NEW YORK IN FIRST PLACE

Out London as the Largest City

New York has surpassed London in population, according to the New York city census committee, if the same radius of territory is included within the New York city limits as is calculated in the London figures. In a statement issued by Dr. Walter Laidlaw, executive secretary, figures show that within a radius of nineteen miles of the City hall there was on January 1, 1920, a population of 344,508 more persons than in the metropolitan police district of "Greater London,"

says the New York Herald. Greater London, it is explained, includes not only London county, but an "outer ring" in which the metro-
