Mr. J. H. Hayes, of Pittsburgh, Pa., a young druggist, who for some time has been in the employ of Dr. J. E. He gave THE APPEAL a pleasant call, and also was a guest of Editor Adams for dinner at George Davis' restaurant. He met several of the prominent gentlemen of the city and was much pleased with the city and those whom he met.

"A fool and his money soon part" has seldom been more emphatically verified than in the case of Thomas Henderson, who was in the police court last Thursday morning on a charge of vagrancy. He had been discharged from the state prison at Stillwater Thursday of last week and had \$35, which he had earned while in durance vile. He was arrested Sunday and had not a nickel having spent all his money in three days that cost him so much time to accumulate. As no one can be prosecuted for vagrancy within thirty days after his discharge from the state prison the fool was released. Henry Edmund and Henry King and two white men were arrested at the same time for vagrancy, but all were discharged.

**IN A WINTER LAND**

**Norway's Iron and Locked Fjords and Dazzling Glaciers.**

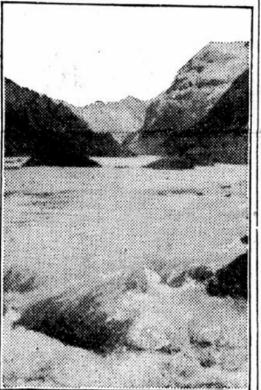

Seas Abound With Cod; Line Can Be Dropped in Fifty Fathoms of Water and Will Not Touch Bottom, Owing to Fish.

Copenhagen, Norway.—A commission to investigate iron ores and their mining and reduction in certain parts of northern Europe found me on a bleak November day aboard the trim little steel ship Astrea, a post steamer of the Bergenske Dampskiffseelskab.

The journey up the coast was a most interesting one. The ship coasted the frowning and glazier planned rocks of what is, literally, an ironbound land, for the rocks of Norwegian mountains for a distance of more than five hundred miles north and east from latitude 66 contain a considerable proportion of iron mineral; it is true that in most places this is too lean to be now available for commercial use, but its totality is staggering to the imagination. With abundant water power at hand, and with water transport in all the markets of the globe, who will have the hardihood to say that some time these deposits may not be made use of? We passed the mouths of fjords cut deep into the interior; glaciers, brilliant in the sun, stretching their widths across the distance. We saw the Norwegian codfishing industry, by which no less than fifty million cod are annually taken; and, at Svolvær, we met hundreds of vessels of the fishing fleets. These seas off the Lofoten islands swarm with cod, and Baedeker says that at times and places hereabouts a line thrown into 50 fathoms of water will not reach bottom for the backs of the fish.

It is the sea that supports northern Norway; without its harvest life would be impossible, and the government so fully recognizes this fact that it has established complete telegraph and telephone communication between the Lofotens and the mainland and upon many of the outlying islands has wireless stations for communication between the fleets and the shore. Svolvær is a town of two or three thousand fisher folk, but it has its water mains, its electric lights, its sewers, its cables and its well stocked shops. We passed Narvik, the most northerly railway terminus in the world, and threaded the island passages to Hammerfest.

At Vadsø the next morning I changed to the local steamer Veranger, and spent the day crossing the great fjord

Lake Leon, Norway.

of that name. The cabin was a mile of a hole well aft, and crowded by women and babies; the deck was bitterly cold and raw. How well I remember that I spent the day alternately freezing in the lee of the plothouse and thawing under the shelter of the smokestack! And there had been no opportunity for a meal between a supper on the Astrea the night before and another that evening, when I sat down in the chilly room of the hotel at Kirkenes—which is Svolværger—Dwight E. Woodbridge, in Engineering Magazine.

**SAVINGS TIED UP 30 YEARS**

Old Housekeeper's Long Effort to Regain \$1,100 From Priest's Estate.

Trenton, N. J.—An effort is being made by Mrs. Katherine Logue of this city to recover \$1,100 from the estate of the late Rev. Father Miska of Basking Ridge. Mrs. Logue was the housekeeper for the priest and entrusted her savings to him thirty years ago. She was suddenly called to Ireland and before she returned the priest died.

The money passed into the hands of the executors and for years Mrs. Logue has been trying to get possession of it, but she has no evidence that she gave it to the priest. Monsignor John H. Fox has now taken up the woman's case and will make an effort to get the money.

**STOCKINGS OF GOLD THREAD**

They Are to Cost \$25 and to Be Worn with Shortened Skirts This Season.

New York.—According to a fashion paper women's stockings made from real gold thread and silk are to be the proper thing abroad this season. They come from Vienna and cost \$25 a pair. Another novelty will be black or white silk stockings, which, above the ankles, will be worked in elaborate designs, such as a peacock with its tail outstretched, in gorgeous colors. To enable these embellishments to be visible, shorter skirts are to be insisted upon by the dressmakers, it is announced.

**THE SIN OF SILENCE**

To sin by silence when we should protest makes cowards out of men. The human race has climbed on protest. Had no voice been raised against injustice, ignorance and lust, the inquisition yet would serve the law, and guillotines decide our least disputes. The few who dare must speak and speak again to right the wrongs of many.—Ella Wheeler Wilcox.

**EYE DEFECTS AND SYMPTOMS.**

Eye defects are few—symptoms many. There can be but two defects in the human eye. They may be too long in whole. Then we have the Myopic eye. Or too short in whole—the Hyperopic eye. Combine the two in one eye and we have Astigmatism. Properly adjusted glasses will correct these defects. Medicines or waiting, never. Symptoms that spring from these two simple eye malformations are manifold; such as eye and headaches, Indigestion, Dyspepsia, Nervous Debility, Chorea, Epilepsy and other ailments having their origin in lack of nerve force. We correct all Defects of the human eye that glasses will remedy. Charges reasonable. Satisfaction guaranteed.
