MERCHANT TELLS OF A REMARKABLE CASE

Writing from Maxey's, Ga., A. J. Gillen, proprietor of a large department store at that place, says:

"I have a customer here who was in bed for three years and did not go to a meal in that time. She had five physicians and they gave her up. One bottle of Tanlac got her up, on the second bottle she commenced keeping house and on the third she did all the cooking and housework for a family of eight."

This sounds really incredible, but it comes unsolicited from a highly creditable source and is copied verbatim from the letter.

Tanlac is sold in Princeton by C. A. Jack Drug Co., and by leading druggists everywhere.

Complete the Joy of Motoring

Have a convenient place for housing your car and making the small repairs.

One of the first requirements of a complete garage is the work bench—you need a place for the tools and accessories. This bench may be built along the side or in the rear, according to choice. Of course, you'll arrange for the windows. Good lighting is first-aid to handy repair work. A concrete floor provides good drainage and you can wash the automobile in all kinds of weather.

Build a garage now. It's a year 'round necessity.

We have a ready built garage for sale cheap.

From the makers of U.S. Royal Cords to the users of Fabric Tires

THE U.S. USCO TREAD

Here is the U. S. Usco Tread, with a long-established standard of service among motorists who have an eye to value, as well as to price. While selling for less than the other tires in the U. S. Fabric line, the Usco has earned a reputation for quality and dependable economy which is not exceeded by any tire in its class.

In all of modern merchandising the biggest conundrum is the fabric tire situation.

Around 70% of all car owners use fabric tires.

Their instinct for quality is as strong and insistent as any one else's.

Why, then, are they offered such hodge-podge stocks of "discount tires," "odd lots," "seconds," "retreads" and other so-called bargains of uncertain origin?

People have gotten very close to the U.S. policy. Felt it. Benefited by it. And passed the word along.

It's a policy settled to one standard for all U. S. Tires. Whether fabrics or cords. Small sizes or large.

Giving to the fabric tire user fresh, live tires. Being made now. Being shipped now.

All the original U. S. vitality and service comes through when you buy a U. S. Fabric Tire.

- United States Tires are Good Tires**
- U. S. USCO TREAD
 - U. S. CHAIN TREAD
 - U. S. NOBBY TREAD
 - U. S. ROYAL CORD
 - U. S. RED & GREY TUBES

Sooner or later the public always seeks out quality. As a matter of self-protection—if for no other reason. The out-and-out opinion in favor of U. S. Fabric Tires has spread more this year than it ever did.

"Usco," "Chain," "Nobby." Three different treads.

Built by the same brains, the same policy, the same quality ideals that have made U. S. Royal Cords the standard measure of tire worth.
