

PEASE

Mr. and Mrs. Schruer of Holland, Mich., came Friday to spend some time visiting their children and friends. Mr. H. Hubers went to Minneapolis to meet them and bring them home in his car so they would not have to wait so long in the city.

A son was born to Mr. and Mrs. John Timmer last Friday.

Mrs. Martin Kingman returned home on Saturday evening from Chicago, where she had spent several weeks with her parents. She was accompanied home by her sister, Miss Weidenaar. Mr. Kingman, accompanied by Herman Van de Reit, autotod to Minneapolis to meet them, but met with disappointment as the ladies got off the train in St. Paul and the gentlemen went to Minneapolis.

Fourth of July was duly celebrated in Pease. The singing school gave a picnic and program. The program was very good and appreciated by all. The afternoon was taken up by the picnic, races, ball game, etc. Ball players on the east side of the track played against those on the west side. The score was 4 to 5 in favor of those on the east side, and this in spite of the fact that the west side had more good players than the east. Hip! Hip! Hurray! for the east side.

L. Slaughter has been confined to his bed for two weeks suffering from inflammation in the side. He is much improved now and is able to be up for a short time each day.

Mrs. I. Ykema and children returned home from Iowa on Tuesday evening. Peter Stellinga brought them home in his car and had the misfortune to break down at Duell. They telephoned Mr. Ykema and he started out with his car to meet them and bring them home. Mr. Ykema is not familiar with the roads in that part of the country and lost his way. He went to Santiago, Briggs' lake and almost everywhere but Duell. He finally found them and got back home about 7 a. m. Wednesday.

Members of the International Bible Students association held a picnic at A. Van Slooten's on the Fourth. Members from Ogilvie, Day, and Coyne were present.

Miss Theresa Van der Meer of Ogilvie came Friday to visit friends and take part in the Fourth of July program. She returned home on Monday evening. We were all very glad to see her.

Mr. and Mrs. Dave Roelofs of Prinsburg spent the Fourth with relatives here.

Mr. and Mrs. Dave Toussaint of Boek visited the J. Toussaint family from Saturday to Monday evening.

The Ogilvie band was here Friday and favored us with some music. They were advertising the celebration at that place.

ISLE HARBOR

Hugh Hibbard and family of St. Cloud Sunday at Geo. Richardson's. Mr. and Mrs. Jensen of Wyndmere, N. D., are here visiting their daughter, Mrs. Chas. Nason.

Hans Eidam spent several days of last week in Princeton on business. Mrs. Whipper and son, Fred, of St. Cloud spent a couple of days at the home of Geo. Richardson last week.

Mr. and Mrs. Jedlund and Mr. and Mrs. Martin Johnson of Princeton spent Sunday at the Skogen home.

A party of young folks from Princeton were guests of Mr. and Mrs. L. Skogen over Sunday.

Lloyd Wambau of Redtop spent a few days last week with Selma and Lester Skogen.

Mrs. Hans Eidam spent last Thursday at the Chamberlin home. Alfred Lundquist had the misfortune to lose a valuable horse from blood poisoning last week.

Mr. and Mrs. Peter Broostin and family of Isant were here over Sunday visiting at the Chamberlin and Sandberg homes.

Chas. Nason and wife left Saturday for Princeton, remaining over for the July Fourth celebration.

LONG SIDING

Oiga Teutz sewed for Mrs. Lipp on Wednesday and Thursday of last week.

A nine-pound baby boy arrived to gladden the home of Mr. and Mrs. Ira Smith early Wednesday morning, June 29.

Ira Smith is enjoying a visit from one of his sisters.

John Schmidt suffered from a bad case of Paris green poisoning a few days last week.

Dr. and Mrs. Wetter called at the C. E. Webster home on Thursday evening.

Mr. and Mrs. Carl Teutz visited friends near Foreston on Thursday afternoon.

Ethel Teutz spent a couple of days at St. Cloud with her sister, Florence, who is attending summer school at that place.

Mrs. Pete Anderson, who has been visiting friends in Minneapolis for a few days, came home Friday evening. Nearly everyone from this locality spent the Fourth in Princeton.

Frank Germsheid was taken ill suddenly while attending the exercises at the fair grounds July Fourth. He was removed to the hospital where his case was pronounced a hemorrhage of the heart. He is somewhat better at this writing.

FORESTON

Misses Mabel and Ethel Vallett came home from Duluth on Friday to spend the Fourth at their home in Granite Ledge.

A. E. Kuth and family and Mr. and

Mrs. Ed. Sampson of St. Paul were Fourth of July guests at the H. C. Kruger home.

Mr. Guy Kennedy and children of Duluth are visiting at L. K. Nelson's.

Mr. and Mrs. J. A. Lynch and family, Mrs. Otto Budde and Misses Anna and Ellen Lynch motored to Bemidji on Sunday morning. They returned Tuesday.

Miss Katherine Kubeck of St. Paul is visiting her sister, Clara Kubeck.

Miss Selma Sandquist came up from Minneapolis on Saturday evening to spend the Fourth with home folks.

