

NEWS SUMMARY OF THE CAPITAL

Republicans of House Ways and Means Committee Arrive at Compromise on Bonus Bill.

FARMER'S WIFE EXPLAINS

Nelson Warns Senators That Budget System Will Fail Unless They Follow House Lead.

A unanimous agreement on a compromise soldier bonus bill along lines officially submitted last week has been reached by the house ways and means committee republicans, who believe they have found a solution of the problem which has been giving administration and congressional leaders concern for several weeks. As now drawn the bill provides for cash payments only to those men whose adjusted service pay would not exceed \$50 and these four optional features: Adjusted service certificates with an added loan provision which would enable the men to obtain immediately from banks a sum equal to 50 per cent of the adjusted service pay; vocational training, home and farm aid, and land settlement. Chairman Fordney said that probably a week would elapse before all details of the loan proposition could be worked out and the original bill amended to conform to it. He stated that he believed the bill would meet with general approval for three reasons, namely: The needy veteran can obtain money as soon as his certificate is issued and in greater amount than is provided in the cash plan of the original bill; no large drafts to be made on the treasury until the expiration of three years; no new taxes required.

The plight of the farmer, his wife and children under the stress of hard times in agricultural pursuits was portrayed before the senate committee on agriculture by Mrs. N. P. Dadick of Fulda, Minn., a farmer's wife, who is vice president of the United Society of Agriculture. She said that unless congress does something to stabilize farm prices farmers' wives will be heard from in the next election; that the farmers' families are being broken up because the young men and young women will not stay at home to face existing economic conditions; that farm women are no longer the patient plodders they once were, content with whatever came, but are demanding a fair return for the work they put into making the farm a success. "Farmers," said Mrs. Dadick, "live by hope, faith and accident. We plow and sow in hope, live in faith and market by accident. The farmer, his wife and his family received about five cents per hour for last year's work."

Warning was sounded to the senate by Senator Knute Nelson that the new budget system will fail unless the senate follows the lead of the house and requires that all appropriation bills be considered by a single committee. A resolution providing for such a change was discussed in the senate, but no conclusion was reached.

Opposition to any general reciprocity agreement with Canada was voiced by Chairman P. J. McCumber of the senate finance committee when informed that W. F. Filding, Canadian minister of finance, was in Washington in the interest of such an agreement. "Canada has only agricultural products to send to the United States under such an agreement," said Senator McCumber, "and we have an exportable surplus of such commodities." McCumber is doubtless in the right.

The St. Lawrence waterway project seems to have died aborning. At least \$50,000,000 and possible \$60,000,000 will be slashed from the budget estimate of the war department by the house appropriations subcommittee which is framing the army appropriation bill for the fiscal year beginning July 1 next, members of the subcommittee predict. The measure, they add, not only will provide that the enlisted strength of the army be reduced from its present strength of 137,000 to 115,000 men on July 1, but that the number of officers be limited to 11,000, as compared with the present strength of 12,500 on the active list. From this estimate it does not seem that the officers are being reduced pro rata with the rank and file.

William Kennedy.

William Kennedy died at his home in Milo township on March 5, aged 72 years 11 months and 12 days. He came to Minnesota from St. Francis, N. B., where he was born on March 23, 1849, in the fall of 1876. The following spring he bought the place on which he resided until called by death. In 1882 he was married to Jennie M. Wetsel, who survives him. He also leaves one daughter, Miss Leila B. Kennedy, and the following brothers and sisters—Peter, Wahkon; John and Andrew, Foreston; James, Sherman, Main; Mrs. Flora Michaud, St. Francis, N. B.

Funeral services were conducted at the family residence in Milo township by Rev. D. M. Brown, pastor of the Milaca Congregational church, yes-

terday morning and the remains were brought to Princeton and laid to rest in Oak Knoll cemetery.

Mr. Kennedy was a hardy pioneer, settling in Mille Lacs county when Indians were numerous. He cleared a farm from the wilderness 45 years ago and continued in his occupation until eight months ago, since which time he gradually declined in health. He became a member of the Methodist church on September 28, 1895, and remained so until death. He was a man who pursued a course through life which he considered right, and the scores of friends he left behind prove that in pursuing this course he made no mistake.

JOSIAS N. ROGERS.

Former Princetonian, Who Introduced First Woman Suffrage Bill in Legislature, Dead.

Josias N. Rogers, civil war veteran, who for a number of years resided in Princeton, died in the soldiers' home, Minneapolis, on March 2. He had been confined to his bed from the effects of a stroke of paralysis for three months preceding death.

