prevalent is the impression that the poorer classes escape taxation and how wide of the mark it is. But as long as it makes way it will continue an obstacle in the path of agreement upon a system of taxation based upon a general business turnover.

Nobody goes untaxed and nobody should go untaxed. The burden of government should be borne by all, but should be distributed in proportion to the ability to bear. That system is conceded the worst which provides for invisible taxation so that it is difficult or impossible to determine how equitably the distribution of the burden is made. Thus, under the present system the poor man pays no taxes directly to the internal revenue agent and deceives himself into thinking that therefore he pays no tax at all. As a matter of fact he pays a tax with every purchase he makes, and pays more than he should of the taxes the rich man is enabled to pass along to him under the system.

It would be admirable if the poor could be informed precisely of the operation of the taxing system. Too many of them are indifferent on the mistaken theory that they pay no tax, and the system does not interest them. If they knew to a certainty just what part of the burden they are bearing—and assuredly the rich man makes no mistake about informing himself—they would become influential in forming the body of opinion which determines the tax system; and at least would not, through indifference and want of knowledge, be used as defenders of a system known to be injurious. The present system is to be abolished for the most part, but the wisdom of the plan to be substituted will depend upon public opinion; and public opinion is incomplete and misleading unless it includes the views of the masses who really pay the taxes, though so few of them realize it.—St. Paul Dispatch.

Let there be less light. The new automobile law forbids blinding headlights and the sooner it is enforced the better.—Albert Lea Standard.

Tire Bargains

On account of overstock of this size we will make this remarkable price on Blackstone, Republic and Firestone casings:

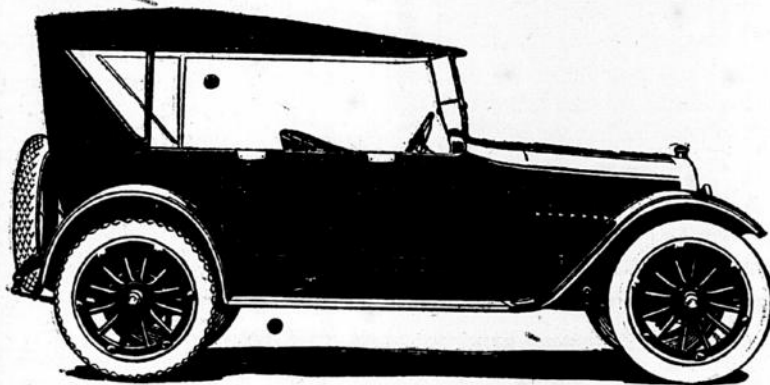

32x3 1-2 non-skid, 6000 miles.....\$15.00

32x3 1-2 rib tread, 6000 miles.....\$14.00

Come in and get them early or you will be disappointed. We still handle the high grade Brunswick tire and the price is so low you can not afford to buy cheaper tires.

A Place For Your Car

Housing your automobile in the barn is as unwise as hoarding money in a sock.

If your barn catches fire, your car—an investment of a thousand dollars or more—will burn up with it.

If your car should catch fire, it will burn your barn and all of its contents.

To have an expensive, highly finished machine in a barn is bad business. The stable fumes will ruin the finish, eat the metal and rot the tires.

This garage has large windows on both sides and in the end and lights in the doors. It has a handy work bench where you can keep your tools and accessories and do little repairing jobs that will save you money.

Every dollar that you put into a garage is an investment which increases the value of your property. You can't afford to be without a garage. Come in and see us about one now.

AT SEVENTY SHE GAINS 15 POUNDS

Mrs. J. E. Williams Declares Tanlac is a Medicine Without an Equal.

"Besides getting complete relief from six years of suffering by taking Tanlac, I have gained fifteen pounds in weight," said Mrs. J. E. Williams, of 1414 West Minnehaha Ave., St. Paul, Minn.

"I simply can't describe all that I suffered on account of indigestion. Everything I ate soured in my stomach and formed gas that bloated me up until I was in perfect misery. I got into a very weak and run-down condition. I had headaches constantly that almost drove me distracted, and my nerves became so upset I could not sleep at nights. I always got up in the mornings feeling tired and worn out and with a bad taste in my mouth. I just didn't have strength or energy to do my housework and often felt I should have to give up altogether."

"But since taking Tanlac all my troubles have disappeared. I now have a splendid appetite and can eat anything I want and never suffer in the least from indigestion. I have not only gained 15 pounds in weight, which alone is remarkable for a woman of seventy, but have been built up in strength to where I can do all my housework without any trouble. I have never come across any medicine equal to Tanlac and never intend to be without it after this."

Tanlac is sold by C. A. Jack Drug Co., Princeton, Minn. 20-tfc

LOUDEN LABOR SAVING BARN EQUIPMENT

For One Cow or a Hundred

For a large herd or a small one—for an old barn or a new one—for professional dairying or general purpose farming—you'll find the Loudon, time-saving, money-making Pasture Comfort Stall one of the best investments you ever made. Your cows themselves will pay for it—this year—and after that, what it saves and earns each year will be net profit.

Louden Stalls and Stanchions make it possible to care for the herd with so much less work and in half the time. That cuts the labor cost. Besides—the milk yield is bound to jump when the cows are transferred from uncomfortable quarters to the freedom of Loudon Steel Stalls and Swinging Stanchions. As much as a fourth more—that means additional profit.

The barn is more sanitary—that makes a higher quality of milk. Ventilation is better. Help is more contented. But there are so many good features about this Loudon Stall—come in and let us tell you all about it, as well as the famous Loudon Litter Carrier, Feed Carrier, Feed-Saving Mangers, and other Labor Saving Barn Equipment.

Give the cows a chance! You may find, as many another dairyman has found, that the difference in results between a comfortable and an uncomfortable cow tie, represents your Net Profit.

And remember—if you expect to build or remodel a barn—ask us for a copy of the Loudon Barn Plan Book. It shows scores of barns—all styles—and tells how to build most economically and to the best advantage. It's yours for the asking—come in and see us.

This Is The Minnesota State Prison

As a taxpayer your money has helped to build this institution and as a Minnesota farmer you can get your money back in many folds. Farmers are saving hundreds of thousands of dollars on agricultural implements manufactured here. If you have not benefited, here is your chance to share in the profits. Savings have been effected by keeping prices of competing machinery built outside the state down and still selling way under any other manufacturer.

Get Your Share Of This

A saving of at least \$800,000 has been made to the farmers of Minnesota on the famous Minnesota Binder Twine. Our wholesale price of this twine is 2 1/2¢ per pound lower than any other, and there is another 2 1/2¢ for freight and jobbers' profit which must be added. Therefore, on the 16,000,000 which we will make this year there will be more than three quarter million dollars saved to the farmers of this state.

Years of Reputation

The MINNESOTA LINE

Guaranteed by the State

of agricultural machinery is guaranteed by the state. It is all made of the best materials obtainable and throughout its production is constantly under the supervision of state employed experts.

Minnesota Binders as good as the best—show a favorable comparison in price and quality with any other. For example, the 7 foot binder is exactly \$26.61 lower than its competitor. These binders compare as favorably as the twine and this economy is well worth while.

Minnesota Mowers with years of reputation behind them, are sold, 5 foot length, for \$13.00 less than any other. When you consider the many points of superiority and long wearing qualities of this line you will see that these are the implements to buy.

Minnesota Rakes are just \$8.44 lower than any other good line sold in this state. This difference in price on the 12 foot, 36 tooth size.

This Is Your Opportunity
