

Off Summer Pastures

As your animals come in off the pastures they'll miss the tonics and laxatives which nature supplied to keep them in condition. It's a big change. You must supply what is lacking in the dry feed—hay, grain and fodder—or they will get "off feed" and out of fix.

Dr. Hess Stock Tonic

She secured this film at a considerable extra expense but had the satisfaction of knowing that the Strand theater would put on a good clean show that evening and next day.

BUSINESS MEN WANT MUCH

Some Qualities That Applicant for a Job Had to Show in a Character Test.

A New Yorker who, for reasons of delicacy, must be nameless, was recently gratified with a tempting offer of employment.

The firm which sought his services required from him a scientific character reading by an expert. He was referred to a local psycho-analyst retained by the concern.

The expert rated him high on latent ability, but deficient in the essential business qualities of "self-esteem and selfishness."

He did not get the job, says Leslie's. "Sorry," he was told, "but your character shows there isn't enough iron in your make-up."

Ho, for the good old days when a mean man was still an "ornery cuss" and generosity was yet respectable. Time was when a man's kindness recommended him for a job and gave him reasonable hopes of advancement.

Now, a growing number of employers insist that his worth be weighed in advance with a pair of apothecary's scales and gauged with a machinist's micrometer. And woe to him if the acute psycho-detective discerns in him a tendency to meekness or human sympathy! He suffers the besetting business vices of modesty and unselfishness!

How deeply, we wonder, have the doctrines of these latter-day prophets penetrated the collective business mind of the country at large! Must the model citizen who listens dutifully on a Sunday morning to a sermon on the brotherhood of man hurry home to a learned treatise on how to despise his neighbor?

What a theme for G. K. Chesterton—or Nietzsche!

Boy Scouts Aid Birds.

The birds in the neighborhood of St. Louis have had their housing problems reduced to lowest terms by the act of the boy scouts of St. Louis, who, as a result of a contest, provided 2,308 well-built bird houses, which have been placed in the public parks and other reserves. The winning troop turned out 651 bird houses. The scout executive writes that much interest was roused locally, not only in the house building which it is proposed to make an annual good turn event, but also in the scouts themselves.