Mr. Rogers was born at St. Joseph, Mich., on February 21, 1845, and went from there with his parents to Berlin, Wis., where he was educated. He enlisted in a volunteer Wisconsin regiment when 15 years of age and served throughout the civil war. In the spring of 1866 he was admitted to the Wisconsin bar and immediately moved to St. Paul, where, in partnership with his brother, Edward, he engaged in the practice of law and dealt extensively in real estate. This was the only law firm in St. Paul at that time. In 1873-75 he was a member of the state legislature and during that time introduced the first bill proposing woman suffrage. He took a prominent part in politics and was a member of the Loyal Legion, Sons of the American Revolution and G. A. R.

He is survived by his wife, Mrs. Belle J. Rogers; three sons, Jay N., St. Paul; Frederick W. and George D., Brooklyn, N. Y.; a brother and a sister, Frederick L. Rogers and Sarah L. Rogers, Berlin, Wis.

Funeral services were held in the soldiers' home chapel at 10:30 Saturday morning and the burial was in the Soldiers' Rest at Lakewood cemetery, Minneapolis.

New Bridge to be Built.

A general mass meeting was held Friday noon to discuss the repairing of the bridge over the Rum river southeast of the village on the judicial road between Sherburne and Mille Lacs counties. A large number of farmers were present and pledged 100 days work to repairing the bridge and grading the road from John Footes' farm into the village. Sherburne county officials who were present promised that their county would contribute \$600 to the project. The work is to be conducted under the direction of our county engineer, Mr. Leonard.

The bridge was condemned two years ago and is positively unsafe. Everyone in the village and in the territory southeast of Princeton will rejoice to hear that the much needed repairing and construction is finally to be commenced.

NEARLY \$1,000,000 LESS.

That's the Sum Taxpayers of State Will Pay This Year; Mille Lacs County's Rate 70.46 Mills.

Figures compiled by State Auditor Chase, covering tax levies for the past two years shows that Minnesota taxpayers will pay nearly \$1,000,000 less taxes this year than in 1921. To be specific, taxes levied on the basis of the 1921 property valuation, and collectible this year, total \$115,818,077.03 as against \$116,720,416.05 for the previous year. This is a difference of \$901,584 in favor of the taxpayers of the state.

Mille Lacs county's contribution to this tax collection, including the statutory 3-mill tax on moneys and credits, will be \$484,773.40. The average rate of taxation for the county, exclusive of special assessments is 70.46 mills.

The taxable valuation of the state on which the reduced tax levy is made is \$3,452,539,549, and here also a decrease is noted. This decrease approximates \$57,000,000 and is explained in larger part by the omission of motor vehicles from the personal property valuation. Heretofore such were valued and taxed the same as other personal property, but now they are a part of the good roads revenue of the state and are so listed.

Basket Social in District 37.

A basket social was held in the school house of district 37 last evening. There was a large attendance and some lively bidding on the baskets. After the last basket was sold, Marion Mark, the auctioneer, turned over to the treasurer the sum of \$50. A few lunches were also sold, bringing the net proceeds to \$51.80. This sum will be spent in making certain improvements in the school house.

An entertaining program, under the direction of Miss Clara Rosin, was presented. It was the program which was originally planned for Washington's birthday but which had to be postponed because of the weather.

EDITORS ENDORSE FRANK KELLOGG

One Hundred and Thirty-Five Republican Editors Pledge Their Support to Frank Kellogg.

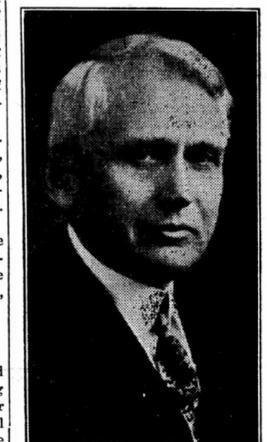

ARE UNITED ON CANDIDATE

Record of Constructive Service in the Senate is His Highest Recommendation.

One hundred and thirty-five editors of republican papers in Minnesota have signed the following pledge:

To the Hon. Frank B. Kellogg: Six years ago Minnesota editors urged that you become a candidate for the republican nomination for United States senator. Answering that call you became a candidate and were elected. You are now completing six years of the service that your election gave you the opportunity to render. We have followed the record of your constructive service and because we are proud of that record with its splendid achievements, particularly in the solution of problems affecting the welfare of agriculture, we are gratified to know that you are a candidate for re-election and inasmuch as fidelity to your high conception of your duties as senator keeps you in Washington we deem it our duty to pledge you our aid and our support in obtaining your nomination and election for a second term.

