THE APPEAL had a very pleasant caller Thursday in the person of Prof. S. J. Hunter, president of Knoxbee Industrial School, situated at McLeod, eight miles from Macon, Miss. This school is in the midst of a dense population and has been doing much good in a humble way for several years and is just beginning to set on a good foundation. There are 350 pupils many of whom travel several miles daily in search of education, which is the one thing needful to bring these people to the plane they should occupy. The school is supported by subscriptions, county aid and "Harvest Conventions." Prof. Hunter is and it is very largely labor of love as he receives very little compensation compared to the energy, enthusiasm, talent and good common sense which he puts into his life work. Prof. Hunter was just passing through the city en route home and merely stopped to get acquainted with some of the people. He contemplates visiting the city again when he will, in a public way, tell the people more about his work.