Roy Pinkham of Canada is visiting relatives here.

Quite a number of people from here spent the Fourth at Mille Lacs and Sullivan lakes.

Miss Vera Jermsta of Minneapolis visited at the F. T. P. Neumann home a few days last week.

Tom Stewart came from Bemidji on Saturday and spent the Fourth with his family, who are visiting here.

Mrs. Kettleson and children are visiting at the Panchot home.

NEVER AGAIN FOR PLUMLEY

Victim of Unkind Suspicions Will Carry No More Stuff Home to Oblige the Wife.

Mr. Plumley was embarrassed and well might be. For the suitcase he was carrying had sprung a leak! And as he walked swiftly through the crowd on the street it seemed that everyone glanced down at the leather bag, and saw that something was wrong. Curses on that prohibition law! Ever since it had been passed people noticed any one who carried a package—especially a suitcase.

A policeman eyed him suspiciously and Plumley hurried faster than ever, almost breaking into a run. He boarded a street car and placed the bag on the floor in front of him, trying to cover it with his feet as much as possible. It was useless. The stuff continued to trickle out and soon formed a miniature pool. Some of the red-nosed male passengers looked enviously at the sight and smiled; even the ignorant-looking wop in the next seat looked wise! But all Plumley could do was to turn several colors and wish them all in hades!

In something like a year the car arrived at his suburban home. "Were you able to get any?" asked his wife at once.

"Yes," said Plumley, throwing the suitcase to the floor with a bang. "plague take 'em! Those are the last oysters I'll ever carry home!"

Autoists Blame Potato Bugs.

Potato bugs are speed foes in south Jersey, say the motor drivers who have investigated the reason for the skidding of automobiles on apparently dry roads. They declare that the trouble has been caused by potato bugs migrating from one field to another and crossing the roads in the paths of their machines. Automobiles are exterminating about as many of the pests as the usual application of poisons, as the latter have washed off nearly as fast as they have been applied during the rainy weather. One farmer is said to have placed a motor home in his spraying outfit. As he had previously trained his flock of geese to gobble up the potato beetles, he claims that the honking of the horns is quite effective in frightening the pests away.

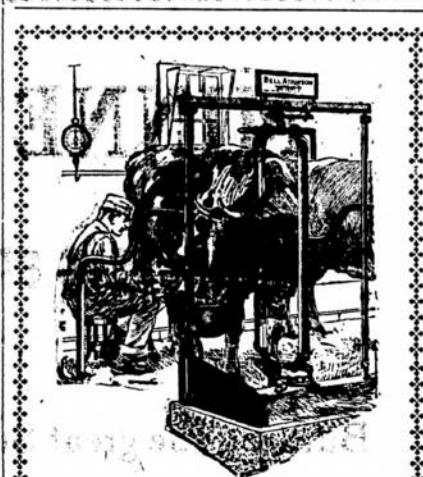

VENUS NEVER WITHOUT VEIL

Impenetrable Cloud Mask Envelops the Planet and Allows No Glimpse of Anything Beneath.

What makes the planet Venus so silver-bright? Many a one has put this question to himself, and must have been unable to find a satisfactory answer, London Answers Suits.

But the answer is that we see the silver lining of the cloud-mask which covers the features of Venus, for, as dazzling as this planet appears to us, it is enveloped in somber clouds that never seem to break and afford us a glimpse of what is below. At best there is "no real proof" that the markings which have been seen are on the planet's surface. At all. Slow-moving cloud masses would be liable to be very deceptive and might well be mistaken for something more solid.

The persistency of Venus' vast

James Cups Make More Milk

A COW needs two things to make milk—feed and water.

Feed costs big money while water costs practically nothing.

Feed is necessary, water is of great importance.

Jamesway cups make it possible for the cow to drink whenever she desires, both day and night.

Install James cups. You can expect from two to five pounds more milk each day.

L. E. BERGMAN
Princeton, - Minn.

cloud-envelope is remarkable. It is present year in and year out, reflecting the sunlight with mirrorlike brilliancy.

How Venus would appear without it is hard to say, as we have no knowledge whatever of the real composition of her globe.

All that can be said with any certainty is that she would lose a large share of her radiant beauty. If this light-reflecting shell of clouds were removed, Venus would appear as a dead, lifeless planet.

She might look like Mars or like Mercury, and would certainly fail to bewitch mankind as she does now.

The true secret of her peerless beauty, therefore, is her veil of clouds.

Savage Child Is Trained

Baby Girls From Their Earliest Infancy Are Taught Household Duties by Their Mothers.

Most of those who know little of savage and semi-savage peoples naturally suppose that the children are allowed to "run wild" with no thought given to their training. This is far from the truth, particularly among some of the tribes of Togoland, on the African west coast.

As soon as a girl baby is able to toddle—and they are taught to walk much earlier than our children—the training of the girl is begun. She is given a calabash, and taught to balance it upon her head. Then the calabash is filled with water. Thus she learns her first duty in usefulness.