Six years ago 75 of the best known editors in the state signed a petition requesting Frank B. Kellogg to become a candidate for the United States senate. Mr. Kellogg had some months previous decided not to enter the campaign and had issued a statement to that effect, but after receiving the petition from the editors he reconsidered the matter and decided to comply with their request.

FRANK B. KELLOGG.

Probably no candidate ever received more united support from the country press than did Frank Kellogg in the senatorial campaign of 1916. Those papers merely reflected the sentiment of their own communities and he undoubtedly owed his election to them. Today the same element appears to be supporting him with even greater enthusiasm than in 1916. Almost twice as many editors have pledged their support to him as signed the petition six years ago. This can mean just one thing—Frank Kellogg has made good in the senate and the voters in the rural districts want to see him returned to that body.

The editors of the country weeklies are not seers and they may not be an especially brilliant group of individuals, but they are a decidedly independent class of writers and they are living right close to the bulk of common people. They will nearly always be found advocating those things which they believe will be of benefit to their own communities. They have followed Frank B. Kellogg's record in the United States senate and they find they made no mistake in choosing him as their candidate six years ago. They believe the rural districts in Minnesota, the agricultural communities, have in Frank Kellogg a man who will most ably represent their interests in the senate. The editors of the country press in Minnesota are therefore again voluntarily pledging their support to him.

High School Basketball Ends.

Basketball at the high school has ended for the season. The boys, although they have not fared so well as to win, have finished a good season. In spite of the fact that the team lost the majority of games, it is no more than just to say that the boys have put up a good brand of basketball. They lost two of their games by one point margin and one by three points, and, if they had "breaks" in any of these games that the other teams got, there is no doubt but what they would have turned in more wins. Three of the games that were lost were on small floors which were a handicap to them, inasmuch as they are used to a larger floor. So, taken all in all, they had a fairly good season.

To Capt. John Penhalegon goes the honor of being the particular star of the team. He was the main scorer, both from the floor and the foul line, and a clever man on floor work. Close upon his heels was the good floor game of Roe Sanford, whose guarding was one of the main points of the team. If he had been able to shoot baskets with a little more precision he would

have been a great help to the captain. To Philip Sampson goes the credit of being the snappiest man on the team. He was the smallest of the team but, nevertheless, always "in on the play." Howard Reichard and Archie McCool played alternately at the stationary guard post and did especially well, while Clement Sanford performed well considering it his first year as a regular. The substitutes, Lawrence Pearson, Leland Grow, Arthur Johnson, Lew Hedin and Walter Jump also played nicely for the length of time they were in.

The boys went to Forest Lake to play in the tournament on March 3 and 4, and although they lost to Sandstone, showed up particularly well. Following is the result of the tournament so far as available at this time: March 3, afternoon—Pine City, 22; Cambridge, 16; Milaca, 23; Forest Lake, 19. March 3, evening—Sandstone, 30; Princeton, 23; Anoka, 26; Hinckley, 18. March 4, morning—Sandstone, 22; Anoka, 20; Milaca, 27; Pine City, 17. March 4, evening—According to reports over the phone Sandstone defeated Milaca in the final.

DELEGATES TO BE ELECTED.

Delegates to Republican County Convention to be Chosen on Next Tuesday.

Next Tuesday at the village and town elections the delegates to the republican county convention are to be chosen.

As was stated in the issue of this paper of January 26, these delegates are apportioned on a basis of the votes cast for the republican candidate for governor at the last election, one delegate for every 50 votes. This apportionment gives Princeton village 14 delegates, Princeton town 4, Greenbush 4, Bogus Brook 2, etc.

The republican party leaders realize that the women in the state played an important part in the election in 1920 and they desire to give them the recognition they deserve in the coming campaign. Therefore the republican state central committee requested the county chairman to arrange to apportion the delegates to the county convention about equally among the men and the women. Our own county chairman, Fred Newton, believed this to be the fair and correct policy and has advised the precinct chairmen that he would be pleased to see them carry out that plan. In precincts where there is more than one delegate to be elected, it is hoped that the women will be given equal recognition with the men. If this is done it is up to the women to show their appreciation of the fact that the men consider them as equals in the political game and get out to vote.

Every woman in Princeton should take great pride in the fact that, at the general election in this village in November, 1920, the women cast 383 of the 811 votes recorded. The women throughout the whole country made a splendid showing in that election and just as good things are expected of them this year.

