SATURDAY JUNE 5, 1897.

THE FAILURE OF JOHN SMITH. The recent failure of young John Smith. the Afro-American candidate for admission to the Naval Academy at Annapolis, is to be regretted and deplored, of course, but there are extenuating features in his case that are worth commenting upon. Young Smith entered into competitive examination, in a sense greatly unprepared, and to his credit he made more than a fair showing. It has been the custom for many years with parents having poys desirous of passing successfully the 'rig'd examination of the board to have them a pecially preprepared for the contest, weeks, and even months, beforehand by professional tutors-men who have themselves graduated from the Academy; who are familiar with the nature of the examinations, and make a buriness of imparting instruction. John Smith did not have this advantage, if he had, the result with him, no doubt, would have been quite different, and he would have been successful in his efforts. Notwithstanding the chagrin his defeat naturally caused him, he accepted it with becoming grace and deported himself in a very creditable and manly manner, acknowledging that he had been accorded a fair show and was fairly beaten, He thereby won

the respect and admiration of the members of the board, who praised and commented upon his conduct. This is, as a race, all we shall contend for and expect We are willing to rise or fall, as the case may be, if the test is to be upon the question of merit. The Afro-American CAPITALIZED FOR \$1,000,000 IN 1,000,000 SHARES AT \$1.00 PER SHARE no longer begs or pleads on the question of sentiment. Thirty years of freedom and its advantages have placed us beyond the pale of beggary, and today we are willing the mettle of brawn, intelectual ability should be tested against hat of any race on the face of the earth. If we fail in the contest we will avide by the consequences and profit by our defear by strengthening our forces in preparing for another attack. In short we purpose to keep up the onslaught until we are successful. We have not yet, as race, attained that proficiency to which we aspire and which is the Caucasian's but we are making great strides in that direction and the outlook is more than hopeful. John Smith, although of Wisconsin birth, is a product of the Chicago public schools, where he has earned a splendid record as a student and is regarded as a young man of considerable promise. His failure is therefore to be regretted by the race generally. Congressman White of Chicag, who selected the young man from his district and recommended him, showed a determination to stand by him at all bazards should occasion demand it, fortunately had no need of showing his zeal. To him, Afrc-Americans from all over the country, extend a races gratefulness and heartfelt congratulations for this manifestation of friendship.

Meanwhile young Mr. Smith's future movements will be watched with interest. It is safe to predict that he will make his mark in the world and prove an honor to his race, and, it is to be hoped, a proud blessing to his kind relatives who are educating him, for he is

The authoress, Mrs. Amelia E. Barr, does not seem to be in love with some of the customs of the new woman. Recently she wrote this eye opening penetrating paragraph. > Prof.E, Williams of Medford, Wis the only Afre-American circus owner in America, after wintering in California, has again taken to the road with a much larger and greatly increased aggregation then he has ever exhibited before, and is now touring the northwest. This is Prof. Williams' tenth season. He employes 75 people and owns 200 head of Arabian ponies and horses. This is a very unique departure for an Afro American to find favor and success 111. Who says the race problem is not solving itself?

They have some women in Michigan who possess rare business capacity. The other day one of them asked her husband to tend to the baby a few minutes. She threw a little checked shawl over her head, ran out and secured a divorce, leaving the care of the child to its father and was married to another man in time for supper. Promptness in business matters is what tells.

The tanners had a strike in Chicago the other day. The strike is over and thousand of the strikers are out of employment, while a thousand new men who took their places are at work. So it goes, and probably a year from now we shall hear of many of these strikers of this year taking the places of tanner strikers in other cities next May. So it

Tears in a pathetic chapter in a book or paper do not seem so much out of place, but when a public speaker turns his attention to tears he uto the audience in an awkward position. It wants to laugh, but out of regard for him it wrenches itself into rheumatism in ab staining from laughter. Public speakers should shed tears in private apartments.