From this time forth the child becomes a part of the tribal or village organization. She goes with her mother to the river when the women go there for water. She is taught to sweep out the hut with a broom. Out in the forest she goes with mother and there learns what herbs and wild vegetables are good for food, and which should be avoided. At home she is taught how to prepare the food for the family eat. In a word, from her very earliest days the child is taught how to perform the domestic and other duties the average native woman must perform.—Temple Manning in the Cleveland Plain Dealer.

Hope for the Middle Aged.

"There is no need to grow old and stiff."

This is Sir James Cantlie's message to the man or woman whose muscles appear to be losing their earlier resilience. It was delivered at a demonstration of Swedish gymnastics at the Albert Hall in London. Sir James presided and after watching the graceful movements of the athletic young people of both sexes said he hoped they would continue their exercises even when they were no longer young in years. "Some of us," he added, "who are watching should be in the arena doing what these young ones are doing. Their muscles are not hard and inflexible. Ours probably are." Sir James added that 80 per cent of the people of the world were imperfect. One leg was shorter than the other by perhaps the eighth of an inch or a two hundredth part of an inch. "It was abnormal to be normal."

Quality Before Quantity.

More bigness, after all, is never a sound criterion of value. Art connoisseurs know this. They will pay more for a tiny painting by Vibert than for huge canvases by painters inferior to Vibert in ideas and in vision.

To think qualitatively is, and always has been, a fundamental human need. It will always be. Not how much we

DEMAND FOR TANLAC BREAKS ALL RECORDS

Amazing Success Achieved by Celebrated Medicine Not Only Phenomenal, But Unprecedented—Over 20,000,000 Bottles Sold in Six Years—Foreign Countries Clamor For It.

Never before, perhaps, in the history of the drug trade has the demand for a proprietary medicine ever approached the wonderful record that is now being made by Tanlac, the celebrated medicine which has been accomplishing such remarkable results throughout this country and Canada. As a matter of fact the marvelous success achieved by this medicine is not only phenomenal, but unprecedented.

The first bottle of Tanlac to reach the public was sold just a little over six years ago. Its success was immediate and people everywhere were quick to recognize it as a medicine of extraordinary merit. Since that time there have been sold something over Twenty Million (20,000,000) bottles, establishing a record which has probably never been equaled in the history of the drug trade in America.

Fame is International.

The instant and phenomenal success which Tanlac won when it was first introduced has been extended to practically every large city, small town, village and hamlet in North America. Its fame has become international in its scope and England, Japan, Mexico, Cuba, Hawaii, Alaska, Porto Rico and many European countries are clamoring for it.

From coast to coast and from the Great Lakes to the Gulf of Mexico, Tanlac is known and honored. Millions have taken it with the most grati-

possess, how much we produce, how much we export or import, but the quality of all our doing and feeling and believing—that is the thing.

The wealthiest of nations can at the same time be the most discontented, restless and unhappy. "More, more, more," is never the slogan of true success. Think quality, not quantity, is the dictate of truth to all of us.—H. Addington Bruce in the Chicago Daily News.

Tired of Household Devotions.

E. F. Benson, son of the late archbishop of Canterbury, in a reminiscent record of his family life, tells that the Benson children grew rather weary of the rigors of devotion established in the household of the archbishop and, when the latter was absent, of Mrs. Benson, mother of the brood, saying: "We won't have prayers tonight for a treat!"

Source of Style.

"Your speeches do not display the accuracy of grammatical form which used to distinguish them." "I've been afraid something like that would happen," replied Senator Sorghum. "I have been obliged to depend on a brand-new stenographer."

Accomplished.

The air straphanger has made his appearance in the British air service between England and France. He will soon learn to read his newspaper that way.—Birmingham, Ala., Age-Herald.

To Whom It May Concern.

I hereby give notice that I will not be responsible for any debts contracted by my wife, who has left me.

Here's why CAMELS are the quality cigarette

BECAUSE we put the utmost quality into this one brand. Camels are as good as it's possible for skill, money and lifelong knowledge of fine tobaccos to make a cigarette.

Nothing is too good for Camels. And bear this in mind! Everything is done to make Camels the best cigarette it's possible to buy. Nothing is done simply for show.

Take the Camel package for instance. It's the most perfect packing science can devise to protect cigarettes and keep them fresh. Heavy paper—secure foil wrapping—revenue stamp to seal the fold and make the package air-tight. But there's nothing flashy about it. You'll find no extra wrappers. No frills or furbelows.

Such things do not improve the smoke any more than premiums or coupons. And remember—you must pay their extra cost or get lowered quality.

If you want the smoothest, mellowest, mildest cigarette you can imagine—and one entirely free from cigarette aftertaste,

It's Camels for you.

Poetic? Rats!

When Alice Smith had attained the age of sixteen she undertook to alter the orthography of her given name so that, it seemed to her, was a more poetic form. Accordingly, she began to sign herself Alyce. Thus designated she entered a new school and, of course, the first question put to her was with reference to her name. "Alyce Smith," she said. "A-l-y-c-e." "Thanks," said the teacher. "And how are you spelling Smith now?"—Philadelphia Ledger.