In the precincts where no candidates filed as delegates to the county convention the voters should write in the names of those whom they wish to represent them at that gathering. Let us remember we have a representative form of government in this country and avail ourselves of its privileges.

Free Trees for Schools.

It is a beautiful custom to plant trees on Arbor day, and it is expected that school children will this year plant more than ever.

The forest experiment station of the division of forestry of the University of Minnesota offers schools an opportunity to obtain 25 small evergreen trees for Arbor day planting.

The request for trees must be accompanied by 25 cents to cover the cost of digging, packing and shipping. Only one shipment can be made to a school.

The evergreens will be shipped from the nursery at Cloquet in time for planting on Arbor day, the date for which will be set by the governor's proclamation. Requests received later than April 1 cannot be filled. Requests should be sent the assistant superintendent of the forest experiment station, University farm, St. Paul, Minn.

Herman Streng.

Herman Streng died at the home of his son, Ernest, in Wyandot, on March 4, aged 76 years 5 months 5 days, and funeral services were conducted by Rev. A. W. Franklin at the home on March 6. Interment was at Oak Knoll cemetery the following day.

Mr. Streng was born in Ostfriesland, Germany, and came to the United States to make his home with his son in 1913. He was respected by all who knew him.

Local Potato Situation.

Potato prices for all varieties except Triumphs have gone down several points, but there is a heavy movement from the farms to the warehouses despite the condition of the roads. There are virtually no shipments in consequence of car shortage, although there is an increased outside demand.

CANDIDATES FOR VILLAGE OFFICES

A. B. Gramer and Fred W. Manke Contestants in Race for Presidency of Village Council.

THOSE WHO HAVE FILED

Delegates to the County Convention on March 18 to be Elected Next Tuesday, March 14.

The following have filed as candidates for office in the village of Princeton:

President—A. B. Gramer and F. W. Manke.

Trustee, one year—Chas. A. Klatt and Geo. C. Newton.

Trustee, three years—A. H. Prescott.

Recorder—Fred C. Keith and S. R. Jones.

Treasurer—J. C. Herdliska.

Constable, two years—Robt. H. King.

The polling place will be at the village hall from 9 a. m. to 9 p. m., and at that time the following candidates for delegates to the county convention, which will be held in Princeton on March 18, will also be voted on: Mrs. Ira G. Stanley, A. J. Anderson, Odin Odegard, E. L. McMillan, G. I. Staples, Fred Newton, Edna H. Caley, W. C. Doane, Grace A. Dunn, Sydney E. Berggren, Mrs. Elmer Whitney, Mrs. John Bishop, Mrs. H. C. Cooney, Geo. P. Ross.

Wood Not Candidate for Re-election.

R. A. Wood, president of the council, is not a candidate for re-election. Mr. Wood states that he finds it necessary to devote all his time and energy to attending to his own business affairs. Many of Mr. Wood's friends are much surprised to hear he is not again a candidate, because the president of the council, as a rule, holds that office for two successive terms.

Just at this season of the year, or possibly two weeks earlier, it is well to publish the following list of men who have in the past occupied the position of president of the Princeton village council:

- 1906—H. C. Cooney.
- 1907—A. W. Woodcock.
- 1908—A. W. Woodcock.
- 1909—W. H. Ferrell.
- 1910—W. H. Ferrell.
- 1911—G. H. Pennison.
- 1912—R. D. Byers.
- 1913—R. D. Byers.
- 1914—M. L. Wheeler.
- 1915—H. Newbert.
- 1916—H. Newbert.
- 1917—Swan Olson.
- 1918—H. A. Humphrey.
- 1919—S. E. Vandevanter.
- 1920—S. E. Vandevanter.
- 1921—R. A. Wood.

Mrs. John Wilhelm.

Mrs. John Wilhelm died at her home in Princeton township on Saturday, aged 33 years 2 months.

Martha Hedwig Gebert was born in Hamburg, Germany, on January 4, 1889, and in her childhood days came to the United States. On June 26, 1907, she was married to John Wilhelm. She is survived by her husband; four children, Elsie, Luena, Fritz and Kathrin; her father, August Gebert, Alberta, Ala.; four brothers, William, Albert and Henry, Princeton; Ernest, Alberta, Ala.; and one sister, Mrs. Albert Wilhelm, Princeton.

Funeral services were held at the home and in Immanuel's Lutheran church on Monday, Rev. W. E. Vogel officiating. The interment was at Oak Knoll.

Mrs. Wilhelm had suffered much during her long illness, but she bore her burden with great fortitude and her kindly disposition and cheerfulness remained to the last. She was a woman beloved and respected by all who knew her for her true Christian spirit and kindness. The sympathy of the community goes forth to the members of the family in their hour of sorrow.

John Wilhelm and family extend thanks to the kind friends and neighbors who assisted them during the illness and at the funeral of their beloved wife and mother.

Remember the Pie Social.

The Greenbush farm bureau unit will hold a pie social at the home of Kenneth Kenely on the evening of March 14. If you want some fun and appreciate a good pie, plan to be present.

Boys' and Girls' Short Course.

The short course to be held in Milaca, March 23, 24 and 25, is free to any boy or girl intending to enter any kind of club work the coming season. Enrollments indicate that we will have around 75 boys and girls attend this short course.

Instructions will be given in selection and feeding of dairy calves, feeding, selecting and caring for baby beef and hogs.

Friday night a free movie program will be given to all boys and girls who attend and any of their parents or

friends. The picture for that night will be both educational and entertaining. The story of boys' and girls' club work will be shown. Every parent interested in boys' and girls' club work should write the farm bureau office and reserve a seat for that night. Seats are free but we must know who intends to attend so that we can send you a ticket. Let your boys and girls join some of the following clubs this summer: Calf club, single pig club, sow and litter contest, judging club, baby beef club, canning club, bread baking club, corn acre contest, potato acre contest.

W. G. Hammargren, County Agent.

BABCOCK EXPLAINS.

Tells Why Snow Could Not be Removed by Department; Offers Help on Improvements.

Commissioner Babcock, in a statement, explains why snow removal from Minnesota highways is being left to local communities. Here is what he says:

"The highway department is seriously concerned with the problem of keeping the trunk routes open in winter and would have moved weeks ago had any practicable, feasible plan been found. But because of the heavy expense, the stronger claims for other kinds of highway work, the limits on funds—briefly, in consideration of the greatest good for the great majority, the state cannot justify a snow removal campaign at this early stage of highway development. Maintenance funds would be so reduced that the trunk routes would be half kept next summer when hundreds of tourists and ten times as many Minnesota people will use them.

"Interested communities must continue to handle the work as in past years. They may expect big help from the highway transportation companies. The state department will co-operate by permitting the use of suitable equipment in the districts and in other ways. It already is adopting snow-drift prevention features in new construction plans. It should be remembered that rural districts are supplied better winter highway facilities now than ever before, and also that the bulk of trunk highway funds come from motor vehicle owners who use the trunk routes ten times more in summer than in winter. We are trying to give maximum service over a maximum period of every year but present conditions will not warrant big snow removal operations."

Mr. Babcock has posted an offer to furnish state trunk tractor fleets at actual operating cost to build secondary roads under the county-town co-operative plan. From 10 to 40 cents of each road dollar can be saved by using heavy equipment on much of the work, the commissioner says, and counties and towns can take advantage of the saving without investing large sums.

Ralph M. Cooley, superintendent of highway department equipment, says that more than 50 powerful tractors and 100 big trucks will be ready for work on local roads in counties making advance arrangements. The machines are in good condition and in charge of crews of experienced mechanics and drivers.

TWO BOYS ARRESTED.

Taken Before Judge Roeser, Plead Guilty to Charge of Grand Larceny and Are Sentenced.

Louis Thoma and Donald Kuhlman, two youths, were arraigned before Justice Morton on Friday charged with grand larceny in the first degree in that they purloined a gold watch from a teacher's room in the school house. They waived examination and on Saturday were taken before Judge Roeser in St. Cloud, where they pleaded guilty. Thoma, who was out on probation at the time, was sentenced to serve three years in the state reformatory at St. Cloud and Kuhlman to the training school at Red Wing. Kuhlman's sentence was, however, suspended upon his promise to obey certain rules laid down by the judge.

Thoma had for some time been sleeping in the school house attic without the knowledge of Superintendent Hall, the teachers or the janitors. He and Kuhlman had spliced in an electric wire extension, installed a bulb and, with a number of blankets and two satchels containing all sorts of junk, o' nights he was as snug as a bug in a rug. When hungry he went down to the domestic science department and fixed himself up a lunch. He possessed keys to the school house and at night came and went as fancy dictated.

Last Thursday night County Attorney Doane and Deputy Sheriff Young brought Thoma's belonging's down stairs and locked them in Mr. Hall's office. Friday morning, however, it was found that they had disappeared. Thoma merely waited until the officers had gone, then unlocked the outside door and the door to Mr. Hall's office and silently stole the stuff away. Mr. Hall considered that he had one of the finest locks procurable, but Thoma, the expert, seemingly gained admittance without difficulty.

The authorities were apprised that Thoma, with a suit case in each hand, had proceeded toward Zimmerman and Harry Pratt, station agent at that

COUNTY BOARD IN REGULAR SESSION

Minnesota Loan & Trust Company Buys County Refunding Bonds in Sum of \$125,000.00.

THAT DISTRICT 13 MUDDLE

Road and Bridge Bonds Aggregating \$2,700.00 Are Sold to Capital Trust & Savings Bank.

The regular monthly meeting of the board of county commissioners was held in the basement of the Milaca school on Tuesday, and following is a synopsis of the proceedings:

County refunding bonds in the sum of \$125,000 were sold to the Minnesota Loan & Trust company at 5 1/2 per cent and a premium of \$180. These bonds were issued and sold for the purpose of taking up and redeeming outstanding county warrants and their sale will be a saving for the county, as it is paying 6 per cent interest on the present outstanding warrants.

Most of the afternoon was taken up on a hearing of the school petition of R. H. Karges et al., asking to have their lands set off from independent school district No. 13 and attached to other adjoining districts. A large number of people interested in the petition appeared before the board and it was necessary to adjourn to the big court room to handle the crowd. O. C. Myron of Milaca appeared as attorney for the school district, objecting to the allowance of the petition on the grounds that it would practically mean the dissolution of their consolidated district if this territory was cut off.

F. W. McAllister of St. Paul appeared as attorney for the petitioners. The main argument of the petitioners was that the present school tax rate which they are paying is practically confiscatory. The principal argument of the school district was that the exceptionally high tax for the year 1921 was caused by an excessive valuation of the petitioners' lands in the township of Milaca. After a full and fair hearing the petition was rejected by the board, with the understanding that the school board of district 13 would do everything within its power to reduce the tax rate for the future and that applications for abatement could be made out and filed with the county board to correct the excessive taxes for the year 1921.

Road and bridge bonds aggregating \$2,700 were sold to the Capital Trust & Savings Bank of St. Paul. This sale is made in connection with the former sale of \$55,000 bonds at the February meeting.

The sale of the Veal property in the village of Princeton to Sam Farrington for \$500 was confirmed by the board. One bid was received for overseer of the county home. This was the bid of the present overseer, L. R. Pierson. The matter was laid over until the next meeting.

Numerous applications for tax corrections and abatements were taken up by the board and acted on.

The usual grist of bills was allowed and the session adjourned.

"Green Stockings."

"Green Stockings," a three-act comedy, will be featured at the high school auditorium by a cast chosen from the junior class, tomorrow night at 8:15.

The story of the play depicts an episode of Celia Faraday, a humorous, vivacious young woman of questionable age (29), who has grown weary of her family life and desires some adventure. She meets a brave and daring soldier lover, names him John Smith, announces their engagement, and as a result immediately becomes the center of interest in her family, and admiring male friends discover charms they never knew she possessed.

Complications arise, however, when Celia's fictitious fiance returns to real flesh and blood from Somaliland, whither she had sent him on the same day she had his death announced in the London Times.

Come and see for yourself how cleverly they work themselves out of the net and into each others hearts. The cast of characters is as follows:

- Celia Faraday..... Mildred Newton
- John Smith..... Helen King
- Madge..... Lady Frencher
- Barbara Hartman
- Phyllis Faraday..... Bonna Wiley
- (Daughters of Wm. Faraday)
- Mrs. Chisholm Faraday of Chicago
- Lillian Werzin
- Colonel Smith..... Clement Sanford
- William Faraday..... John Dugan
- Admiral Grite..... Roe Sanford
- Robert Tarver..... Walter Jump
- Henry Beale..... Jordan Carlson
- James Raleigh..... Everett Walker
- Martin, the Butler..... Fred Townsend

place, was notified to be on the watch for the offender. Later Harry pond Princeton that he had Thoma and Deputy Sheriff Young went down and brought him back.

Among Thoma's effects were found books on lock construction, literature on how to cheat at cards, and other works published for the guidance of crooks. He was one of the brightest boys in his class and it is a pity his mind ran in the channels which it did. Kuhlman seems to have been a mere tool of the "master mind." It is hoped that they will benefit by the experience and eventually become good American citizens.
